rack with the body of the slain District Inspector Brady, were what the correspondent found when he reached this remote place in Ireland late Saturday. The correspondent was told how acting County Commissioner Russell tried to prevent the destruction of the town. From the managers of the two fire swept creameries he received their accounts of an heroic struggle in the darkness and a thick fog to save the institutions, with which the fortunes of almost the entire community were bound up, and from the wife of one of the managers of the creameries he heard a story of how she and her three children escaped from bullets and also how she while facing four rifles pointed at her head contrived a ruse to safeguard her husband.

WARD TO TEST LEGALITY OF F. C. B.'S LAST MOVE TO KEEP UP THE PRICE.

Since the Supreme Court case of Hickman & Co. was settled, there has been a more active demand for sugar. The trade was holding back pending this decision, and stocks of Retailers were kept down at a minimum. The present F. C. B. price Regulations hold till the end of the year, when it is hoped that the stocks on hand will have been consumed, viz.—\$28½ wholesale and \$32.00 per 100 pounds.

Molasses.—The total import of Molasses to St. John's to date is 7133 puncheons as compared with about 10,000 last year at this time. There is no change in price, viz.—\$1.72 to \$1.75 per gallon wholesale for Fancy and \$1.62½ to \$1.65 for-Choice. Tierces 3 cents and barrels 5 cents less. The "Mollie Fearn" is at Barbados and may bring a cargo.

Flour.—It is pleasing to note that there is an easier tone this week, and that the Mills are getting to work in Canada. Highest grades of Manitoba Patents are now selling at \$17.00 per barrel, but the Mills are offering 25 cents cheaper for shipment in November, and 25 cents still lower in December. The quotations to-day are for immediate acceptance as the fluctuations are expected. The wholesale quotations of Flour here this week are, \$16.75 for Leading Brands, and \$16.00 to \$15.50 for under qualities.

Potatoes.—Home grown potatoes are very plentiful now in the local market. As the frost is keeping off the potato crop is improving all the time and will be one of the best on record. The potatoes generally, are large and dry. The wholesale price from farmers here \$4.50 to \$5.00. Next month when

BEER.—Beef also shows further signs of firming up. Some of the higher grades are now being quoted to importers at an advance of \$2.00 over last prices. At present the advance does not apply to the lower grades, but it may be expected that these too will be influenced by the strong market tendency upward. The local price will remain at the old figures while the fairly large stocks now held fast. The St. John's quotations to-day are \$35.00 for \$36.00 Bos Flank, \$34.00, Family \$30.00 to \$32.00 Boneless, according to quality.

Rabbits.—Rabbits are very plentiful this season and they are being sent in so fast, and in such large quantities from the outports on the Railway line, and the price is so high that they have accumulated at several stores and are being put into cold storage.

If the price had been more reasonable say 50 cents a pair which is enough, this would not have been necessary. We hear that several barrels had to be dumped owing to having become rotten. It appears from all the circumstances that the season for snaring Rabbits opens too early and should be a month later. The weather in September is too warm to keep them any length of time, and there are too many immature Rabbits snared and sent in.

We draw the attention of the Game Board to this matter and suggest that they make the opening season a month later. We would remind them also, that a Brace of Rabbits is not worth 80 cents.

Sugar.—There can be nothing new in the local sugar situation unless some one interested should come forward to test the legality of the F. C. B.'s last move to keep up the price.

Oil.—There is no change whatever in the local situation. The principal handlers have ample stocks on hand, but find it impossible to make any considerable sales. We quote \$1.00 per gallon as value for any Refiners trying to force a sale. There was none exported this week. The total manufactured this year will be, Inspector McFarlane says, only about 140,000 gallons as against 293,000 last year.

Lobsters.—No improvement in the Lobster market and no demand from the U.S. buyers. It is not easy to sell Labrador in St. John's to-day unless the seller is satisfied to take goods in exchange on the basis of \$20.00 a case for 48 lb. tins.

Pork.—The market has recently been showing considerable strength, and latest quotations on all grades show advances of \$2.00 to \$3.00 a barrel. According to the figures of total imports to date, 23,000 barrels, it would appear that there is about sufficient in to take care of the Fall's trade. Prices are as follows:—\$54.00 Ham Butt, Short Mess and Family, \$44.00; Fat Back, \$46.00; Spare Ribs Mess, \$38.00.

Italy has gone through a radical transformation in the relations existing between employers and workers with little injury to persons, property or the order of things, says Premier Giolitti, in a statement to the Associated Press.

CODFISH.

Labrador.—The latest reports from Labrador give the satisfactory information that the quality of the fish being shipped is the best seen on the coast for the past ten years. The weather has been ideal for the curing of fish and we hear from Marconi advices that 99% of the fish will be Prime Labrador. This shows what the fishermen can do when they do their best and we are confident that foreign markets will have very satisfactory reports to give us later on. The Current Price has been arranged for \$8 per qtl. for all that is shipped off the coast. At one time it was stated \$7.00 or \$7.50 would be the outside limit but the Labrador exporters strained the limit to show the fishermen good returns. The latest news from the Greenfish catchers that went far north is that only a few of them did well and the majority will have a very meagre catch.

Shore Fish.—Some small lots are now arriving and selling at \$13.00, \$10.00 and \$9.00 according to quality. The merchants are doing all they can to help the fishermen on cull. We have great hope for still greater improvement in the cure of fish for next year when fishermen have had time to complete their arrangements as everything has been done in a hurry this season.

Cod Oil.—We hear of Buyers on the spot offering \$220. per ton for small lots for immediate delivery, but no large quantity is saleable at this figure, and it will not be wise to reckon upon more than \$200. being obtainable for future shipments. The export of Common Cod Oil this week from St. John's up to yesterday was nil, which is in itself a sufficient indication of the state of the foreign markets.

Superior Two Pants Suit!

"The Extra Pair--Doubles the Wear."

A Suit with two pairs of pants will last twice as long as a suit with one pair—that's logical. For ordinarily the trousers of your suit will wear out long before the coat; you discard the coat and buy a new suit, though the coat is still in splendid condition.

We want you to get the maximum wear out of your clothes, and for that reason we are making suits to your measure with "two pairs of pants."

You want one of these two pants SUPERIOR Suits, your logic and common sense tell you so. Come up and get one.
