GRAPHIC DESCRIPTION OF MIRAMICHI FIRE

The ravages of fire in various parts of New Brunswick during the past month has turned the thoughts of older people to the great Miramichi fire of 1825 the most terrible conflagration the province has ever known. The following vivid description of that fire is from Illustrated Sketches of New Brunswick, published in 1861, by J. & A. McMillan, for E. J. Rus sell of Bathurst:—

"In 1825 occurred the memorable Miramichi fire. The season had been very dry and excessively hot; very little rain had fallen; and in October everything above the surface of the ground was intensely dry, even for that dry season. In various part of the province fires raged in the woods; and in lower Canada, the adjoining part of the United States and Nova Scotia, the forests were similarly visited.

"In the beginning of October the heat increased almost beyond bearing; the atmosphere became charged with smoke; and the sky assumed an unnatural color. All nature seemed weighed down under the oppression of the parching and suffocating heat. So dreadful was the condition of the atmosphere that even the dispositions of the animals seemed affected and changed, the terrified cattle collecting in groups in the fields, and the wild animals leaving the woods to seek refuge among their domesticated fellows. Man alone seemed regardless, confident in his distance from the burning forest.

"On the evening of the 17th of Oct. the dreadful scourge was let loose upon the devoted settlements. A gale sprang up, and soon increased to a hurricane, which swept before it, over the whole countryside, a deluge of fire. The wind roared horribly; the air was filled with clouds of flying cinders, burning sticks and vast volumes of smoke; and the whole face of the countryside was drowned with a flood of fire.

"Such a scene of horror no narrative can adequately depict. Men, women and children flying hither and thither; the shrieks of the burning; the cries of relatives seeking each other; the agonies of the sick and infirm; whose only chance of safety was in the mercy of others; the howls of domestic animals and the denizens of the forest. The only hope of safety lay in reaching the river. By burying themselves in the water, or by betaking themselves to boats rafted or even single logs, many managed to save themselves from destruction.

When the morning dawned, the country presented an awful scene. Six thousand square miles of forest and field lay blackened and reeking in the eye of day. All the villages on the north side of the river, including Douglastown and Newcastle, were little less than heaps of cinders. Five hundred human beings had perished by fire or by drowning in their attempts to escape. Thousands of wild animals were destroyed, and in

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE
8928 Union St., Vancouver, B.C.
"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.
Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

the simmering waters of the brooks and streams fish lay dead in heaps.

Of the inhabitants who escaped with their lives, few brought off much else. The amount of loss in personal property, crops, etc., was estimated at two hundred and twenty-seven thousand pounds; while the value of the forests destroyed were guessed at half a million. For the relief of the sufferers about forty thousand pounds were raised in the provinces, United States and Great Britain.

On the same day extensive and destructive fires occurred in other parts of the province.

THE SALES TAX

Ottawa, Aug. 15—That traders dealing both wholesale and retail, can keep separate accounts so that their business can come under different categories of the Sales Tax involving different rates of taxation is set forth in a ruling issued by the Deputy Minister of Customs to collectors throughout the Dominion. The circular points out that in the case of a firm selling exclusively by retail and making goods to the order of a customer exclusively, the Sales Tax is not applicable. If a firm is selling exclusively by retail and manufacturers goods to the order of each individual customer, and also manufactures goods for stock, it is held that the Sales Tax is applicable in respect of goods manufactured for stock only.

If a firm is selling partially by retail, but doing a business also with the trade the sales tax is applicable in respect of their entire business providing, however, that the accounts of the wholesaler manufacturing branch may be segregated from the retail branch.

The department will hold retailers responsible for the payment of the Sales Tax under the conditions above defined as respects all sales made on and after May 10, 1921.

Remarkable Fish

(Boston Transcript)
They have a remarkable fish in Nova Scotia. It is known as the Frost Fish, because it can be frozen solid; but if placed in water it soon thaws out and swims around as vigorously as ever. The natives, we are told, use this fish in making ice-cream. In thawing out it freezes the cream and its movements at the same time beat the mixture making it nice and smooth. It is a fresh water fish, but the story requires a lot of salt.

Conferences To Deal With Unemployment

Ottawa, Aug. 10—The request of the Minister of Labor, Hon. G. D. Robertson, that provincial authorities call conferences of all interested to deal with the unemployment situation is being well received throughout the Dominion judging by replies reaching the department here. Ontario and Alberta already have called conferences and this morning word was received from the Attorney-General of Manitoba to the effect that the Manitoba Government was taking up the matter of calling a provincial conference and that a gathering of this nature had already been arranged for in Winnipeg. It is expected that after the holding of the provincial meetings there will be some sort of co-ordination of the efforts and ideas together with a national conference at which the Minister of Labor will probably preside, and at which plans for handling the situation on a national basis can be drawn up.

True Forgiveness.

Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they afford lasting relief for indigestion and overcome the many annoying symptoms.
