dullness attended today's two-hour session on the stock exchange. The list seemed to have lost some of its recent firm undertone, several of the standard issues reflecting a degree of pressure. Steel shares were inclined to sag, but no more so than such other leaders as Reading, Union Pacific, and Amalgamated copper. In fact, the dropping tendency resulted as much from neglect or indifference by the professional element as from any other cause.

General news was meagre, but most favorable. One of the largest steel corporation's subsidiaries issued notice of a dollar per ton advance next week in wire and allied products, while makers of wrought-iron pipe were reported to have withdrawn quotations on pending prices There were also the week-end statements of the mercantile agencies, confirming other statements bespeaking increasing optimism in trade. JUNE BANK STATEMENT

Ottawa, Ont., July 21.-Large in creases in bank note circulation and in saving deposits and decreases in Doninion note holdings as well as in current deposits are the noticeable features of the June bank statement just issued by the finance department, when ompared with the returns for May. During the month of June the banks

ncreased their reserve to \$101,031,186, namely by \$152,338. The amount of \$162.011.044 or 8.192.515 more than on age amount of Dominion notes held by banks shows a shrinkage of \$1, 846,430. Current account deposits are returned at \$373,500,189, a net decrease 25 at \$301,317,687. The banks liabilities luring the month of \$3.053.028. Savings deposits in the banks, however increased by \$6,023,343, standing on June were increased by \$15,334,629 and the assets by \$15,727,611. The amount at by latest developments in the Italo- loan on call in Canada on stocks and Turkish war, and consols hardened in bonds at the end of June was \$48,701,-855, an increase of \$356,698 call loans sum of \$170,569,812, an increase of \$4, 737076 A significant sign of confidence in the business situation and outlook is the increase of \$11,657,539 in current loans, which at the close of the month stood at \$848,940,089. Comparison of the return for last month with the statement for June, 1911, shows that the banks in the 12 months in-creased their paid-up capital by \$11,-423,231. Their reserves were increased by 14,088,051. Their note circulation by \$13,393,149, their call loans in Can-ada by \$7,194,587, their call loans abroad by \$22,704,412 and their current loans in Canada by \$131,070,703. During the

UNITED STATES OUGHT TO ARBITRATE CANAL DISPUTE

Daily News, the Principal Organ of the Asquith Government, Says That Is the Only Way to Dispose of It

London, July 21.-In an editorial on the Panama Canal bill, the Daily News, the principal ministerial organ, says that apparently the United States Sen ate means to pass the bill without heed of the British government's protest,

"Perhaps the senators think that in its present form the bill makes no disinction, but it certainly could stand very diverse interpretations. That, wever, is not a satisfactory attitude for if the senators do not wish to discriminate, surely they ought to make their intention as clear in the bill as

"It is more probable that they think congress has the right to discriminate under the Hay-Pauncefote treaty. That s not the British view, and we have s conflict of opinion as to the meaning of the international agreement. "There is only one permissible way

to dispose of this conflict, and that is by arbitration. Nither America nor Great Britain wishes to violate any en-gagement, and both countries are anxious to carry out its agreement in the spirit and in the letter where there is difference of opinion as to their true character.

"The obvious solution is to submit the issue to an impartial judge. "That course should be taken if the bill as it leaves congress turns out to be in conflict with the British view bearing on the Hay-Pauncefote treaty."
