Knowing that you will appreciate the superb purity of our beverage we respectfully solicit a trial order.

Conforms to the high standard of Gillett's goods. Useful for five hundred purposes.

### GILLETT'S PERFUMED LYE

Made in Canada

### The Evening Chit-Chat

By RUTH CAMERON

A young man whom I know, has what many of his friends term a "soft snap." He works for his older brother, who is very fond of him and allows him many "privileges and immunities, besides paying him an excellent salary.

But the other day it became necessary for someone, who was in the confidence of the firm and entirely trustworthy, to do a certain exceedingly difficult and disagreeable piece of work. And, of course, this task fell to the younger brother's lot. In order to do this work, he was obliged to get up at four o'clock, every morning for over a month and that in the least pleasant season of the year. He had to do a great deal of hard manual labor, eat in very cheap restaurants and put up with very obnoxious sleeping quarters.

We were speaking of all these discomforts afterwards, and one of those friends who had always enviously contended that Richard had a "soft snap," admitted that it might not be so soft as we had supposed. "I guess he has some things easy and some things hard like the rest of us," said this man.

My friend—is there anyone whom you have always had a tendency to envy—anyone who seems to you to live, as it were, on a bed of roses, and never have anything to disturb or

disappoint? Believe me, if you knew all about his life, you would find that he also had "some things easy and some things hard, like the rest of us."

There are people who seem to swim through life without ever encountering any cross currents, without ever being touched by want, misfortune, or disappointment. We may not exactly envy them, but we certainly cannot see what possible cause they can ever have for unhappiness or dissatisfaction. And yet, if we really knew their daily existences and their inmost thoughts, I'm sure we would find that they too had many things to mar their lives.

It might be that the necessity of bearing with some very disagreeable member of the family was the bitter drop—it might be that the inability to control a fearful temper, some other weakness, or the fear of some inherited disease was the skeleton of his heart's closet. Indeed, any one of innumerable things might be the "something hard" which checks the existence that looks so perfectly happy to us.

There may be somewhere, sometime an existence in which all things shall be easy and satisfactory, but I don't believe such an existence ever comes to any one in this life. Some things easy and some things hard, light and shadow, day and night, seedtime and harvest—through all the world runs the law of contrast and balance.

So don't fancy it is just in your life that some things are easy and some things hard. It is everywhere.

Ruth Cameron

### No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use **Dr. Pierce's Golden Medical Discovery**. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so **GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.**

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

### Household Notes.

ing allowed to boil for ten minutes remove the pan and allow the water to cool before taking out the ware.

Flannels that have become yellow can be made to look like new by soaking for two or three hours in a lather made of one-quarter pound of white soap, two tablespoonfuls of borax and two tablespoonfuls of carbonate of ammonia dissolved in five gallons of soft water. Boil the soap in water until thoroughly dissolved, then add the other ingredients. Rinse well. This will not injure the flannels in the least.

Wash woollens by hand and in water not too hot, say about 108 degrees, and you never will have them shrink or look bad. Use a good, pure soap to wash them, making a lather, and rubbing some soap on the garments if there are spots. Rinse in water of the same temperature as that in which you washed the articles. Before hanging them up to dry shake them well, and while they are drying shake them again.

Rubber hot-water bottles may be mended as follows: Cut one inch of clear para rubber into small pieces and place in one pint of benzine; cover tightly and leave two or three days, or until the liquid is about as thick as honey. Apply this cement to the surface of the bag, and the patch, which should also be of rubber. Join the two, press down evenly, and in a very few minutes the mend will be perfectly complete.

We know that discoloration, mold and build-up of the nervous system Edinborough, Bates & Co., Toronto.

### Neuralgia and Sciatica

Caused great suffering for 25 years. Nothing effective until Dr. Chase's Medicines were used.

"It affords me pleasure to speak favorably of Dr. Chase's Nerve Food and Kidney-Liver Pills," writes Mr. W. T. Collins, Morpeth, Ont. "I had been a sufferer for 25 years from sciatica, lumbago and neuralgia and tried nearly all the remedies advertised without one particle of benefit until I began the use of Dr. Chase's medicines. Before I had finished two boxes of the Nerve Food and Kidney-Liver Pills I noticed considerable benefit in my condition. I have so much confidence in these medicines that I have recommended them to dozens of my friends."

In severe cases of this nature the combined use of these medicines brings results which are both surprising and satisfactory. The Kidney-Liver Pills regulate the action of kidneys, liver and bowels, while the Nerve Food enriches the blood and builds up the nervous system. Edinborough, Bates & Co., Toronto.

between paper and ceiling caused by leaks of unsound roofs or disordered bathrooms. When you see a damp spot appear on your ceiling, immediately make a few openings in it with a pin point, fastening the pin on a stick or long broom handle, and let off the water. The paper will dry out, leaving soon not the least trace of disaster.

An asbestos pad for the table may be made in this way: Get enough asbestos paper to cover the table with double thickness. From a couple of old sheets cut two pieces the size of the table. Baste the asbestos paper between them and quilt it on the sewing machine, using a long stitch. This is necessary, as the paper tears and pulls apart easily. Put this pad on the table under your silence cloth, and there will be no marks made on the polished surface by hot dishes.

To prevent the bedclothes pulling out from the foot of the bed and leaving the feet cold take half an old sheet put one end or half of it under the foot of the mattress and let the other half hang over the footboard while you spread the sheets and blankets as usual; but before putting on the spread bring the other part of the half sheet up over the clothes as far as it will come, then put on the spread. It will take more than an ordinary amount of kicking on the part of the most vigorous boy to tear the clothes.

### The Stench Unbearable.

Editor Evening Telegram.

Dear Sir,—Would you kindly let Dr. Wakefield know before he addresses another gathering on consumption that there is a street not five minutes' walk from Government House, called York Street, off Cochrane Street. Although the city has been taxed for a main sewer through this street, yet every night at twelve o'clock or a quarter after, the city carts go through this street and empty cans, wooden tubs, and filth, so-called night soil, remain without being washed or any kind of disinfectant used. They remain on the street until morning, and then are taken in to the owner's home where they cook, eat and sleep. Now would Dr. Wakefield explain how this could be remedied and suggest some means to prevent it. He told about the farmer giving us clean milk, and he strongly recommends pure air. As the spring season is near, it will be necessary to open our windows, as I see by the papers that he recommends, but we cannot do it at present for the stench from those tubs and open city carts is unbearable.

Yours,  
YORK STREET,  
St. John's, Feb. 28, 1912.

### Ringling Through Bonaventure Co.

SPLendid WORK DODD'S KIDNEY PILLS ARE DOING.

Mrs. Norman L. Dow Tells What They Have Done for Her—People Talking of Them on Every Side.

Port Daniel, West Bonaventure Co., Que., Mar. 1, (Special). Bonaventure County is ringing with the great work done by Dodd's Kidney Pills, and on every side people are telling their neighbours of aches relieved and ills cured by the great Canadian Kidney remedy. To the great mass of evidence already published is now added that of Mrs. Norman L. Dow of this place:—

"I can recommend Dodd's Kidney Pills as an excellent remedy for rheumatism and palpitation of the heart," said Mrs. Dow. "After using one box I was greatly benefited."

Dodd's Kidney Pills cure rheumatism and palpitation of the heart, because they both come from the same cause—impure blood. Dodd's Kidney Pills make the kidneys right, and when the kidneys are right they strain all the poison and impurities out of the blood. Cure the kidneys with Dodd's Kidney Pills and you can't have such diseases as rheumatism or palpitation of the heart.

### Don't Want Reid Charity.

Editor Evening Telegram.

Dear Mr. Editor,—I cannot help remarking a few words in your columns from "Observer." He must have been awfully struck when he heard a man such as the Rt. Hon. Sir Robert Bond talking solid sense at the House on Wednesday afternoon, and the Premier, Sir E. P. Morris, trying to persuade the people they were all gone into consumption, and it was necessary to have 17 Sanatoria to stamp the dread disease out. I think it is time for the Premier, Sir E. P. Morris, to be getting down to business now that the House is open, and try to fulfil some of his promises. If he (the Premier) would make a move and compel the Reids to open up some of the railway lines it would be more profitable. I wonder if the trains have caught tuberculosis and gone to the Sanatorium for treatment? Don't be surprised, Mr. Editor, if you hear of the fish markets being closed against our fish. Why? Because the people who buy them may be inclined to believe that our fish may get tuberculosis, and it will be almost impossible to produce a health certificate with each fish that is exported. It is a good thing we don't have to export any potatoes, as you know we were persuaded by some big headed men that they had canker or tuberculosis or something else.

The Premier, Sir E. P., might have been counted for a smart, long-headed man. If so, it is time for him to prove it, and try and reduce the taxation of the poor people, and not impose any more. If taxes go up any higher it is poor houses will be wanted and not Sanatoria.

The idea of such talk as 17 Sanatoria as a gift from the Reids. The outside world will be inclined to believe that the country is gone up to spout and that the Reids are bestowing charity upon us.

Throw away such ideas, Sir Edward, and get down to business. Time is limited. It is a poor time for picnics as the trains are all blocked and you wouldn't be able to get on a new branch, even if one were to open tomorrow.

Yours truly,  
ANOTHER DISGUSTED ONE.

### The Biggest Hockey Offer.

Of Season Made For an Amateur by Canadians.

Ottawa, Feb. 14.—Eddie Gerard, the sensational young forward and captain of the New Edinburgh Hockey Club, declined to-day the biggest hockey offer of the season. Gerard, for whom the Ottawas have made several desperate attempts this winter, received a telegram from Manager Geo. Kennedy, of the Canadians, offering him \$1,000 for the balance of their schedule of six games. Kennedy followed this with an offer of \$1,000 and a bonus for extra games, but Gerard promptly wired them his refusal. He does not want to turn professional.

WITH THE ADVENTURIST.—The Prophetic Beast of Rev. 13: 18. "What is his image?" An intensely interesting question. Can it be answered? Come and see. Discourse by Elder C. H. Kealake, Adventist Church, Cookstown Road, to-morrow night.
