THIN MEN AND WOMEN

Here's a Safe and Easy Way By Which You May Gain 10 Pounds or More of Solid, Healthy, Permanent Flesh,

Thin, nervous, undeveloped men and women everywhere are heard to say. "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of goalty. What is needed is a means of gently urging the assimilative functions print paper. The proposed schedule

urging the assimilative functions of the stomach and intestines to absorb the olls and fats and hand them over to the oils and fats and hand them over to the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh-building elements and to stop the leakage of fats is to try Sargol, the famous flesh-building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal, and see if your cheeks don't quickly fill out and rolls of firm, hea'thy flesh form over your body, covering each bony angle and projecting point. ACID STOMACHS

Common-Sense Advice by a Distin-

guished Specialist. "Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is be eaten with impunity if the meal is followed with a little bisurated magnesia, which can be obtained from any druggist, and should always be kent handy.—Advt.

ARE DANGEROUS Doctor Says Naxated Iron Will Increase Strength of Delicate People 200 Per Cent in Ten Days

rates judgment is handed down.

MRS. PANKHURST ADMITTED.

New York, N. Y.—In a recent discourse Dr. E. Sauer, Specialist, of this city, said: If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack from and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change the food into living tissue, and therefore nothing you eat does you any good, you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run-down, and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night others are sleepy and

walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skinny, and bloodless, but all lack physical power and endurance. In such cases it is worse than foolishness to take stimulating medicines, or narcotic drugs, which only whip up your fagging vital powers for the moment, maybe at the expense of your life later on. No matter what anyone tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated

again, and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were alling all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days time simply by taking iron in the proper form, and this after they had in some coses. and this after they had in some cases been doctoring for months without obtaining any benefit. You can talk its you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put colon your cheeks and good, sound healthy flesh on your bones. It is also a great nerve and stomach strengthen er, and the best blood builder in the world. The only trouble was that the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs, and were not assimilated, and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic Iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth, and is almost immediately beneficial.

NOTE.—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any Charitable Institution if they cannot take any man or woman under sixty who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money in any case in which Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Cairncross & Lawrence and all other druggists.

TEUTONS PEEVED OVER SEIZURE OF CORFU

Attack on the Sovereignty and Neutrality of Greece.

[Canadian Press.] London, Jan. 18 .- The text of the note addressed by the Austro-Hungarian foreign office to American Ambassador Penfield regarding the occupation of

Corfu by the Allies, is as follows, ac-

cording to the German newspapers, says

Reuter's Amsterdam correspondent: "The Island of Corfu has been occu pled by a detachment of the Anglo-French-Oriental army. is not only a serious attack on the sovereignty and neutrality of Greece, but is The auditors were re-elected, with ber 14, 1863, and on March 29, 1864, according to which Corfu enjoys the privilege of perpetual neutrality.

"The Austro-Hungarian Government enters a most resolute protest against this procedure, whereby France

"The Austro-Hungarian foreign office therefore begs the American ambassador to bring this to the knowledge of the governments of France and Great Bri
