# Of Interest to Miners!

Mr. G. P. Wells, who is in charge of the Machine ery Department of the N. C. Co., leaves for the out side about January 8th for the purpose of ordering Boilers, Hoists, Engines, Pumps, and a full line of all necessary supplies for next season's shipment. We intend to bring in the largest and most complete stock ever carried in the Yukon district, our past experience making it possible for us to order just what is needed and what has proven most successful in working the mines of the Klondike.

Ir. Wells can be found at his office at our Hards ware department, No. 215 Front st., and will be pleased to impart any information relative to the goods we expect to bring in for next season, or take any special orders to be executed while he is outside.
