& Co. Montreal, Que.

"The Advertiser" is an organ of news
and independent
opinion. The ADVERTISER alone is respon-
sible for opinions expressed in these col-
umns.

"The Advertiser" advocates "Confi-
dential Free Trade,
and as early as possible after, free trade
with the whole world. The British trade
model cannot be improved upon.

"The Advertiser" looks forward with
future as that of an Independent Canadian
Nationality, believing that such a status
would be best for Canada, best for Great
Britain, and promotive of the best attain-
able relations with the United States.

"The Advertiser" advocates prohibition
of the manufacture
and sale of intoxicating liquor.

"The Advertiser" is an advocate of
equal rights for
women, whether as regards the franchise,
or equal wages for equal work.

"The Advertiser" is a believer in Chris-
tian Union, and con-
siders the time has come when the various
Christian denominations should come closer
together. Those bodies which are now
nearest should unite first. Under the pres-
ent system there is an unjustifiable waste
of men, means and effort. The ADVERTISER
will endeavor to promote the movement for
Christian union not alone by direct appeal
and argument, but by seeking to present
the best rather than the worst side of each
denomination.

"The Advertiser" advocates obligatory
Voting as both neces-
sary and practicable. Nothing would so
much purify electoral politics. Nothing
would so much enforce the idea that the
franchise is a duty, not a chattel.

God's in His heaven,
All's right with the world.
—BROWNING.

London, Tuesday, May 12.

LIBERAL SUCCESS.

The British Tories are much discouraged
by the result of the bye-elections. In the
motherland, the bye-elections are apt to
give a fair idea of public sentiment, because
attempts at bribery by offering public
works or other questionable means of in-
fluencing public opinion are not tolerated.
The electors divide on great public ques-
tions. In the three contests held last
week, therefore, there was little to bring
sheer to Lord Salisbury and his friends.
The Conservatives carried all three seats in
1886 by majorities ranging from 543 to
1,138, the totals amounting to 2,672. Now
the Liberals have carried two seats by an
aggregate majority of 7,031, and have lost
the third by only 40 votes. The Liberals
are jubilant, and would gladly welcome the
vit-threatened general election, which now
seems to be indefinitely postponed.

A LOSS TO LONDON.

Rev. G. Trotter Carr, late pastor of the
Union Congregational Church, is about to
remove from London. This will be a dis-
tinct loss to the city. Few men have in so
short a time been able to manifest so warm
an interest in the general religious life and
work of the city and few men have been
more thoroughly appreciated by those with
whom he has been more particularly
associated. The many friends of Mr. Carr
will wish him the utmost success wherever
his future lot may be cast. A loss is also
sustained by the city in the departure of
the estimable wife of the retiring clergy-
man, who is also an admirable speaker on
social and religious topics, and who has
been highly appreciated in the circles of the
W. G. T. U. and kindred bodies.

The Pennsylvania Legislature has
passed a compulsory education bill, similar
in its provisions to the Ontario truancy
measure. The bill requires that all chil-
dren between the ages of 8 and 12 years
must attend school at least sixteen weeks
each year.

THE CONFESSIONS OF MR. BROWN.

It is said that the Ottawa authorities
have arranged with Mr. Adam Brown, of
Hamilton, late commissioner to the Jamaica
Exhibition, to take a trip through Canada,
delivering illustrated lectures on the West
Indies, with a view of inciting Canadians
to seek trade with the islands, and par-
ticularly with Jamaica.

No patriotic Canadian will cavil at any
legitimate effort being put forward to ad-
vance the commercial interests of the
country. It is really time that the present
policy were reversed, if it can do no bet-
ter than it is now doing. An Ottawa dis-
patch says that in 1875 the exports of
Canada to the islands were \$4,000,000. That
was when the Liberals were in power. Last
year, under the high-tax policy, the exports
were valued at but \$2,719,000.

Mr. Brown has been interviewed on the
subject, but he tells us little new regarding
the means of extending our markets with
Jamaica. He says that the way to beat
the Yankees in selling flour to the people
of Jamaica is to undersell them in the mar-
ket—to give them as cheap or cheaper and
as good or better breadstuffs than are
now sent by our neighbors. All of
which was known before. Mr. Brown
further says we can take fruit and coffee
from Jamaica as payment if freights are
not too high.

Most wise commissioner!
Then Mr. Brown tells us that though
under no consideration will his friends in
the high tax party admit that Canadians
can hold their own with United States
manufacturers in the markets of the De-
monition, they can send furniture, cottons,
tinware, stoves, plows, clothing, carriages,
and many other articles to the West Indies,
and sell them at a profit alongside of
United States manufacturers—say, in com-
petition with the products of the "pauper
labor" of the old world, about the bene-
ficial effects of which so much used to be
said by the Canadian protectionists!

If Mr. Brown reasons correctly there are
really no "infant industries" in Canada re-
quiring constant "protection" from the Domi-
nion treasury, because if our manufacturers can
send their goods to far-off Jamaica, and sell
them in competition with the world, they
can have nothing to fear from competition
at home with no freights, commissions or
tariffs to combat.

If Mr. Brown will preach as he has re-
cited to the press reporter at Halifax, ap-
parently his proposed missionary tour will
be warmly welcomed by every opponent of
high taxation and combine rule.

THE COLLEGE AND THE FARM.

The sixteenth annual report of the On-
tario Agricultural College and Experiment-
al Farm is a compact volume of 282 pages
containing a complete record of the past
year's work at the above institutions. It is
a compendium of useful facts which the
farmers of Ontario would do well to scan
closely, not only for these facts as bearing
upon their own occupation, but because it
is a public institution the conduct of which
deserves their closest scrutiny. Those
in charge evince a constant desire to
extend its usefulness and to
stimulate, as far as they can, the progress
of agriculture, by influences direct and in-
direct, within and without the college
walls. At the outset President Mills shows
that the abolition of the Easter holidays
some six years ago and adding two weeks
to the Christmas vacation has enabled the
college professors to attend the farmers'
institute meetings without interfering with
their college work. "We went out," he
says, "in January, 1885. We have done so
every winter since, and the beneficial
results have far exceeded our most sanguine
expectations. The work began on a
small scale, but the number of institu-
tutes has increased so rapidly that we
have had to arrange for no less than 90
meetings in January, 1891. The professors
have been benefited by listening to state-
ments of experience made by practical
farmers, and the farmers have been helped
by the enunciation and discussion of the
scientific principles which underlie the best
farm practices. The college has been
strengthened by the increased and ever-
increasing confidence of the farming com-
munity; and the country at large has
been stirred up to a broader, deeper
and more intelligent interest in
the great subject of agriculture."

From these considerations the good sense
of the people would doubtless endorse the
course taken regarding vacations, though
the president intimates that an agitation
and shorten the Christmas vacation a couple
of weeks and conclude the lectures two weeks
earlier in June was started a couple of
years ago and stirred up more recently by
a letter in the newspapers, not by parents
or students, but by one or two others.

The total number of students on the roll
was 146, 75 per cent. of whom are from
Ontario, chiefly representing western coun-
ties, Middlesex sending six. England con-
tributed sixteen students, France two,
India two, and New York, Scotland and
Switzerland one each. The ages of the
pupils ranged from 16 to 29, the average
being 20 years.

From the report of the professor of agri-
culture, Mr. Shaw, it appears that the farm
proper more than paid its way in 1890. The
total net expenditure for maintenance in
all departments in 1890 was \$37,227 94, or
\$1,600 66 less than the sum voted by the
Legislature for that purpose. Many im-
provements continued to be made about the
farm and the war on noxious weeds is still
waged, though a few varieties, especially
Canada thistles, are reported yet more
numerous than they should be on a model
farm. The results of grain testing, feeding,
and numerous other experiments carried
on during the year are given, all of which
will repay study.

The ADVERTISER congratulates the col-
lege on the results of the work of 1890 as
set forth in this report and wishes the in-
stitution continued success.

THE PASSING OF MR. CARLING.

Our city contemporary pretends that the
"personal character" of Mr. Carling is at
stake when the political misdeeds of the
Ottawa Administration is discussed, and it
whinnily accuses the ADVERTISER of
attacking Mr. Carling "personally" when it
holds him jointly responsible for the re-
sults of the high tax policy, as set forth in
Hon. Edward Blake's arraignment, which,
so far, the Free Press has not had the
courage or the fairness to publish.

It is unnecessary to say that the ADVER-
TISER has not attacked Mr. Carling per-
sonally, and that the simulated indignation of
the Free Press—the attempt to manufacture
sympathy for the latest accession to the house
of rot for Parliamentary failures—has no
legitimate foundation. The Free Press pre-
aches a new doctrine when it argues that a
member of a Government shall not share re-
sponsibility for the policy and for the effect
of the policy that he is supposed to have aided
to formulate. It is no secret that not a
few of Mr. Carling's former friends have
now reached the councils of the leaders,
but is a very unkind of the Free Press to
voice that sentiment, even though the
author of the project for reciprocity in
"bananas, oranges and peanuts only" has
been given a life seat in the irresponsible
Senate, and has thereby been placed outside
the pale of much public interest.

IMMIGRATION OF WAIFS.

The Free Press indorses the immigration
of children from the old country work-
houses and from the slums of the large
cities on the other side of the Atlantic. It
is needless to say that this kind of im-
migration has the warmest support of Mr.
Carling. Last year, the Ottawa Govern-
ment paid a bonus for the immigration of
several hundreds of this species, apparently
oblivious of the fact that Canada has
enough and to spare of poor, friendless
children requiring aid from the taxpayers.

PERSONAL AND GENERAL.

—In future each head of cattle shipped
across the Atlantic will be provided with
a space two feet eight inches wide. This is
none too large. Horses can sleep on their
feet, but it is unnatural for cattle to do so,
and if they are cramped and cannot lie
down they suffer. To avoid this the room
provided on steamships must now be not
less than here stated. Mr. Pimlico's agi-
tation has not been altogether a failure.

—The Conservative Government of
Prince Edward Island was defeated the
other day. It had forfeited the confi-
dence of the Province. But already one
or more of its members are applying to be
appointed to the Dominion Senate. They
feel that in losing the regard of the people
they are entitled to the confidence of the
Dominion Conservative leaders, and worthy
of being placed beyond the reach of the
public correcting rod. What a travesty on
representative institutions!

—Our city contemporary accuses the AD-
VERTISER of a journalistic misdeed. It
says the ADVERTISER suppressed a portion
of Mr. Blake's famous manifesto to his con-
stituents. The boot is on the other leg.
It was the Free Press which emulated
Mr. Blake's letter. The ADVERTISER
printed every word of it, being a news-
paper, not an organ. The Free Press failed
to give to its readers all that portion of the
honorable gentleman's letter which reflected
on its political friends. Our contemporary
would not hurt the feelings of the high tax
leaders for a farm.

—The rumor is revived in Ottawa Con-
servative circles that the Hon. J. A. Chap-
leau will be offered a knighthood at an
early day. Mr. Chapleau is believed to
have backed Mr. Tarte, M. P., in
bringing the remarkable charges of
wholesale robbery of the public treasury
against Mr. McGreevy, M. P., and inferen-
tially against Sir Hector Langevin, who is
alleged to have been paid a portion of the
money. Many believe that the proffered
knighthood is intended to placate Mr.
Chapleau and get him to withdraw his
support from Mr. Tarte.

—Steam heat, electric light, a gas range,
a patent refrigerator, high art decoration,
and lace window curtains are among the
baths held out by the proprietors of "flat"
apartments in New York to attract house
hunters. The latest scheme is a good up-
right piano built in the wall of every parlor.
It is rumored that the lessees of piano flats
have not consented to play the "Maiden's
Prayer" and "Annie Rooney" on 48 pianos
at the same time during coming summer
evenings. Consequently there will be no
saving of the expense of a brass band, and
no solution of the problem as to what
possible attraction a piano on every flat can
be.

—Notwithstanding so little has been said
of late on the possibility of flying, we are
assured that the subject of aerial navigation
is really being considered by men of genuine
scientific attainments. Prof. S. P. Langley,
of the Smithsonian Institute at Washing-
ton, one of the most distinguished men of
science in America, recently read a paper
on the subject of flying machines before the
annual meeting of the National Academy of
Sciences, which attracted much attention.
From a series of experiments made by him-
self he reached the conclusion that the
amount of power required for artificial
flight was perfectly attainable by steam
engines we now possess. He thought aerial
navigation would pass out of the sphere of
charlatanism and into the hands of engi-
neers in a short and is inclined to believe
that man will ultimately be able to fly.

Reduced Saloon Ocean Rates.

Passengers for the old country are per-
haps not aware that the Beaver Line and
Dominion Line, sailing from Montreal to
Liverpool, offer the lowest rates from that
port for first cabin passengers; special
discount to the clergy. F. S. CLARK,
agent, 410 Richmond street, next door to
ADVERTISER Office.

NOTHING LIKE IT.

MR. JOAB SCALES, of Toronto, writes: "A short time ago
I was suffering from Kidney Complaint and Dyspepsia,
Sour Stomach and Lame Back; in fact, I was completely
prostrated and suffering intense pain. While in this state a friend
recommended me to try a bottle of Northrop & Lyman's Vege-
table Discovery. I used one bottle, and the permanent manner
in which it has cured and made a new man out of me is such
that I cannot withhold from the proprietors this expression of
my gratitude."

WONDERFUL CURES.

FOR THIRTY YEARS.—Mrs. L. Squire, Ontario Steam Dye
Works, Toronto, says: "For about thirty years I have doctored
for Liver Complaint and Dyspepsia without getting any cure.
I then tried Northrop & Lyman's Vegetable Discovery, and
the benefits I have received from this medicine are such that I
cannot withhold this expression of my gratitude. It acts imme-
diately upon the Liver, and its good effects are noticed at once.
As a Dyspepsia remedy I don't think it can be equalled."

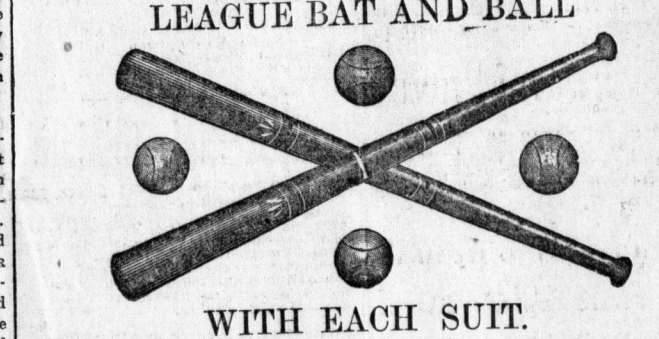

INDISPUTABLE EVIDENCE.

HARDENED AND ENLARGED LIVER.—Mrs. H. Hall,
Navarino, N.Y., writes: "For years I have been troubled
with Liver Complaint. The doctors said my Liver was
hardened and enlarged. I was troubled with Dizziness, Pain in
my Right Shoulder, Constipation, and gradually losing flesh all
the time. All food soured on my stomach, even with the closest
attention to diet. I was under the care of three physicians, but
did not get any relief. A friend sent me a bottle of Northrop &
Lyman's Vegetable Discovery, and it afforded me much pleasure
to inform you that the benefit I have received from it is far beyond
my expectation. I feel better now than I have done for years."

Burns The Clothiers.

FLAX-SEED EMULSION COMPOUND
BRONCHITIS
330 Lexington Ave.
New York City, Sept. 10, 1888.
I have used the Flax-Seed Emulsion in several
cases of Chronic Bronchitis, and the early stages of
Phtisis, and have been well rewarded with results.
JAMES M. CROOK, M.D.

CONSUMPTION
Brooklyn, N.Y., Feb. 16th, 1889.
I have used your Flax-Seed Emulsion as
helpful to the relief and possibly the cure of all Lung
Bronchitis and Nervous Affections, and a good gen-
eral tonic in physical debility.
J. H. DROGE, M.D.

NERVOUS PROSTRATION
Brooklyn, N.Y., Dec. 26th, 1888.
I can strongly recommend Flax-Seed Emulsion as
helpful to the relief and possibly the cure of all Lung
Bronchitis and Nervous Affections, and a good gen-
eral tonic in physical debility.
JOHN F. TALMAGE, M.D.

GENERAL DEBILITY
Brooklyn, N.Y., Oct. 10th, 1888.
I regard Flax-Seed Emulsion as greatly superior to
the Cod Liver Oil Emulsions so generally in use.
D. A. CROTON, M.D.

WASTING DISEASES
New York, Aug. 6, 1888.
I have used your Flax-Seed Emulsion Compound
in a severe case of Malnutrition and the result was
more than hoped for—it was marvelous, and con-
tinuous. I recommend it cheerfully to the profession
and humanity at large.
M. H. GILBERT, M.D.
