CHATHAM ONT.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowels affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholomew of Jefferson Medical College; Prof. Hare of the Univ. of Pa.; Prof. Finkler of the Univ. of Mich.; Prof. King, M. D. of Cincinnati; Prof. John M. Scudder, M. D. of Cincinnati; Prof. Edwin A. Hays, M. D. of Hahnemann Medical College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than any name or name of a doctor. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is an entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. Medical authorities, endorsing its ingredients mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y.

Birds That Boat in Their Nests.

"The mother bird sat on her eggs at the water's edge, and when I approached she pushed off with her foot as though the nest had been a boat, and away she floated calmly down the stream."

"What you saw was a rare spectacle," said the nature student. "The bird was a grebe, the columbus minor. She always builds on the water's edge. She and her nest is always woven of aquatic plants so closely and firmly that it will float herself and her eggs without leaking. On the approach of danger the bird pushes off. Nor is she at the current's mercy during her voyage. She uses her foot as a paddle, and I have seen her steer her boat-nest with some little dexterity round a bend, landing in a quiet cove as well, say, as the average young lady waterman."

Fresh Sheets at Premium.

The woman who had just returned from abroad, where she had visited some country towns, was telling of the comforts and discomforts of the European country hotel. "They have an aversion to putting fresh sheets on the beds for every new guest," she said, "and we always pulled down the bed clothes the minute we were assigned our rooms to examine the sheets. Ten chances to one they were wrinkled and had that 'slept in' appearance, and we invariably insisted on fresh ones. Finally we struck a series of towns where the hotel proprietors got the best of us, for the sheeting they used was a sort of crepe stuff, something like seersucker, and for the life of you you couldn't tell whether they'd been slept on or not."

DINING A LA CARTE.

The Way to Order Meals at Restaurants and Hotels.

The woman who dines at hotels and restaurants but infrequently is sometimes a little bewildered and perplexed as to just how affairs should be managed. Therefore the article in the Delinquent quoted below is of much value.

In ordering a la carte you are expected to write down on the waiter's pad the orders for the whole meal except perhaps dessert, which it is hard to make up one's mind about at the very beginning of dinner. Or you may tell the waiter what you wish as you consult the card, and he will write it down for you. If you do not understand what the article is from its name—the makeup of a salad wedged to a foreign title, for instance—simply ask the waiter what the dish is.

When you have quite finished say to the waiter, "Will you bring my check, please?" and Henry will bring it with a slight increase in his devotion of manner, which always grows more marked as the time for the tip approaches. Give him the money for the bill. Do not pay at the desk on the way out except at a low priced restaurant, where the busy waitress punches a printed check for you and passes on to the next customer. When Henry comes back with the change due you on a silver salver, return a reasonable amount of change to the tray as a tip for him. The tip varies according to your expenditure, 10 per cent of your bill being considered a fair fee. In this country it is not customary to give less than 10 cents as a tip. Don't grudge the tip and don't withhold it. Count in your tip as a legitimate part of the dinner expenses, and if you resent the tipping custom write to the papers about it or patronize a pay at the desk restaurant, but don't take it out of the waiter.

Leave your napkin unfolded on the table; leave your chair where you pushed it as you arose. Let the waiter help you with your coat and hand your fur. He takes pride in doing the correct thing and earning his tip. And don't, pray, help yourself to a toothpick at the table and use it as you leave the place.

Now, the chances are that after you have left the unaccustomed restaurant or even earlier you will realize some blunder that you have made. Well, don't let it trouble you. You may have shown more of homesickness and less of social experience than your restaurant neighbors; but after all, you can probably give them points on something much more important than the proper way of ordering a dinner.

To Clean a Muff.

All furs before being put away for the summer should be thoroughly cleaned. One of the best methods is

to beat the fur piece with small rattan sticks until every particle of dust is removed, then place in heavy muslin bags which have been soaked in turpentine.

Fireplace Motives.

There was once a man who had the following motto carved over his fireplace: "I have had many troubles in my life, and most of them never happened." It was certainly a motto to set people thinking.

Over the fireplace in Mark Twain's home in Connecticut is this inscription: "The ornament of a house is the guests who frequent it."

A certain young couple checked many a garrisonian tongue by putting above their living room fireplace the words, "In this room speak ill of none."

Here are a few other motives, which will serve for hall, library or chimney corner:

"A man's house is his castle."

"East or west, home's best."

"Old wood to burn, old friends to trust, old books to read."

Another good motto for the fireplace is, "Sit ye here and rest awhile."

Japanese Rice.

A Japanese cook, famous for the light, snowy appearance of his rice, washes the uncooked grains through several waters until not a trace of bitterness is seen in the water.

To two cups of the rice he allows a quart of boiling water, cooking slowly for an hour without stirring. From time to time he shakes the kettle, tipping it from side to side.

When the water is all absorbed he lets it stand for awhile on the back of the stove to steam and plump.

The Dressmaker.

To press a hem, plait or a large plain surface, take an old piece of cotton material (a pillowcase would do) and after placing the material to be pressed with the right side down thoroughly wet the muslin and wring it out, place it smoothly over the material to be pressed, and press.

To one part of a dress, all parts must be treated in the same way or it will be noticeable where it has been pressed.

BRONCHIAL COUGHS

Breathe Hyomei's Healing Air And All Irritation Will Be Quickly Cured.

The most irritating and annoying form of cough is that termed bronchitis. People subject to bronchial troubles whenever there is a change in the weather or they are exposed to a draft will "catch" a bronchial cough, which is very disagreeable, irritating and annoying.

Bronchial troubles cannot be cured by stomach dosing. The medicated air of Hy-o-mei is the only treatment that reaches the affected parts and gives relief and cure. It destroys all the disease germs that are present in the nose, throat and lungs, soothes and relieves the irritated mucous membrane in all parts of the bronchial tubes and quickly overcomes the irritation.

Bronchitis is really an inflammation of the mucous membrane lining the air passages and is purely a local disease, so that it needs a local treatment like that afforded by Hy-o-mei.

If there is any doubt in your mind as to the power of Hy-o-mei to cure bronchial troubles so that the system will resist coughs and colds, the unusual way in which it is sold by C. H. Gunn & Co. should dispel that doubt. They agree to refund the money on any purchase of Hy-o-mei who is not perfectly satisfied with the results following the use of the remedy. They take all the risk and if the remedy does not help you it does not cost a penny, while if it cures, the expense is nominal, for a complete Hy-o-mei outfit is sold at only \$1.00.

TO LOOK AFTER EMIGRATION.

Hon. Nelson Monteith Will Go to England This Week.

Toronto, July 17.—Hon. Nelson Monteith had a prolonged interview yesterday with E. D. Smith, M.P., North Westworth. Co-operation in spraying and the care of fruit was under discussion, and the methods to be adopted on the Jordan Model Farm.

Mr. Smith described the successful results attained at Simcoe by thorough spraying treatment, and the enhanced profit derived thereby. Secretary Murray of the Manufacturers' Association; J. W. Walker and J. W. McCullough of Hamilton also saw the Minister of Agriculture during the morning.

Hon. Mr. Monteith will sail on the Dominion from Montreal on Saturday for England, where he will look into emigration and other matters in Britain in which Ontario is interested.

He stated that ex-Mayor Thomas Elliott, Bradford, had been appointed a commissioner to the Dublin Exhibition for the months of August, September and October.

Mr. Elliott, who is a shrewd business man, will collect information on transportation and other matters, and will have an opportunity of interesting intending emigrants in Ontario. The salary was not stated, but former precedents would indicate \$125 a month and expenses as probable.

IT CREEPS LIKE A SERPENT.

Steals through the system like a thief in the night. That's how catarrh acts. Don't trifle with such scourge. Don't experiment with a doubtful treatment. Time and experience prove that Catarrhoxone cures, that it gives quick relief and so thoroughly destroys the disease, that it dies forever.

Get Catarrhoxone in the first place and your cure is assured. In 25c and \$1.00 sizes, at all dealers and guaranteed in every case.

Unfortunate Royalty.

Horrible accidents caused the death of William I. and William III. William II. and Richard I. were killed by arrows, Richard III. was slain in battle, Charles I. was beheaded, Edward II., Richard II. and Edward V. were murdered, a surfeit of lampreys cost Henry I. his life, poison or a surfeit of peaches killed John, poison is suspected to have been administered to Edward VI. and the death of Henry VI. is by some historians laid to the charge of Richard, duke of Gloucester.—London Standard.

We read of Spring, Summer, Autumn and Winter medicines. As if the Stomach, Liver, Kidneys, etc. underwent a dangerous period of transformation every three months. These three month periods are merely a human arrangement for convenience in expressing the climatic variations during the year. When you feel well, leave well alone; you are well. If you feel sick, or have been exposed to contagion, take the Veteran's Sure Cure. Dose—three to five drops only once a day; three days medicine cost one cent. Price, \$1.00 or 50 cents sent anywhere. If you can find a better constitutional cure, take it. We feel sure there is none sold. The V. S. C. Medicine Co., Limited, Seane Block, Chatham, Ont. W. K. Merrifield, Manager.

Happiness is increased not by the enlargement of the possessions, but of the heart.

Even wild oats seem tame to some wild young man.

The hot weather is now well advanced and people are looking around to find the most desirable point to spend a holiday where they will derive the benefit of cool breezes as well as a change of air. W. E. Rispin, city passenger and ticket agent, has a number of cheap and short excursion tours to Muskoka Lakes, the famous Temagami country, Georgian Bay or Mackinac and Lake Superior, and a great many other summer places, and would be pleased to give intending tourists full information as to rates, routes, etc., and those desiring to enjoy a nice summer outing would do well to consult him.

KOREA FEARS CONFLICT

Feeling Roused by Return of Pretender to the Throne.

Scheme to Precipitate Conflict Between Emperor and Pretender is Possible—Japanese Ignore Treaty Rights—Said to Be Ill Treating Koreans—Artillery Despatched—Jap Admiral Arrives at Montreal.

Seoul, July 17.—Information has been received from Japanese sources that Prince Yi Chung Ong, once pretender to the throne, and for several years an exile in Japan, has reached Fusan, and has the imperial permission to return to Seoul.

His coming, following on the return of Prince Pak Yong Hi, is construed by Koreans as significant of all sorts of possibilities. While no step has yet been taken, the Emperor's people still fear his return; hence the return to Korea of two men looked upon as possible pretenders is regarded as indicative of a serious situation. A scheme to precipitate a conflict between the contending forces of Koreans which might give the Japanese an excuse to exercise their force.

In view of the uncertainties, all the leading Koreans are afraid to give expression to their views. Japs Exclude Foreigners. London, July 17.—Homer B. Hulbert, an American, who has held several prominent educational positions in Seoul, Korea, is now in London on his way to the United States.

In an interview Mr. Hulbert complained strongly of what he termed the unfair and illegal treatment of the Koreans by the Japanese. Every office in Korea, he said, has been given to the Japanese. Land is being seized without sufficient compensation, and the trades and commerce has been gathered in the hands of the Japanese to the exclusion of the Americans and British.

Mr. Hulbert considers that Japan is ignoring the treaty rights which Korea established with Great Britain, and the United States. He intends, he says, to appeal to the Chambers of Commerce and similar bodies throughout the United States to oppose this condition of affairs.

He does not accuse the officials in high authority in Japan who seemingly desire to do the right thing, but says the officials find it impossible to get the proper men to carry out their intentions.

Artillery For Philippines. Washington, July 17.—Orders have been issued by the war department for the 5th Field Artillery to proceed from Fort Leavenworth, Kan., to San Francisco for embarkation for the Philippines on transport sailing Sept. 5.

Yamamoto At Montreal. Montreal, July 17.—The flag of the Rising Sun floated over the Windsor Hotel yesterday, denoting the presence in the city of a Japanese official of high rank, in the person of Admiral Yamamoto, who arrived in the city yesterday morning for Boston.

No official reception has been prepared for the visitor, as the present is an informal call, but his stay is being made pleasant at the Mount Royal Club and by a trip up Mount Royal.

In an interview, the admiral characterized the war rumors as absurd.

JAPS GRATEFUL TO CANADA.

Admiral Yamamoto Refers to Prince Fushimi's Recent Visit.

Montreal, July 17.—The Japanese Admiral Yamamoto and his party were guests of Sir Thomas Shaughnessy at luncheon at Mount Royal Club yesterday, and left last evening for the west.

Regarding the recent visit of Prince Fushimi to Canada recently, the admiral, through his interpreter, said:

"I can hardly tell how much the Japanese people have appreciated the kindness shown the representative of the Emperor during his stay in your beautiful country. His trip across the continent was carefully planned by the authorities at home and from what I know your hospitality will never be forgotten by our people. We had no reason to expect so much from Canadians, but it simply showed us what a splendid and generous people you have in the Dominion. Remember this, the Japanese are always grateful for courtesies extended."

"Our relationship with England is of the closest, and we only hope that the present friendship will long continue to exist. We fully appreciate the free institutions of the British Empire, and we certainly love and admire the freedom enjoyed by the people."

BISHOP FINED.

Performed Marriage Before Civil Ceremony Was Performed.

Caracas, France, July 17.—A Catholic bishop of Beuvron was fined \$10 by a local court yesterday for violation of the penal code. The charge against the bishop was that he had performed a religious marriage ceremony before proof of the performance of the civil ceremony had been laid before him.

FLOODS IN GERMANY.

Rivers Overflow Their Banks and Many Casualties Are Reported.

Berlin, July 17.—From 6 to 8 inches of rain have fallen throughout the greater part of Germany during the last three days, and as a result a number of rivers have overflowed their banks, carrying death and destruction into the surrounding country. Casualties to the number of fifty have been reported.

Goes Down for Five Years.

Montreal, July 17.—Joseph E. Costin, a Montreal insurance agent, who was found guilty of forging a cheque for \$3,000 on the Mutual Insurance Co., was sentenced by Judge Choquette yesterday morning to five years in the St. Vincent de Paul Penitentiary.

Colds on the Chest

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician, and follow his advice carefully. We have no secrets! We publish the formulas of all our preparations. J. C. Ayer & Co., Lowell, Mass.

SUNDAY ON MAN-OF-WAR.

Jack Tars Attend Service On the Quarter Deck.

"The ship's company is not to be employed on Sundays in any work or duty other than that which may be strictly necessary for the Public Service."

Thus runs Article 703 of the King's Regulations and Admiralty Instructions, known to sailors as the "Service Bible," and the result is that the first day of the week is, as far as circumstances (and the weather) will permit, a real holiday for the man-of-war's-man. Further, whenever possible, Sunday is spent in harbor or at anchor.
