VOL. XIV.—No. 17. GLENCOE, ONT., THURSDAY, APRIL 30, 1885. WHOLE No. 696.

## AYER'S Cherry Pectoral.

No other complaints are so insidious in their  
attack as those affecting the throat and lungs;  
none so tedious with by the majority of suffer-  
ers. The ordinary cough or cold, resulting  
perhaps from a trifling or unconscious ex-  
posure, is often but the beginning of a fatal  
sickness. AYER'S CHERRY PECTORAL has  
well proven its efficacy in a forty years' test,  
with throat and lung diseases, and should be  
taken in all cases without delay.

A Terrible Cough Cured.  
"In 1851 I took a severe cold, which affected  
my lungs. I had a terrible cough, and passed  
nights after night without sleep. The doctors  
gave me up. I tried AYER'S CHERRY PECTORAL,  
which relieved my lungs, induced sleep,  
and afforded me the rest necessary  
for the recovery of my strength. By the  
continued use of the PECTORAL a perma-  
nent cure was effected. I am now 65 years  
old, hale and hearty, and am satisfied your  
CHERRY PECTORAL cured me."  
HORACE FAIRBROTHER,  
Rochester, N.Y., July 15, 1882.

Croup—A Mother's Tribute.  
"While in the country last winter my little  
boy, then nearly two years old, was taken ill with croup.  
It seemed as if he would die from strangulation.  
One of the family suggested the use  
of AYER'S CHERRY PECTORAL, a bottle of  
which was always kept in the house. This  
remedy was tried, and in less than half an hour  
the child was breathing easily. The doctor  
said that the CHERRY PECTORAL had saved  
my darling's life. Can you wonder at our  
gratitude?"  
Mrs. Emma GARDNER,  
150 West 125th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL  
in my family for several years, and do not  
hesitate to pronounce it the most effective  
remedy for coughs and colds we have ever  
tried."  
Mrs. A. J. CRANE,  
Lake Crystal, Minn., March 18, 1882.

"I suffered for eight years from Bronchitis,  
and after trying many remedies with no suc-  
cess, I was cured by the use of AYER'S CHERRY  
PECTORAL."  
JOSEPH WALDEN,  
Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S  
CHERRY PECTORAL, believing as I do that  
but for its use I should long since have died  
from lung trouble."  
F. E. BRADDOCK,  
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or  
lungs exists which cannot be greatly relieved  
by the use of AYER'S CHERRY PECTORAL,  
and it will always cure when the disease is  
not already beyond the control of medicine.

PREPARED BY  
Dr. J. C. Ayer & Co., Lowell, Mass.  
Sold by all Druggists.

## WARREN LELAND, Largest Hotel Enterprises

of America, says that while a passenger from  
New York on board ship going around Cape  
Horn, in the early days of emigration to Cal-  
ifornia, he learned that one of the officers of  
the vessel had cured himself, during the voy-  
age, of an obstinate disease by the use of

Ayer's Sarsaparilla.  
Since then Mr. LELAND has recommended  
AYER'S SARSAPARILLA in many similar cases,  
and he has never yet heard of its fail-  
ure to effect a radical cure.  
Some years ago one of Mr. LELAND's fam-  
ily labored with the leg. Owing to the bad  
state of his blood, an angry sore was formed,  
and it appeared on the injured limb. Hor-  
rible itching of the skin, with burning and  
daring pains through the lump, made life  
almost insupportable. The leg became enor-  
mously enlarged, and running sores formed,  
discharging great quantities of extremely  
offensive matter. No treatment was of any  
avail until the man, by Mr. LELAND's direc-  
tion, was supplied with AYER'S SARSAPARILLA,  
which allayed the pain and irritation,  
healed the sores, removed the swelling, and  
completely restored the limb to use.

Mr. LELAND has personally used  
Ayer's Sarsaparilla  
for Rheumatism, with entire success; and,  
after careful observation, declares that, in  
his belief, there is no medicine in the world  
equal to it for the cure of Liver Disorders,  
Gout, the effects of high living, Salt  
Rheum, Sores, Eruptions, and all the  
various forms of blood disease.

We have Mr. LELAND's permission to advise  
all who may desire further evidence in regard  
to the extraordinary curative powers of  
AYER'S SARSAPARILLA to see him person-  
ally either at his mansion, Ocean  
Long Branch, or at the popular Leland Hotel,  
Broadway, 27th and 28th Streets, New York.  
Mr. LELAND's extensive knowledge of the  
good value of this unequalled eradicator of  
blood poisons enable him to give inquirers  
much valuable information.

PREPARED BY  
Dr. J. C. Ayer & Co., Lowell, Mass.  
Sold by all Druggists; \$1, six bottles for \$5.

NEW EDITION.  
WEBSTER'S  
UNABRIDGED  
DICTIONARY, SUPPLEMENT  
Published by G. & C. MERRIAM, Springfield, Mass.

LATEST—LARGEST—BEST.  
Contains over 118,000 Words.  
1925 Pages, 3000 Engravings,  
4600 NEW WORDS and Meanings.  
Biographical Dictionary of  
over 9700 Names.  
From The Canada Educational Monthly,  
Toronto.—And just here comes in the contrast  
of the position of the Englishman with that of his  
countryman in this side of the Atlantic. He has no  
"Webster," no book of an all-arounding require-  
ment, no one reference work in which he may find  
all that he may be in quest of, no single  
quarry that will yield him every word he may  
require the assistance of—such as he may find  
in the manner of "Unabridged Webster." Hav-  
ing regard to his history, his thoroughness, its  
completeness, and its price, it is an amazing  
work of literary skill and mechanical work-  
manship.  
"There should not be a school in the Dominion,  
where no one could readily and constantly be  
found at his desk. No teacher, no student, no  
reader of the language, can afford to be without  
it for it is a monumental work, a noble tribute  
to our grand old mother-tongue.  
From London Quarterly Review.—On the  
whole, as it stands, it is most respectable, and  
certainly the best PRACTICAL ENGLISH DICTIONARY  
yet published.  
"A necessity to every educated man."—Lord  
Brougham.  
"Every scholar knows its value."—R. H.  
Prescott, the Historian.  
"The book has become indispensable to every  
student of the English language."—Morrison  
& Wells, Chief Justice U. S.

## New Drug Store.

Which has come into general use in all centres of Society.

WOOL, UNION AND GRASS MATTRESSES.

Having bought for Cash, I am enabled to sell at Reasonable  
Prices. A call solicited.

Glencoe, Sept. 11th, 1883.

GEO. WILSON.

## THE REBELLION.

### A Battle on Friday Last

SOLDIERS KILLED AND ABOUT  
50 WOUNDED.

THE REBEL LOSS BELIEVED  
TO BE HEAVY.

Two divisions, one composed of  
French Scouts, Winnipeg Battery,  
Royal Grenadiers and Teamsters,  
under Col. Montanbert, and the  
other of the 60th Battalion, "A" Bat-  
tery, "C" Infantry, Boulton's Mount-  
ed Corps and Teamster, under Gen.  
Middleton, in all 951 men encounter-  
ed the rebels at 9.15 o'clock on  
Friday, about fifteen miles south of  
Batoche.

The rebels advanced from a ravine,  
and fired on Major Boulton's  
scouts. The fire was at once return-  
ed, and the rebels, who mounted  
their horses, backed into a ravine in  
which they lay concealed, only rising  
to fire on the troops. The troops  
immediately advanced in skirmish-  
ing order. The enemy were attacked  
from both flanks, but so well chosen  
was their battle ground that they  
were apparently out of any possible  
danger from the volunteers' rifles.  
A battery could not at first reach  
them, but at length they secured a  
favorable location and shelled the  
ravine, having previously demolish-  
ed two houses in the distance at  
which reinforcements for the rebels  
were waiting.

In a few minutes, however, the  
rebels retired to a small point in the  
but they soon returned and, avoid-  
ing A Battery, moved towards our  
regiment, the 60th. Our left hand in  
the meantime made another body of  
the enemy retire. Then came fight-  
ing at close quarters, the combat-  
ants being only thirty or forty yards  
apart; the fight throughout was a  
bush one, the half-breeds and Indi-  
ans lying concealed in the bluffs or  
hiding behind the trees, and keeping  
up a hot fire with deadly effect.  
The whistle of the bullets  
could be heard and the balls from  
the enemy's shot guns rattled in all  
directions. The first under fire at  
this stage were the men of Major  
Boulton's corps, but No. 6 company  
of the 60th soon advanced to their  
aid, and they took their right flank. A  
hot combat ensued, nearly all firing  
while in a prostrate position. A  
number of gallant volunteers fell  
here, pierced by rebel balls. The  
warriors of the Indians were heard  
now and then as they rallied  
for the fight. A desperate fight was  
up for over an hour, and then  
the rebels had run short of ammuni-  
tion, and the enemy's bullets came  
from the men. After a short  
cessation, however, the enemy re-  
commenced firing.

At one o'clock the prairie was on  
fire. This, however, was soon ex-  
tinguished by the rain. The half-  
breeds fought in the Indian style,  
and the large number of casualties  
shows that they are not a foe to be  
despised.

General Middleton's hat was shot  
through, but he himself is uninjured.  
Seven of the volunteers were killed  
and about fifty wounded, of whom  
two have since died. The rebel loss  
is not known, but is believed to be  
large.

From the desolate scene presented  
in the ravine descended by the rebels,  
it is now believed the rebellion was  
severe, but they have covered it up  
well in the retreat. Sixty dead  
horses were found in the ravine.

The total force now in the North-  
west, including Mounted Police, is  
over 5,000, and with those engaged  
in transport service would make in  
round numbers 5,500 men and about  
2,000 horses.

General Middleton expects the  
next contest to be decisive.

Voting on the Scott Act in the  
county of Frontenac and the city of  
Kingston will be held on the 21st of  
May.

Snow fell in parts of Michigan on  
Tuesday to a depth of nearly two  
feet in some places. The tempera-  
ture was 7 degrees below zero.

"Pa I want to go whaling." "All  
right my son." And in a few minutes  
he was busy in the woodshed, with lots  
of blubber.

Charles, cured, health and sweet breath  
secured, by Shiloh's Catarrh Remedy. Price  
50 cents. N. S. L. Co., New York, N. Y.

A Great Mistake.  
It is a great mistake to suppose that dys-  
pepsia can't be cured, but it must be cured  
and life made gloomy and miserable thereby.  
Alexander Harris, of Chicago, was cured after  
suffering fifteen years. Burdock Blood Bitters  
cured him.

A nasal injection, for each bottle of  
Shiloh's Catarrh Remedy. Price 50 cents.  
N. S. L. Co., New York, N. Y.

Can Deafness be Cured?  
Mr. John Chase, of Montreal, Ont., writes:  
"I am cured of my deafness by Shiloh's Catarrh  
Remedy. It is the only medicine that has  
cured me. It is also a specific for all inflamma-  
tions of the throat and lungs."

Shiloh's Catarrh Remedy. Price 50 cents.  
N. S. L. Co., New York, N. Y.

GEO. WILSON.

## Fire at Strathroy.

Strathroy, April 26.—About 9.40  
last evening a fire broke out in the  
stables in the rear of J. C. Robinson's  
bakery and confectionery store,  
which for a time threatened to de-  
stroy the entire business portion of  
the town. An attempt was made to  
save a horse which was in the stable,  
but it was not successful. The fire-  
men at once turned their attention to  
the rear of the brick block on Front  
street, which was in great danger.  
While the firemen were engaged the  
flames had spread to the south and  
west and destroyed the stables and  
dwelling occupied by J. McGarvey,  
the livery stable occupied by J. Strill,  
another dwelling occupied by R.  
Coughlin, a number of out-houses,  
sheds, etc., and worked its way for-  
ward by the wind into the large frame  
stable belonging to the Queen's  
Hotel property. The five stores were  
gutted. About midnight the fire was  
got under control, but the engine  
continued to play on the wood, etc.,  
which had taken fire until about 6 a.  
m. At 1 a. m. a special train from  
Petrolia arrived, having on board a  
large number of firemen and a steam-  
er all ready for work, a message  
having been previously sent to them.  
Their assistance, however, was not  
required. The losers are J. C. Rob-  
inson, J. McGarvey, A. H. Vittridge,  
three buildings; A. Johnston, two  
buildings; S. H. Ray, James Cox,  
Queen's Hotel stable, owned by  
Manson, Rapley & Fawcett, and  
Duprose & Foreman, storehouse;  
J. P. Whitehead, V. S. Cummings,  
harness-maker; Paine's boot and  
shoe store, and Charles Andrews'  
billiard parlor and barbershop. As  
near as can be ascertained, the loss  
is between \$8,000, and \$10,000.

Wardsville.

Mr. Chas. Risk has entered the office  
of Coyne & Wilson, as a dental student.

Mr. E. C. Kerby is acting as a jury-  
man at the Assizes now being held in  
London.

Steps are being taken for the organiza-  
tion of a Court of the Independent  
Order of Foresters, in the village. A  
meeting will be held in the Odd Fel-  
lows' Hall on Friday evening next,  
when members will be received.

Mr. Murdoch, with his band of Gos-  
pel workers, is conducting services in  
the Methodist Church.

A concert will be held on Tuesday  
evening, May 5th, under the auspices of  
the Guild of St. James' Church.

It is reported that the Literary So-  
ciety in connection with the High School  
will shortly be prorogued. Our teachers  
and pupils, jealous of hours won in the  
past, are evidently settling down to  
hard work for the midsummer examina-  
tions.

Mr. Jno. Cady, of the Victoria  
House, has entered a suit against the  
Corporation for \$500. W. R. Meri-  
deth for plaintiff.

The temperance meeting held on  
Monday evening was well attended, and  
a number of children were initiated  
into the Band of Hope. A spelling  
match was arranged for the next meet-  
ing; Rev. W. J. Taylor and Mr. H. A.  
Wilson acting as captains.

Quite an excitement was caused in  
town Monday afternoon by our Baker  
(not Mr. Tom Evans) who undertook  
to expel a young man from the village  
who had been using rather insulting  
language to Mrs. B. The feat was  
accomplished in about three minutes,  
and the young man vanished down Main  
street in quick time, being assisted  
by Mr. Baker, who brought his boots  
to bear whenever he came within range.

Appin, April 28.—Dr. Mitchell  
is confined to his bed, from malarial  
fever and pneumonia of the right lung.  
Dr. Walker, of Glencoe, the attending  
physician, reports more favorably this  
morning.

Gardening has commenced on all  
sides.

New buildings—W. Holmes is build-  
ing an addition to his furniture factory.  
Walter Melbourne has built a new black-  
smith shop. Hugh McLaren is about  
to erect a large barn. W. May has a  
new residence on the way. Hugh  
Rankin had a stable raising last week.

Birth.—The wife of Walter Mel-  
bourne, of a son.

Albert Mullins, telegraph operator,  
has returned to Appin.

The Salvation Army still hold their  
meetings on Thursday evenings and on  
Sundays afternoons.

Sunday a glacial, of Napier, spent  
Sunday at Appin, and will attend  
Dr. Walker, of Glencoe, till his re-  
covery to Dr. Mitchell's practice.

Birth.—The wife of Walter Mel-  
bourne, of a son.

Do no violence to the liver and general  
system by the repeated doses of mercury in  
the shape of calomel and blue pill. Many per-  
sons have been cured of their liver troubles  
by the use of Shiloh's Catarrh Remedy. The best substitute  
for such pernicious drugs, and the use of which  
is never followed by disagreeable effects upon the  
general health. It is a powerful cathartic, and  
permanently tones the stomach, regulates the  
bowels, purifies the blood, and gives a health-  
ful glow to the cheek.

Well to Remember.

A little time saves more. Serious re-  
sults often follow the use of calomel and blue  
pill. Shiloh's Catarrh Remedy is a powerful  
cathartic, and permanently tones the stomach,  
regulates the bowels, purifies the blood, and  
gives a healthful glow to the cheek.

Poultry and Poultry.

Mr. Hugh J. Black, poultry breeder,  
of Moss, relates some of his experience  
in poultry raising. He says:—For six  
years I kept Buff Cochins and Mon-  
grels. I gave to both kinds the same  
treatment, which was recommended as  
best by reading poultry books, and can  
say that it will not pay to keep them  
for laying. They will lay very good for  
a while, but nothing extra, and are  
better for killing than for anything else.  
I was not satisfied with these large  
breeds in any way, and was forced to  
better myself, and thought I would try  
the Brown Leghorns. I went to Lon-  
don in 1883 and bought seven Leg-  
horns to begin with, they cost me  
\$2.15 each. Some of my neighbors  
said that I was foolish to pay such a  
high price for them; that they would  
not repay me.

This is my experience with the six  
Brown Leghorn hens:—I raised 43  
young Leghorns for feeding, and this  
what it cost me for a year's trial: 4  
bushels of wheat, \$4; 6 bushels of  
oats, \$2.10; 31 bushels of barley, \$2.10;  
25 lbs. of oatmeal, 75c.; 200 lbs. corn-  
meal, \$3; 150 lbs. shorts, \$1.50; Cay-  
enne pepper, 25c.; labor \$8; total  
\$18.70. I sold 18 pairs of birds,  
\$32.70, 35 dozen and 4 eggs for hatch-  
ing, \$52.75; 95 doz. eggs to market,  
\$16.15. The manner in which the  
poultry house was worth \$4; total,  
\$125.40. Dr. to cost of stock, \$15.05;  
cost of advertising, \$10.75; cost of  
eggs for hatching, \$9.25; cost of feed  
and work, \$18.70; total \$53.75. Cr.  
by sales of poultry, \$52.50; by sales of  
eggs, \$98.90; by value of stock on  
hand, \$25, total, \$146.40. Total ex-  
pense, \$53.75; total gain, \$92.65. This  
is the profit from 7 Leghorns which  
cost me \$17.05.

Now for the figures which prove the  
above statement, covering a period be-  
ginning Nov. 1, 1883, and ending Jan.  
1, 1885, just 14 months. I cleared in  
a year \$92.65. The Brown Leghorns  
paid me about as follows: They  
were nice to have on the place, and it  
will pay to keep them. They are few  
if any that compare favorably with  
them in the production of eggs, and as  
they commence to lay when from four  
to five months of age you have not the  
expense of wintering them before they  
begin to settle their own bills. I have  
no hesitation in saying where the Leg-  
horns are once known they will always  
be kept, if for no other reason than  
their abundance of eggs.

Catarrh—A New Treatment.

Perhaps the most extraordinary success  
that has been achieved in modern medi-  
cine has been attained by the Dixon treatment  
for Catarrh. Out of 2,000 patients treated dur-  
ing the past six months, fully ninety per-  
cent have been cured of this chronic malady.  
This is more the least startling when we re-  
member that not five per cent. of patients  
presenting themselves to the regular prac-  
titioner are benefited, while the patent medi-  
cines and other advertised cures have a re-  
cure at all. Starting with the claim now  
generally believed by the most scientific men  
that the disease is due to the presence of  
living parasites in the tissue, Mr. Dixon at  
once adapted his cure to their extermination  
—this accomplished, he claims the Catarrh is  
permanently cured, and the permanency is un-  
questioned, as cures effected by him four  
years ago are cures still. No one else has  
ever attempted to cure Catarrh in this manner  
and no other treatment has ever cured  
Cat
