Geese.

Rochester, N. Y., Oct. 25.—A strange shooting affray took place two miles south of this city this morning on the Genesse river, in which two men who were hunting for wild geese were shot, one fatally injured. Egybert Chatfield, 25 years old, is the most seriously hurring all his chances for recovery are slight. The other is Edward Loyd, 21 years old, whose chest was filled with bird shot. Early this morning Lloyd and his father heard wild geese and started out in a boat to hunt the game. They drifted down the river, and when 15 feet from the opposite bank, were fired upon by Chatfield, who was lying in the underbrush, awaiting the approaching geese. It was dark and he mistook the boat drifting on the water for a flock of geese. Young Lloyd cried out, "I am shot!" and then fired in the direction of Chatfield, hitting him. Chatfield ran and the elder Lloyd chased him, firing continuously. Chatfield ran at hird of a mile to his home and felt, bleeding and senseless, to the floor. Thence he was sensoved to the hospital. Both men declare the shooting was accidental.

Lloyd was formerly foreman in the ice house near where the shooting took king Carlos leave England a bargain will be arranged.

CARELESS BIOYCLE RIDER. Dr. S. Snyder of Vancouver Knocket Down and Badly Injured.

Vancouver, Oct. 25—(Special.)—A careless bicycle rider riding on the wrong side of the road, colaided with Dr. Snyder and threw him violently on the pavement. Dr. Snyder is an elderly gentleman, and for some time it was thought he would not recover from the shock. Hopes are now entertained, however, of his ultimate recovery. The careless rider after picking up the old gentleman and sitting him on the curb stone, escaped on his wheel and his identity is unknown.

But There Is Still Trouble Over Action of Some of the Operators.

A proposal being made that the Parnells and Mrs. Dickinson could reside in the park at Avondale, Mrs. Dickinson wrote: "As to the condition that many members of the family should be allowed to reside at Avondale should they desire to do so, that is to say, on suffrance, as either caretakers or gate-keepers, all I can say is that I think the family has suffered enough through the nurder of their brother Charles through pecuniary difficulties and through the loss of their ancestral home for the good of the country, without the insult of Avondale being placed at their service on such terms. It is almost incredible that such an insult should be offered the family in return for the services of their brother and the sacrifice of his property and life."

In a letter to the Irish Times, Mrs. Dickinson demands a full accounting from Mr. Redmond, saying his chance of success in the United States would be better, "if he could now say that as regards the funds he collected to redeam the ancestral home of his former leader, he and none-try and life."
