

MINE CARS

We make the kind of Car you want, and make it just the way you want it made.

MADE IN MANY SIZES

ROTARY—Will dump at either side or either end

This is only one of the many styles of Mine Cars we offer. Let us know the type of car you prefer, and we will give you attractive prices.

Write for your copy of our new Mining Catalogue Just off the press.

We have been designing and building cars for a quarter of a century. Our designers know their business, and are at your service free of charge.

STEEL SKIPS

For use on Mine Tipples. Made any size to suit your work, and if desired, with double bottom, and rivets countersunk and flush on the inside, to facilitate easy dumping.

HEAVY BUILT PUSH CAR

A good general purpose car for any kind of heavy work. Heavy steel frame work decked with 2½ in. or 3 in. planking. Self-oiling babbitted boxes. Made for any gauge of track, and any required weight to suit the load.

If you use Wood Cars we can supply you with the wheels, Axles, Boxes, etc., so you may build your own cars. You will save money by so doing.

Use **KLIM** as you would fresh separated milk

The Spray Process which produces Klim by removing the water from pasteurized separated milk leaves the solids (the food portion) absolutely unchanged. When you whip Klim into water you simply restore it to its original state. Then you use it as you would fresh separated milk to give food value and improve numberless foods and drinks such as soups, gravies, pastries, puddings, cakes, tea, coffee and cocoa. The cook needs Klim in the preparation of every meal.

Klim is dry and will keep fresh and sweet indefinitely in any ordinary storage. Order from your supply house and use regularly in your camps and boarding houses.
