WORTH THINKING ABOUT.

The Weekly Sun, in an article headed "Stop This Subsidy Folly Now," shows that the country has expended \$105,000,000 on the Intercolonial railway, and endowed railway promoters with 60,000,000 acres of land. Then it says, "We have given enough-all-more than we can afford to give," and goes on as fol-

"The pretence that it is necessary to shovel out additional millions if the development of the country is to go on is an insult to intelligent people. Spokesmen for the Canadian Manufacturers' Association now in Great Britain says it is impossible to realize the possibilities of Canada." They speak truly. The Cana-dian Pacific is credited with estimating that some 50,000 farmers in Manitoba and the Northwest will this year produce 100,000,000 bushels of wheat. The estimate may not be made good this year, but it will next. Mines just opened up in New Ontario are said to be producing ore worth \$3,000 a ton.

"Surely a country such as this is not under compulsion to bribe promoters, by means of subsidies, to aid its development by railway building! Railway promoters themselves prove that it is not. Jim Hill actually had to beg Parliament to permit him to extend his railway into British Columbia wholly at his own expense. He does not ask a copper in subsidy; simply the right to build. The Canadian Pacifiic is building a line from Sudbury to Toronto also without a subsidy.

"Why, then, all this clamor about the necessity for subsidies? Let us speak plainly. If there was no rakeoff for the politicians in the form of contributions to campaign funds, you would hear no more noise from the subsidy promoters than there is from an unhatched egg which has

"The people should stop this subsidy folly now."

# OF SORE HANDS

After Most Awful Suffering Ever Experienced - Eight Doctors and Many Remedies Failed to Do a Cent's Worth of Good

#### THANKS TO CUTICURA IT IS ALL OVER NOW

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh get hard and break, with blood fiesh get hard and break, with blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried eight different doctors, but none did me any good, as my hands were as bad as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heartsore. I would feel so bad mornings, to think I had to go to work and stand the pain for ten hours, I often felt like giving up my position. I would have to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. I had to wear gloves at night; in fact, all the time. But thanks to Cuticura, that is all over now. After night; in fact, all the time. But thanks to Cuticura, that is allower now. After doctoring for three years, and spending much money, a single box of Cuticura Cintment ended all my sufferings. It's been two years since I have known what sore hands are, and have never lost a day's work while using Cuticura.—Thomas A. Clancy, 310 N. Montgomery St., Trenton, N. J."
