THIS FREE BOOK WILL ASTONISH YOU

OUR BOOK, "RURAL TELEPHONE," tells all about the telephone business—how to organize Rural Lines; how to organize and incorporate a Telephone Exchange Company; gives complete and up-to-date information on the constitution and by-laws; instructs how to organize and conduct the same; gives forms for contracts, selection of equipment and maintenance of line. In fact, it tells you all and everything you want to know about organizing, installing and operating rural telephone systems. The instructions are simple and non-technical; you and your neighbor can do the work.

This book was compiled and printed at a cost of more than \$10,000 and could be easily retailed for 25 cents a copy. If you are a progressive farmer you will find it worth many dollars to you. We send it free.

You will be astonished to learn how little it costs to establish a telephone system in your locality.

No previous experience in this work is necessary.

We make and sell rural telephones. We are strictly independent manufacturers. We belong to no Trust or Monopoly. We help you organize a company and construct the lines in your neighborhood. We refer you to any bank in Chicago as to our financial responsibility and our methods of doing business. We want to get acquainted with you. Take the lead in your community and write for our FREE book today. You won't regret it.

SECOND SESSION AT THE HAGUE

Of the Peace Conference— Limitation of Armaments Will Be Considered

The Hague, June 19.—The second session of the Peace Conference completed the organization and created the four general committees where the work will be done. The program was carefully arranged to advance to avoid the possibility of surprises. The full committee organization was as follows:

First Arbitration—President, M. Bourgeois (France); honorary president, Merck von Kuhlmann (Germany); Sir Edward Fry (England); Ruxy Barbois (Brazil); vice-president, Dr. Krings (Germany); Signor Tompelli (Italy); Senor Esteve (Mexico).

Second Ward—Presidents, M. Bernier (Belgium) and Herr Asser (Netherlands); honorary president, Baron Marschall von Bieberstein (Germany); General Horace Porter (United States); Dr. Drago (Argentina); Baron De Stourmelles, De Constant (France).

Third Ward—President, Count Tournelle (Italy); honorary president, Jos. H. Choate (United States); Tsung Liang (China); Turkhan Bey (Turkey); vice-presidents, Herr Hammarstrand (Sweden), Dr. Drago (Argentina), Baron De Stourmelles, De Constant (France).

Fourth Ward—Geneva Convention—President, Professor De Martens; honorary president, Senor Don De Vila (Spain); M. Kurouchi (Japan); vice-presidents, Sir Eric M. Satow (England), Professor Lammasch (Austria), Dr. Hagerup (Norway), M. Nelidoff (Russia) communicated to the conference despatches from Emperor Nicholas and Queen Wilhelmina, thanking the conference for its messages sent on the opening day, greeting the delegates and expressing the hope for a successful result of their deliberations. All the plenipotentiaries later presented their credentials. The president, ambassador wrote that he would be unable to be present because of the state of health, and he will be represented by John W. Foster.

M. Nelidoff made a few remarks in commendation of the Russian attitude in London, and then the rules of the conference, including publicly for the preliminary session, were presented and unanimously adopted. To prevent friction at the outset the question of the preliminary sessions was ignored temporarily, though there is a well defined plan to bring up the question of preliminary sessions in the form of a proposition to reiterate the resolution adopted by the last conference recommending that the governments again study the subject and postpone its consideration until the next conference. None of the South American countries except Mexico seem prepared to submit anything in their interest. The conference then appears to be confined to the extension of the principle of arbitration and to the Drago doctrine. The delay in getting the conference under way creates the suspicion that the leaders are deliberately delaying the preliminary sessions by giving the great powers more time, now that they understand each other, the work will be completed later. The session today lasted only one hour.

Emperor Nicholas's message of thanks to the conference was signed "Nicholas." At the previous conference it was signed "Maritain," in behalf of his Imperial Majesty.

The date of the next preliminary session has not been fixed. The Associated Press announced today that the principle was unpopular in Brazil. "Brazil," he added, "like the other South American countries, needs foreign capital for her development, and we do not desire anything to impair our credit. We would have preferred to see the proposition originate with our creditors, England, France, Germany and Belgium. However, we will ratify and see the nature of the modifications of the doctrine proposed by the United States, when I hope all interests can be satisfied."

FATALITY AT COCHRANE RACES

Calgary, June 19.—Jas. Ross, a ranchman, was killed at the Cochrane races today. The crowd rushed on the course when the cow-punchers rode. Ross and a man named Burke were knocked down. Ross died in a few hours.

Torpedo Boat Blew Up

Torquay, Eng., June 19.—Four torpedo boat destroyers were engaged in steam trials off Torquay this afternoon when an explosion was heard on board one of the vessels, and soon her crew, numbering twenty men, were straining in the water. The torpedo gunboat Dryad picked up all the men who were in the water and took them to Plymouth. The destroyer sank twenty minutes after the explosion occurred.

K. W. MCKENZIE VICE PRESIDENT

Edmontonian Officer of Associated Boards of Trade— Wednesday's Business

Special to The Bulletin.

Pince Albert, June 19.—At the convention of the Associated Boards of Trade today, K. W. McKenzie was elected vice-president. The delegates at the opening were: Calgary, A. E. Cross, L. Skirving, Medicine Hat, J. Pringle, W. Cousins, Hon. W. T. Finlay; Raymond, B. H. Rivers; Red Deer, L. Crawford, S. W. L. Omine, W. A. Murro; Strathcona, May or Mills, James Weir, Dr. Buller; Edmonton, C. Stockard, P. Elshar, A. R. Harrison, J. W. McKenney, W. Cunningham.

Mayor Cook of Prince Albert welcomed the representatives of the platform were Hon. W. T. Finlay, Senator Davis, Supt. Brownley, and S. J. Donaldson, M. P. P. The president in his address said that this year's grain crop would be more profitable than last year. Better prices would also be realized. His recommendation was the placing of industrial action on the freelist, the reduction of protective duties, the reduction of the ownership of telephones and the appointment of a grain commission.

The delegates of next year were elected as follows:

President—L. P. McArthur, Regina; Vice-President, K. W. McKenzie, Edmonton; second vice-president, W. Cousins, Medicine Hat; secretary, W. B. Wallace, Prince Albert.

The delegates today voted in favor of a resolution to the effect that the provincial government be urged to establish agricultural colleges. Medicine Hat had a resolution passed to the effect that action be taken to stop the waste of natural gas. Other subjects were discussed today were: amendment to the joint stock companies act, coal supply investigation and government control of fuel.

Prince Albert, June 19.—Every day the session's discussions deal with transportation, freight, passenger and other matters. Interest was produced today's session by the presence of Geo. H. Shaw, of the Canada Northern, and W. P. P. of the Canadian Pacific. Several little occurrences between these officials and delegates, and it was evident the railways realize the importance of the occasion.

The Edmonton delegates introduced a resolution to the effect that railways be compelled to provide adequate facilities. It was passed. Another resolution was carried that the government be asked to prove by survey the possibilities of the Saskatchewan river for navigation. Still another resolution was passed that the government be urged to rush the completion of the railway to Hudson's Bay. It was passed that the government be asked to take action that will give a measure of relief to settlers from the high lumber prices.

The Edmonton delegates presented a resolution to the effect that the provincial government be asked to legislate for the betterment of the roads. The question of the construction of good roads was investigated, and the officers of the provincial government, assisted by the provincial governments and the railways, enquire into the matter of establishing independent markets for the stock in Canada in both the east and west.

NEW ABATOR AT THE HAT.

Malcolm's Western Canneries Commence Building Operations.

Special to The Bulletin.

Medicine Hat, June 19.—Director Malcolm of Malcolm's Western Canneries, turned the first sod this morning for the big abattoir building which is to be erected forthwith. H. C. Cooper has been awarded the contract for the execution work. The building will be similar to the present one and will be 65 by 128 feet, three stories high with twelve feet basement. Orders have been placed for 60,000 brick, and machinery to the value of \$15,000 has been ordered and is largely on the ground here. Additional stock was placed this week to the extent of \$64,000.

SENTENCES AT PORT ARTHUR.

Port Arthur, June 19.—In the assizes, court here today Judge Anglin sentenced Stephen Miller to seven years in the Central Prison for attempting murder of A. Holmes at Marble, by shooting him with a shot-gun. Frank Verita was sentenced to two years in the Central Prison for hitting Harry Verita on the head with a club, when the latter attempted to enter the prisoner's house. Harry Verita died from the blow.

C.P.R. PRESIDENT IN WINNIPEG

Says Irrigation Work in Alberta Will Be Rushed.—Discusses Other Questions

Winnipeg, June 19.—Sir Thomas Shaughnessy today, in speaking of the real estate situation, said the present quietness in Winnipeg was only natural. It was just what occurred at times in all lines of commercial enterprise, and was not serious. There were times when merchants found it difficult to get sufficient money to carry on their business as they wished. The matter would right itself in time.

"Do you expect that your new Spokane line will take much of the traffic of the states to the coast away from the other roads across the lines?" he was asked.

A significant smile appeared upon Sir Thomas's face as he replied: "We expect that it will be a factor in the transportation, but there will be so much traffic through the western states that the other roads will hardly notice what we take."

It was the reference to Mr. Hill's denunciations that led Sir Thomas to make the remarks quoted above. He preferred not to deal with the subject at length.

"What will be the effect on the C. P. R. in the west from the entrance of the Hill lines and the completion of the G. T. P.?"

"We are going to remain in business, and will endeavor to get some of the traffic. We're not going to give up."

The station irrigation work, Sir Thomas said, he had looked into quite carefully with Mr. Whyte, since he had been in Winnipeg. The prospect for the station he considered to be rosy. The irrigation work along the C. P. R. in Alberta will be pushed forward as rapidly as possible this year according to the plans drawn up last year, and the large ditches would be considerably extended.

Speaking of the comparative cost of electricity and steam as motive power on the railways, Sir Thomas discussed at length the points which would be encountered in the change.

"With the present volume of business," he said, "I think the cost of present work is somewhat greater than steam. The condition, however, would be reversed with the increase in traffic which will come. The generation of the electrical power by water will not be very high, and I think we will have plenty of water power where we will require it. The introduction of electrical power will not do away with the necessity of tunnelling in some of the grades in the mountains. We have already had a recent automobile accident. Of course many of the grades will also be cut down each year."

"What is the outlook for farm labor in the west this year?"

"Well, it is rather early in the season to consider that matter. However, I do not consider that there will be any great difficulty this year. We have always got the labor when it was needed. The usual cheap labor excursions will be run from the east this year."

In conclusion Sir Thomas said his present trip west was to go over a great deal of business with Mr. Whyte which would have entailed a tremendous amount of correspondence. They had been discussing the reduction of grades, the general improvement of the road and the securing of the needed locomotives and rolling stock. He noted that they could get all the rolling stock and locomotives that were necessary.

Sir Thomas left this afternoon for Minneapolis, where he will meet with the directors of the Soo line. He then goes to Duluth and over the South Shore line, and back to Montreal again on Sunday. It is understood that the new tri-weekly transcontinental service which the C.P.R. are putting on to start on July 2nd will be named the Trans-Canada Limited. There was considerable difficulty experienced in securing the name which was finally named in Montreal and there will be no mail and express cars carried on these trains.

KILLED BY LIGHTNING

Bulletin Special.

Leduc, Alta., June 18.—During the severe electric storm which passed over the Millet district, Charles Myers residing six miles west of Millet, received a severe shock from the effects of which he died a few hours later.

Wine Growers Arrested

Montpellier, France, June 19.—Maceo Albert, the leader of the Wine Growers' movement, was arrested and brought here in custody today. M. Ferrout, and the Wine Growers' committee men, who were arrested at Argeliers, arrived here today and were placed in jail. A for a number of days the wine growers' committee men, who were arrested at Argeliers, arrived here today and were placed in jail. MUTINY OF SOLDIERS STATIONED AT KIEV

Detachment Attacked Loyal Soldiers.—Fighting Lasted But Few Minutes But Six Were Killed and Sixty Injured.—Strike In Big Factory Followed Mutiny

Kiev, Russia, June 19.—A mutiny broke out today among a detachment of troops stationed at this point, and a fierce attack was made on the soldiers who refused to join the revolutionary movement.

The fighting continued for several minutes. Half a dozen soldiers were killed and sixty were wounded. Finally the mutineers who had no officers, no leaders and no plans, were overpowered and fled. Two hundred and fifty were captured, but one hundred and ninety eluded pursuers and hid in the city.

Mutineers Became Frightened.

The mutiny at Kiev was arranged by Shefchenko, a revolutionist of good family, who entered the army as a volunteer for the purpose of undermining discipline and won over many of his comrades, but when he raised the standard of revolt, they were frightened. Three bombs were found in Shefchenko's tent. All the mutineers will be tried by court-martial.

The workmen employed in a big factory at Kiev struck after the mutiny, but they have not yet been joined by employees of other factories. General Sukhominooff, the commander of Kiev, is taking the most energetic measures to arrest the fugitives and the leaders of the movement. At least 200 names have been searched and 93 citizens have been arrested, among them being officials of railways and telegraph service and the editors of newspapers. Numerous other arrests were made in Kiev, and a number of bombs were found, but order is now restored.

Military Rule Instituted.

The city is in the hands of the military. The Novoe Vremya demands that the government use the iron hand in dealing with such mutinies and mete out immediate punishment. It attributed the sedition in the army

PADDLE RIVER BRIDGES GONE

Floods Carry Away Two of Them.—Crops Great.—More Settlers Than in 1906

J. Kryner, one of the half-dozen land guides employed by the immigration department in Edmonton, returned to the city on Wednesday afternoon after a futile attempt to get into the Paddle River country with a party of land-seekers.

Mr. Kryner and his associates left the city on Monday and despite the previous heavy rains made good time on the journey. When they reached the Paddle they found both bridges that spanned the river had been carried away by a flood that was the worst seen in that section for many years. The current was running at such a rate that it was unsafe to attempt to swim the stream, and as there was no prospect of the water receding for a few days the party concluded it would be best to return to headquarters.

One of the bridges swept away was built by the settlers in that country last year and as soon as the flood subsided, the structure will be replaced, and Mr. Kryner expects to be able to see traffic resumed by the middle of next week.

Mr. Hawk, another of the guides, was on the far side of the stream when the flood came back and the city will not be able to get along until next week.

The river ferry had a close call to being swept down stream in the rush of waters, but has work on the part of those near at hand saved it.

Mr. Kryner states that the fishing in the river is the best known this season, but less some of the anglers should be landed before the J. P. he refused to tell of some of the record catches that are being made just now.

Mr. Kryner covered the same territory in 1906 that he is traveling this year, and he says crops are full as far advanced as last season and that the 1907 hay crop will eclipse anything in the recent history of the country.

Although double the number of land guides are employed now as compared with a year ago, the number of settlers is heavier than ever, and the pleasing feature of the immigration is that more and more Americans and Englishmen are being attracted to Northern Alberta than previously.

THE STEAMSHIP COMPANIES NOW

Commerce Commission Will Investigate Alleged Stupendous Combine

Washington, June 19.—The interstate commerce commission today decided to institute an investigation into the affairs of the Hamburg-American Packet company, which is charged by Peter Wright & Sons, general agents at Philadelphia, of the Cosmopolitan Shipping company and the Cosmopolitan Lines, with pooling and maintaining monopolies in restraint of trade. The enquiry is expected to be the most stupendous ever undertaken and of a character different from any that ever before has engaged the attention of the commission.

EVIDENCE IS ALL IN

Montreal, June 19.—Unless the railway commission considers that it is necessary to go to Winnipeg to take further evidence it will hold no more cases at length. The enquiry, the business being ended this afternoon when Mr. Aime Geoffrion, K.C., closed his argument for the Bell Telephone company.

Mr. Shepley, the commission has not yet decided whether it will go to Winnipeg to take further evidence. The enquiry, the business being ended this afternoon when Mr. Aime Geoffrion, K.C., closed his argument for the Bell Telephone company.

WEDDING

Washington, June 19.—The wedding of Miss M. Hanna, daughter of the late Jos. H. Hanna, of Cincinnati, and John H. Hanna, of Montreal, was celebrated at the Hotel Moncey by Mr. Brown, of the British Army, took place at noon today. Both of the principles wore bandages as the result of a recent automobile accident. Captain Brown and his bride will remain here until the latter's mother is able to travel.

FRENCH COUNT RUNS AMUCK

He Was Mounted Policeman and Had Been Drinking.—Emptied 6 Shooter 3 Times

Bulletin Special.

Calgary, June 19.—Monday night last a Mounted Police officer going under the name of Morris, but really a French count named De Lavinae, ran amuck at the barracks here and emptied a six-shooter three times at his comrades, who were effecting his capture. His aim was bad and no one was hit. He was crazy with drink when caught. Yesterday he was court-martialed and given three months' imprisonment as well as being dismissed from the force. Being turned down by a woman is alleged to have started him drinking. He had been brooding and fretting for weeks.

Detachment Attacked Loyal Soldiers.—Fighting Lasted But Few Minutes But Six Were Killed and Sixty Injured.—Strike In Big Factory Followed Mutiny

Kiev, Russia, June 19.—A mutiny broke out today among a detachment of troops stationed at this point, and a fierce attack was made on the soldiers who refused to join the revolutionary movement.

The fighting continued for several minutes. Half a dozen soldiers were killed and sixty were wounded. Finally the mutineers who had no officers, no leaders and no plans, were overpowered and fled. Two hundred and fifty were captured, but one hundred and ninety eluded pursuers and hid in the city.

Mutineers Became Frightened.

The mutiny at Kiev was arranged by Shefchenko, a revolutionist of good family, who entered the army as a volunteer for the purpose of undermining discipline and won over many of his comrades, but when he raised the standard of revolt, they were frightened. Three bombs were found in Shefchenko's tent. All the mutineers will be tried by court-martial.

The workmen employed in a big factory at Kiev struck after the mutiny, but they have not yet been joined by employees of other factories. General Sukhominooff, the commander of Kiev, is taking the most energetic measures to arrest the fugitives and the leaders of the movement. At least 200 names have been searched and 93 citizens have been arrested, among them being officials of railways and telegraph service and the editors of newspapers. Numerous other arrests were made in Kiev, and a number of bombs were found, but order is now restored.

Military Rule Instituted.

The city is in the hands of the military. The Novoe Vremya demands that the government use the iron hand in dealing with such mutinies and mete out immediate punishment. It attributed the sedition in the army

FRENCH COUNT RUNS AMUCK

He Was Mounted Policeman and Had Been Drinking.—Emptied 6 Shooter 3 Times

Bulletin Special.

Calgary, June 19.—Monday night last a Mounted Police officer going under the name of Morris, but really a French count named De Lavinae, ran amuck at the barracks here and emptied a six-shooter three times at his comrades, who were effecting his capture. His aim was bad and no one was hit. He was crazy with drink when caught. Yesterday he was court-martialed and given three months' imprisonment as well as being dismissed from the force. Being turned down by a woman is alleged to have started him drinking. He had been brooding and fretting for weeks.

NOTICE.
Any give notice that I will not be responsible for any debts contracted by my son, Thomas Clark, this 15th day of June, A.D., 1907.
