

THE APPLICANTS ARE MANY
FOR BORDEN PORTFOLIOS

Ames, of Montreal, Seems Assured of Position, Also Messrs.
Forget and Perley.

Ottawa, Oct. 2.—Mr. Borden's cabinet-making is proceeding but slowly, according to the best information available tonight. The Quebec and Ontario representation is giving him the most trouble, and he is being almost hourly visited by aspirants and counsellors from these two provinces. Mr. H. B. Ames arrived on the scene this evening, and was closeted with Mr. Borden for some time. It is stated on good authority that Mr. Ames will likely be one of the Quebec representatives in the cabinet. Mr. Forget is likely to be taken into the cabinet as a member without portfolio, and Mr. Perley may also come in on this basis, since he has intimated that he is not at all anxious to undertake the strain and worry of administering a department.

News from Western Ontario

PRETTY WEDDING IN
LONDON TOWNSHIP

Miss Flossie Edna Beattie Be-
comes the Wife of Mr.
Ernest L. Hodgins.

On Wednesday last the home of Mr. and Mrs. Wm. E. Beattie, on the thirteenth concession of London Township, was the scene of a happy gathering, when their eldest daughter, Flossie Edna, was united in marriage to Ernest Leroy Hodgins, youngest son of Mr. J. R. Hodgins, of the same township. At 4 o'clock, to the strains of the wedding march from "Lohengrin," played by Mrs. John Beattie, the bride entered the parlor leaning on the arm of her father, and was received by the groom standing under an arch of flowers and evergreen. The ceremony was performed by Rev. Dr. Munroe, of London. The bride looked charming in a gown of Duchesse satin, trimmed with Brussels lace, and she wore a tulle veil with orange blossoms, and carried a bouquet of white carnations and ferns. She was assisted by her sister, Miss Lillie Beattie, who wore a gown of pink silk embroidery, and carried pink carnations. The groom was attended by his cousin, Mr. Alfred Hodgins, of London, while the little Misses Minnie and Enid Blake, dressed in blue silk and Valenciennes lace, acted as flower girl and ring-bearer. Following the ceremony, a dainty wedding breakfast was served in the dining-room, which was tastefully decorated with burning flowers. Toasts were proposed to the bride and groom, the latter making a suitable reply. After the breakfast the guests and the bride and groom proceeded to the beautiful lawn, where a number of photographs were taken. The evening was spent in music and social discourse. The bride's bridesmaids were Misses Lillian and Dorchester, as well as the surrounding community. The groom's gift to the bride was a gold chain and locket set with pearls, to the bride's maid, a silver ring; to the bridesmaids, a set of gold cuff-links, and to the flower girls, gold bracelets. The popularity of the bride and groom was shown by the numerous and costly presents received. The happy couple left by auto, amid showers and confetti and good wishes, for London, whence they took the train for Detroit, Chicago and other western cities. The bride's traveling costume was a suit of slate-colored broadcloth and large black picture hat with plumes. On their return Mr. and Mrs. Hodgins will reside at Spring Farm, Southgate, where they will be at home to their many friends after Oct. 15.

STUBBORN INDIANS
JAILED FOR A MONTH

Would Not Tell Sarnia Magistrate
Where They Procured Their
Liquor.

[Special to The Advertiser.]
Sarnia, Oct. 2.—John Joe and Simon Haldiday, two Ojibwa Indians, arrested for fighting on Saturday night, were up in the police court this morning, and each one was sent to jail for one month for refusing to tell where they got the booze.

The regular semi-monthly meeting of the Sarnia Poultry and Pet Stock Association will be held in the Auditorium of the public hall on Tuesday evening, Oct. 3. This association has done great work towards encouraging the keeping of a better class of poultry among the local breeders.

The regular meeting of the Parker Street Epworth League will be held at the home of Mrs. Andrew Miller, Napier street, Tuesday evening. The Choral Society will meet in the town hall on Tuesday evening.

FELL FROM TRUCK

Edward Chapman, of Sarnia Oil Works, Was Very Painfully Injured.

[Special to The Advertiser.]
Sarnia, Oct. 2.—Ed. Chapman, a laborer at the Imperial Oil Works, met with an unfortunate accident while going about his work this morning. Chapman and some fellow workmen were engaged unloading coal from the small trucks when in some manner he fell off a truck to the ground, fracturing his right leg below the knee. He was taken in the ambulance to the General Hospital, where his injuries were attended to by Dr. Hayes. It will likely be some weeks before Chapman will be able to be removed to his home on Essex street.

Mr. W. L. Clark, of Leamington, will hold a series of meetings in the Devine Street Methodist Church commencing Monday, Oct. 15. His topics will be chiefly for boys and young men. Mr. Clark has addressed large audiences in many towns and cities throughout Canada and the United States, and is highly spoken of.

GOT WRONG MAN
WRIGHT'S HAVE
NEW AIR PLAN

Have Invented a Newer and
Better Way of Flying.

MAY ELIMINATE MOTOR
Will Develop Method of Soaring
Against the Wind as Some
Birds Do.

Kitty Hawk, N. C., Oct. 2.—Wilbur and Orville Wright are preparing to conduct a series of aeroplane experiments at this place which are expected to be as revolutionary in effect as the historic trials they made here almost ten years ago. While they are keeping secret the exact nature of the experiments they will make, it is known they believe they have arrived at a solution of the problem how to fly with a minimum of artificial power. In other words, they have elaborated upon the work they originally started here and believe that they can approximately achieve flight with the soaring wing motion of the bird.

This has been the dream of aeroplane inventors ever since artificial flight was first achieved. The Wrights have been studying this problem ever since they began to work on aeroplanes. Their development of the machine they are now producing was simply a step in the evolution of the craft they hope now to perfect.

Real Secret Sought by A.H.
The real secret that they sought was to fly with very little power; to achieve the soaring power of birds. Practically means that man can skim through the air for hours like a gull and make the flight from coast to coast with very few stops.

The Wrights have been studying this problem ever since they began to work on aeroplanes. Their development of the machine they are now producing was simply a step in the evolution of the craft they hope now to perfect.

Learn Wright, one of the four Wright brothers, who seldom appears in the news, is now here erecting a new building on the site where they conducted their experiments years ago. This structure at the foot of the Kill-de-vill Hills will be ready next week.

Development of Tip-Wing.
What the Wrights will attempt to do is the sole topic of conversation about the town. At present an aeroplane flies principally because it is a kite developed to a certain extent, being but a gigantic kite such as any boy flies. It consists of cloth stretched tightly over a framework which is driven by a motor at great speed. The Wrights believe that they can do away with the motor and the propeller, and instead of being dragged through the air on a cord, it depends entirely upon the speed of the motor for its ability to stay aloft.

The Wrights believe that they can do away with the motor and the propeller, and instead of being dragged through the air on a cord, it depends entirely upon the speed of the motor for its ability to stay aloft.

It is known that they are able to do this by reason of the ability to change the position of their wings as a whole as well as parts of their wings, even the feathers. They also have a way of changing the balance that has seemed almost uncanny.

Most illuminating of all is that they fly, but in strong winds. Naturally they fly against the wind, and the method of their locomotion is very much like the way in which a sailing ship travels. They tack back and forth.

It is the purpose of the Wrights to fly their new craft after this fashion in order to minimize the artificial power needed.

MADERO EASY WINNER
IN MEXICAN POLLING

Leader of the Late Revolution
Sweeps the Country.

Mexico City, Oct. 2.—The returns from yesterday's elections, which are coming in slowly today indicate that General Madero has received a practically unanimous vote for the presidency.

No vice-presidential candidate seemingly has a sweeping victory. From claims advanced by the Progressives and the Catholic party it appeared that the race between Plinio Suarez and President DeLaBarra was close, and the belief is strengthened that no candidate will be able to show a clear majority which would throw the election into Congress.

STRIKE AT DUBLIN
BRINGS STARVATION

Bakers Walk Out and Poor of
Irish Capital Suffer.

Dublin, Oct. 2.—The strike of the bakers here is causing starvation. The situation is desperate, as the closing of the small bakeries is causing the poor to starve.

Dress Goods Section—Main Floor.

WHITNEY CONSIDERING
QUESTION OF ELECTION

Ontario Cabinet Meeting to
Decide Matter Tuesday
Afternoon.

Toronto, Oct. 2.—Whether the Province of Ontario is to have another general election or is to escape with half a score of by-elections, will be settled this afternoon by Sir James Whitney and his colleagues.

It is expected that at the close of the cabinet meeting Sir James will make an announcement regarding Hon. Mr. Cochrane's call to Ottawa, as well as the Government decision about by-elections. Should the Government appoint a member of the Legislature to the vacancy in the constituency created by the resignation of Donald Sutherland, elected to the Commons in South Oxford, this, with the vacancy to be caused by the resignation of the Minister of Mines, would make eleven unrepresented constituencies.

LOBO MAN DEAD.
Komoka, Oct. 2.—Thomas Johnson, of the fifth concession of Lobo, is dead at his home here. Deceased was 70 years of age and had been ill only a short time. Besides his wife he is survived by one son and two daughters, Charles, of Winnipeg; Mrs. James Edwards, of Komoka; and Miss Margaret Johnson, of London.

WOODSTOCK'S POPULATION.
Woodstock, Oct. 2.—Figures handed in by D. M. Perry, city assessor, show that during the past year Woodstock's population increased nearly 700, and the assessment over \$40,000. The population at the present time is 16,000.

NA-DRU-CO
LAXATIVES

are new and entirely different from ordinary preparations. They accomplish their purpose without disturbing the rest of the system, and are therefore the ideal laxative for the nursing mother, as they do not affect the child. Compounded like all NA-DRU-CO preparations, by expert chemists. If unsatisfactory we'll gladly return your money. 25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them.

National Drug and Chemical Company of Canada, Limited. Montreal.
