The Fall Show of the Minto Agricul-tural Society was held in Harriston on the 30th ult. The day, especially to-wards the afternoon, was cold and blus-tery, and the sudden change was keenly felt by the visitors. There was a great crowd convened in the village, the maority being young people, who were bent on having one day's enjoyment, and

There are many other building going up in the village, which though not so large or substantial as that mentioned, are yet good of the kind, and furnish proof of the growth and advance-ment of this enterprising place. The stock and implements were ex-hibited in the Show grounds, and the grain, domestic manufactures, ladies work, &c., in the large and commodious new shop recently erected by Patmore Bros. as a carriage factory. This building is convenient to the railway station, and in its size and interior accommodation will compare favorably with many shops in the cities, and will afford Patmore Bros. every facility for carrying on their stadily increasing husiness.

Bros. every facility for carrying on their stadily increasing business. The Show this year in several respects was not equal to that of previous years, and was not what it might have been, had the farmers of Minto displayed their usual energy and spirit. Of course some allowance must be made for the extraor-dinary dry season, which no doubt pre-vented many from exhibiting who would have done so under more favorable cir-cumstances. Still, we are free to think that they might have done better, and could have done so had they been in-clined, for there is no Township in the Courty possessed of better resources, or more spirited farmers—when they are in the humor.
