## TUESDAY EV C HAL

## AN UNION STATE

Some three years and a half ago there was insiderable agitation in Guelph in reference to a Union Sta-tion. At that time we invited Mr. Swinyard to visit Guelph, and give us his opinion on the subject. Mr. opinion on the subject. Mr. Brydges was also consulted in regard was ready to proceed with the Imto the project, and for a time there was every prospect that what we re-quired so much in Guelph-both in on the ground that all the States ar terests of our business, as also of on the ground that all the States are not represented, moved that the trial should be discontinued. Lost by 2 generally-would be secured. ifficulties arose as details were into. The Great West the interests of our business, as also of community and the travelling public But dif gone into. The Great Western required the Corporation to grant them the right of way, and secure them from all responsibility in running their station short of actually buying the right of way, but they did not at that secure. The negotiations came to an end, the subject was dropped and nothing more was done either on the part of the Railway Companies or the Council to effect an arrangement.

Since that time other subjects of Guelph have engrossed our attention-We have witnessed the inception and literary and social treat in Wilson's Hall. progress of the agitation for the conction of a railway from Guelph to Lake Huron, and after the delays was made up of music, recitations, dia which invariably attend such an enterprise, the road is now in a fair way of tertainment wound up with the drunken being built. In view of this it becomes a question of the first importance to the people of Guelph whether another effort should not be made to secure a Union Station, and whether the Town would not reap the benefit hereafter, even though it went to some expense in securing right of way for the Great Western Company by which their trains could be run into a Union Station, which would accommodate both Railway Companies. There is one thing quite the trains could be run into a Union Station is to be secured, now is the time. If the North Western Railway be built, and the Guelph station one established where the Western one now is, no inducement that we could offer would prevail on the Companies to change the location, and the comsequence would be that Guelph would for a considerable extent be deprived of any benefit which it may derive trom the running of the new road. Besides this, there are many other advantages which an Union Station would secure, and which will be quite apparent to any one who for a moment reflects on the subject. We are glad to see that the Mayor at the last meeting of Council brought it e matter again under the notice of the subject. comes a question of the first importance to the people of Guelph whether

at the last meeting of Council brought the matter again under the notice of the members. We hope that this time Chatham Planet says :- On the evening something will be done, that the man- of the first inst., as Mr. John Campbell, agers of the railways interested will of the 7th concession, township of How be communicated with, and that before long Guelph will possess what is so much needed, a commodious and convenient Union Station.

The Hamilton Times has the following from its Montreal correspondent :

Last Thursday the Gazette, following the Ottawa Times, had an editorial article strongly in favor of the Maior Robinson Northern Intercolonial Railway route. To-day the Gazette as two editorials both still more

asses in the impeachment The witnesses in the impeachment trial ware summoned on Saturday night, 24 in number—most if not all of them have been examined by the impeachment managers. The 2*ri*-bune's special says the President's an-
