From the Mainland.

The steamer Enterprise, Capt. Swanson, arrived at 12 20 o'clock yesterday bringing thirty passengers and \$40,000 in treasure. Among the passengers were Mr. Arthur Fellows, Capt. Flems ing and Mr. Graham. Mr. Graham left William creek on Monday the 12th. At that time rain was falling heavily. Along the waggon road rain also fell. but too late to revive the langu shing props. By telegraph to Yale a day or two ago it was announced that the rain continued for a week throughout Cáriboo. Water was plentiful and prosperity general

CARIBOO MINING INTELLIGENCE. [From the Cariboo Sentinel, July 7th.]

WILLIAM CREEK-The hydraulic companies have been doing very little during the past week. The Flume co cleaned up about 150oz for the week, and the Wilson co 283oz. The Wilson co do not now expect to do much until water becomes plentiful. The Nicholson Bradley co made wages for the week. The San Juan co have not yet cleaned up. The Cornish co cleaned up 41oz for the week, and the California co 20oz: the San Francisco co made wages for the week. Below the Canyon the Barker co took out 116oz for the week, and the Canadian co 30oz. The Caledonia co washed up 96oz for the week. Very lita

STOUT GULCH-The Taffvale company washed up 151cz for the week. and the Coombs co during the last two days of the week washed up 110oz—altogether for the week 114oz. The Floyd co washed up 140oz for the week.

The reports from Conklin guleh, Lowhee, Keithley and Canadian creeks are

GROUSE CREEK-Last week the original Flume co's ground -the 1250 feet allowed after "the war" -was worked out, and only a small quantity of gold taken out during that and the week previous. On Saturday last the aluiceboxes of the Garibaldi co were robbed. Of course it is not known how much gold was taken, but the company had been getting good pay for some time, day sold at auctron by Mr. Franklin for \$800. and the robbers no doubt made a good strike. The Ne'er-do-Weel washed up \$784 for the week.

have been taking out very good pay re-cently. Sievewright & Co are getting arrival of the steamer, presented the hon. genwages working on a high channel. Considerable gold has been taken out of this creek, but the Minnehaha is the first company that has attempted to work the deep ground.

(From the Sentinel of July 10th.) LIGHTNING CREEK-The Dunbar co washed up 150oz for last week; the Lightning co about 30 z.

ANDERSON CREEK-The Wisconsin co washed up 450z for the week. The Warren co bottomed their shaft and struck a prospect of about a dollar to the pan.

NEW PROSPECTS- Harvey creek is now attracting some attention. It is said that an old channel has been found in the right bank, and a few companies are tunnelling to reach it. Some rich deposits have been found in Harvey creek from time to time, formed no doubt by a wash from the channel alluded to. On Keithley creek also a favorable prospect has been obtained by the Cooper co, who got \$46 at the bottom of a shaft just sunk. The aggregate amount of gold now being taken out from the Cariboo mines is comparatively small, but scarcely a month passes away without some new discovery being made, showing that the gold deposits stretch throughout a wide range of coun-

ACCIDENT-On Tuesday last Mr. Beedy and Rev. Mr. Derrick were proceeding to Van Winkle when the tongue of their buggy broke and the horses ran away and upset the vehicle in the canyou dragging the rev. gentleman for about a rod under the buggy, when the horses extricated themselves and the buggy went over the canyon. Mr. Derrick received injuries which confined him to bed for two days, but we unders stand that he will be able to attend to his pastoral duties in Barkerville on Sunday as usual. Mr. Beedy escaped

Letter from Port Townsend.

Port Townsend, W. T., July 19th.
Immediately after the arrival of the Oriflamme on the 16th inst., notices were posted
calling on the citizens of the town to meet
at 1 p. m. of said day at the Cosmopolitan Hotel, for the purpose of taking measures to express in some way the thanks of our citizens for the honor shown us by the distinguished arrival per said steamer of a numer of Hon. Members to our National Congress. Therefore in accordance with the call our citizens met, and the meeting being called to order. Mr. O. F. Gerrieb was chosen Chairman and Mr. T. T. Minor, Secretary.

Whereupon the following besolutions were read and adopted.—

Resolved—That the citizens of Port Towns.

end hereby express their gratification in com-mon with other residents of Paget Sound, at the visit of several members of the National Congress and their friends to our shores, and extend to them a cordial invitation to accept the hospitalities of the town, and to tarry with us as long as their convenience will per-

Resolved-That we respectfully ask the attention of Congress through its Representatives, who have honored us by heir presence here, to the following needs of this Territory, viz:

I. An appropriation for the purchase of a site for the erection of a Custom House thereon, inasmuch as the building which is at present in use for that purpose is neither sate, suitable nor convenient for the transacs tion of the revenue business of the district. and is moreover in its appearance and general condition, a disgrace to the Government.

II. Increased mail facilities throughout the Puget Seard District inasmuch as the present weekly transportation of the mail is insufficient for the requirements of either pubtle gold is being taken out of the other lie or private business, both of which are continually on the increase.

III. Appropriations for facilitating communication between the waters of Puget Sound and the interior by the opening of roads and mail routes, and aiding such rails road enterprises as have already been pros jected or may be projected in the future. IV. An appropriation for the geological survey of the Territory as the best means of

furnishing information in regard to its character and resources.

V. The enactment of a statute by Congress making it compulsory on all vessels beloug-ing to the United States, and all Government officers charged with the expenditure of public monies, to purchase their supplies of whatever nature in our own theory, mereby presenting the enrichment of a foreign nation.

at the expense of of our own.

Resolved—We ask the attention of Congress to the ample measures taken by the English Government for the protection of our neighbors on Vancouver Island by the maintainance at E quimatt near Victoria of several war vessels, and respectfully suggest that a vessel of similar character be stationed in the waters of Puget Sound for the protection of HARVEY CREEK-The Minnebaha co our commerce and public and private property.

Respectfully, W. E. BARNARD, Deputy Collector.

Rowlands' three great preparations for the hair, the complexion, and the teeth, are known in all quarters of the globe. Their famous "Macassar Oil" has been counterfeited in France, Germany, and elsewhere, but none of. the spurious preparations have possessed the extraordinary properties of the genuine article. Rowland's "Kalydor" for the complexion has retained its prominent place among fashionable cosmetics notwithstanding the numerous new articles introduced for the complexion. The "Odonto" for the teeth is highly prized by thousands who have used no other dentifrice for years. Rowlands' great success during the past two generations, and their present promisnent position as manufacturers, may justly be attributed to the excellent character of their articles, and to the fact that unlike many other proprietors of established fame, they do not allow their cosmetics to deteriorate in quality.

The True Medical Doctrine.

Nature when struggling with disease, indicates unmistakably the kind of assistance she requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-luse re eye, the attenuated frame the flaccid muscles, the melancholy visage, inform us as plainly as if each organ had a tongue, that a medicated stimulant is needed. It does not rea quire the aid of a medical education to undere stand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of HOSTETTER'S STOMACH BIT, TERS, a preparation uniting, in their highest excellence the properties of a stimulant, as invigorant and an alterative. Before three days have elapsed, from the taking of the five dose, a beneficial change will be manifest in the sodily and mental condition of the patient. The pulse will be stronger and more regular the eye will begin to lose its dull expression, the muscular and nervous systems to recon ver their tension, and the spirits to improved Persevere and a complete revivification of the depressed animal and mental powers is ceratan. In cases of dyspepsia and biliousness, the same salutary results will be obtained. washed up 2410z on Thursday at noon; The appetite will revive, the sallowness of the The appetite will revive, the series symp-skin disappear, and all the distressing symptoms which accompany disorders of the somach and liver will rapidly subside. The cold of winter often intensifies these come plaints by checking the perspiratory action, andwhichso much morbid matter is evaporas to the dyspeptic and billious at this season.
