**NORTH WILLIAMSBURG**

The following are a few extracts taken from a letter from Mr. A. H. Wilson, Williamsburg, on the 8th ult. Space forbids a more extended account:  
A terrible fire on Thursday last has nearly swept our village clean, thirty-five buildings, principally dwelling houses, having been burned. The fire was discovered at 5 o'clock p.m., on the west side of Main street, opposite the post office, on the roof of Mr. Ira Casselman's blacksmith shop, and back which were in close proximity. A high wind from the west drove the flames across the street and burning four more houses belonging to Mr. Casselman, they licked up the residence, boot and shoe store and barn of Mr. Abney Empey, which being principally frame, caused the flames to mount very high and carry live cinders further on, totally destroying everything in its path. The residence and tin shop of Mr. Simon Barkly, on the south side and Mr. Wm. Shaver's on the north, being a little isolated, were saved by the heroic efforts of the volunteers who, armed with pails of water, kept the buildings wet until the flames had burned down, and the progress of the fire stopped. If it had one gotten past that point there is no doubt but that the whole eastern part of the village would have been destroyed. In that section are two Presbyterian churches, and some residences which for beauty cannot be surpassed in Eastern Ontario. There is not over \$3000 insurance on the whole, and the loss cannot at present be estimated. The scene at night was terrible, but the homeless unfortunate were kindly sheltered by those who escaped the fire. This terrible catastrophe might have been averted if our citizens had proper fire protection. In Athens, for instance, they have some sort of fire protection, but here we had none, and the result of such carelessness has been the destruction of thousands of dollars worth of property.

It is said that the secret of fortune telling has been left with the family of the late Mr. Barnes of Plum Hollow. This is surely not a bad legacy.

**PERTH**  
MONDAY, April 4.—Monday evening the 29th ult., two gentlemen came to the residence of the Rev. Mr. Henderson of this place and presented a paper signed by Rev. Mr. Williamson president of—M. E. church asking for help. The Rev. gentleman took them to a hotel and had them provided for, for the night, and in the meantime telegraphed to Rev. Mr. Williamson, who replied that his name had been forgotten. The tramps were made acquainted with the fact in the morning, and were told that they must either saw wood to pay the bill, or go to prison, but they seraped together enough to pay the score and decamped.

Minard's Liniment is used by physicians

**NEWBORO.**  
MONDAY, May 4.—Mr. Robert Bell who has been a citizen of our town for many years sold his valuable property on Carleton street and removed to Kooline where he intends to rub in the remainder of his days in the boot and shoe trade. We hope the change may be for the better.  
R. H. Preston M. P. P., returned from Toronto on Saturday.

Wm. Baker of South Crosby has a curiosity in the way of a lamb. Its head and shoulders are perfectly natural, but immediately back of the were legs, two trunks branch out each perfect in form, each body having two hind legs.

Mr. J. T. Gallagher is having the outside of his residence painted.  
Rev. E. Stone of Oswego is, visiting at Mr. Geo. Whaley's.

The str. Olive and John Haggart passed through here on Saturday en route for Kingston.  
Farmers are nearly through with their spring's work.

On Saturday May 2nd three young men from—Opinion named Peedy Quince, Phil Holden, and Ben Fluke visited Newboro and remained carousing around the village till late in the evening where they decided to return home in a boat. The wind was very high all day and when they arrived at the shore, Quinn conceived the would not accompany the others as the swells were running very high. He at once laid down on the shore and the other two started up the lake with him. They had not gone much further than the look when the boat capsized throwing both of them into the water. A short time afterwards Charles McCaskill arrived on the shore with the intention of going to his home which is situated on an island close by, when he heard someone shouting and upon looking out on the lake he espied a man clinging to a boat, the boat being bottom upwards. He hastened with all speed to his assistance and succeeded in rescuing Holden who was almost benumbed with cold and it is supposed Fluke went to the bottom immediately after being thrown out of the boat. On account of Holden being intoxicated and the boat being a straight ad count of the accident he and Quinn were immediately arrested and placed in the cells by Chief Constable Gorsline where they remain, till Monday to wait their trial. Nearly every one who could avail himself of a boat went out searching for the body Saturday night and Sunday until a late hour, but the search turned out fruitless up to this time. This sad accident casts a deep gloom over our quiet village and it is to be hoped this will be a warning to others who indulge too freely in home made liquors.

Some of our "Cars" will find their carrying capacity slightly inadequate to the demands of the "200 pounders" if they are not more judicious in their criticisms of some of the "retired gentlemen" if you please, of this town.

I was tapped on the shoulder the other day for a donation to aid in securing a cow. I refused on conscientious scruples, having more sin on my head already than I may ever dispose of, I decided not to aid or abet one of the infelicitous. For cooling the blood and quieting the nerves in pugilistic temperaments, I would highly recommend ice water instead of milk.

Uncle Rooney's milk factory is booming like mad since Mr. Madden Hewitt has taken charge. He (Madden) took first prize last year, has a good reputation and likes the people—like him pretty well myself.

Miss Rossanah Cavenah has gone to Frankville for a few days.  
Oliver Hayes has been chosen salesman of Uncle Rooney's factory this year.

John Dockrill will run his two farms as usual this season and with a more favorable prospect of a good crop than the last two seasons.

The Cavenah Brothers who live alone, are building a fine new brick house on Ballycane street. Wonder who is going to help them keep it in order! They, like many others along the line, are good fellows and a credit to the neighborhood.

I sometimes see in the "Dee Notes" in the Reporter, that bekeeping is suitable and profitable employment for ladies. Well, a young girl not far from here, in a few hours at odd times nailed 1300 pieces of frames together. Miss C. Cavenah is the young lady who did the work as well as it could be done by a man. A girl on a farm will find work of this kind pleasant, light work as well as saving no small item.

We have a number of enterprising young men in our locality, one in particular, who, when the canning factory prospect was booming under election impulses, proposed planting 15 acres of tomatoes. If the factory falls through, which from the present outlook we fear will be the case, he will employ 15 or 20 good looking girls and go right on with the canning business anyway. Now, I most sincerely hope that this will come to pass for various reasons, to be more fully explained later on. Martha Moriah is not so dear to me but what I would consent to change it under favorable circumstances.

I am looking forward in hope to the blackberry time. We have lots of fun then. I think the poet who wrote the lines, "A starry night for a ramble, t'rough brush and bramble," etc., etc., must have been intoxicated that day as it is to be hoped this will be the case. We have several big patches of blackberries in our neighborhood, and we give the editor, foran and devil a special invitation to come over and pick all they want for their own use. When blackberry time comes again I will give your readers some more gossip, as it comes fresh from the bushes, the meaning I will endeavor to improve my orthography and syntax, so as to make the items more readable and interesting.
