Mr. W. Mitchell, a member of the trion Club and well known in musical indes, is about to leave the city.

THE KENNEL.

THE Canadian Kennel Gazette for June contains the latest batch of regisnations in the C. K. J. S. B. We notice te following from this city: St. Berards F. W. Hall's Dalgo Duke 3,389. lC Blackett's Hero B. 3,391, W. J. lefree's Buhla F. 3,390; Fox Terrier I.B. Carmichael's Pensarn Result 3,394; Mlies - J. B. Carmichael's Pensarn Chrisppler 3,393, and Metchley Minnie 3,392.

Owing to the honest and straightfored manner in which the affairs of the hadian Kennel Club are conducted, it molonger thought derogatory to a dog be registered in their stud book, and igowners all over Canada are hastening bregister their dogs with the home club. my parties in this city having dogs égible can obtain all necessary forms hm J. B. Carmichael, the agent of the Kennel Gasette.

The Canadian Kennel Gazette is pubhed monthly at Toronto, and is invaluthe to anyone wishing to keep posted on he doings in dogdom back East.

The Victoria Gun Club have done a hod work in importing fifty English fundge eggs from the well known American Pheasantry. Owing to the loods, they were five weeks on the road, thich may militate against their successhatching. If a fair proportion is bught out, we may expect to soon have his section of country well stocked with the of the best of game birds. Mr. Geo. Vinne, one of Victoria's most enthusiastic sportsmen, has had the management of the affair.

We hear that some of the partridges brought out from England by Mr. Stuart, of Hatley Park, have been seen this spring with nests.

Boston terriers are one of the latest pets of the richer classes, and W. B. Sylvester has had many enquiries after his last litter. He reports no sales as yet, as he is holding them at \$10 each. This seems a high figure, as in England dogs of almost any breed can be got for from five to twenty shillings each. In the English Stock Kevper, we notice Industrious Nell, the dam of the Hatley Park collie, was advertised at 6 guineas. But then it would cost at least another thirty dollars to get her here, to say nothing of the risk. So intending purchasers when mentioning English prices should remember the needle in Cariboo and "consider the freight."

The boys are having the laugh on a novice in the Irish setter fancy. The other day, he bought a book headed "How to Break a Setter," but imagine his disgust when he found it was a work on poultry.

We hear that arrangements are being made to start a kennel for boarding and training dogs somewhere out in Saanich.

The latest in kennel appliances is an apparatus for destroying fleas on dogs by electricity. We are promised full particulars when it is perfected.

POULTRY.

HE young stock should be carefully attended to during this month. Owing to the warm weather, chickens are often left to rustle for their food and water, and at night are found roosting on boxes, fences, anywhere but in the house. Too often the houses are left uncleaned for weeks, the perches are strangers to kerosene and carbolic acid, while the nest boxes are just as when the last brood was hatched. These remarks, we are sorry to say, were suggested by the appearance of some of the yards we visited on our last tour of inspection. Brace up, boys, the birds that get the care now will get the prizes later on.

Albert Sherk has resigned his position at B. B. Moore's poultry ranch. We understand he contemplates starting in for himself on a large scale.

B. B. Moore has charge of the hatching

stock for sale in this issue. devote his attention to the kennel.

Let the hens that are broody set for two or three weeks at this time. Give them China eggs if you don't want to hatch any chicks. The hens will be all the better for the rest and will be in good trim for the annual moult.

The better classes of Mexico demand a cessation of bull fighting.

NOR SALE-Irish Setter Pupples, from Miss McGinty C. K. C. 3,270; good field dogs. Address "Irish," this office.
