It is very important that the pupil learning to extract square roots should comprehend principles instead of "taking twice the trial divisor regarded as tens"—if that is the way of it. About To Go Through.

[Canadian Press.]

Monireal, April 19.—There was a persistent report from Toronto today that the R. and O. deal was nearing completion.

Asked if he had heard anything about it, a director of the Richelieu said: "The interests in the west know where we stand in regard to making the Inland Navigation Company a party to the deal. If it is reported that everything is settled, that means that the western people have come to out terms." R. and O. stock was much stronger this morning, selling up to 1211-2. Later it reacted over a point when weakness hit the general markets.

deacon Richardson, rector, in the chair, Much interest was shown in the proceedings.

After opening prayer, Mr. George Mctomb, vestry clerk, read the minutes of last meeting. The church wardens presented their financial report, showing all expenses paid, and a net balance of \$46.55. The report of St. John's Guild showed a good year; work done—a memorial window to late Archdeacon Marsh had been erected in the church chancel, and other parish improvements made.

The Women's Auxiliary reported their annual contributions to the missionary cause.

The cemetery report showed satisfactory financial results, and a net balance of \$83. The rector reported his pastoral work in church services, bantisms, marriages, burials and other parts for the properties of lacent in the company. The loss by the fire is estimated at \$55,000.
