In making your plans for the coming crop season are you giving due consideration to the very important matter of

HAIL INSURANCE

If you are, it is safe to say that you have decided, or will decide, to insure with us. Close inquiry into our business methods, our rates of premium, and our treatment of patrons who have been claimants for indemnity for loss could lead you to no other conclusion.

Eleven years of successful operation and increased patronage from year to year proves the merits of the plan on which we conduct Hail Insurance, and we invite the most searching inquiry into our record.

Our home offices are here in the provinces where we solicit patronage, within easy reach, should we fail to make good on anything we undertake.

Full information and the names of satisfied patrons in any district where we have done business will be furnished on application to

Any Local Agent or Insurance Agencies, Limited

Did You Ever Think that Your Stable? is a Food Factory?

With BT STEEL STALLS and STANCHIONS you can have a perfectly sanitary stable.

A stable bright and comfortable for the cows.

A stable that will last—no wood work to rot out.

A stable that is easy to work in, quick to tie and untie the stock.

A stable that will hold more cows than with any other style of construction.

The cut shows the BT Steel Stalls with cement floor. There is some satisfaction in a stable like that. Do not put in an old style of construction that will be constantly in need of repair and you will regret for years to come. The cost of BT Steel Stalls, you will find, is very little greater.

BT Stanchions are made in five sizes and may be used in a wood frame if desired.

If you are building or remodeling your barn our catalogue on stable construction will be of great interest to you. It tells how a stable should be built and ventilated, gives full information as to how to lay cement floors and how to mix the cement. It is free for the asking. In writing mention how many cattle you will tie up.
