Burgess on Compensation.

small comfort for those who complain of from the necessity of fulfilling his promise Mr. Burgess is opposed to compen- than most stage battles are, but the audi sating the sufferers from sumptuary legislation in either or in of the two lads who did some preliminary any case, and he is at considerable sparring in the early part of the evening pains to give his reasons for the hostility The exchanges were tame, and perhaps that is in him. He does not treat the Mitchell could have done better had he Briefly he regards every man engaged in the traffic as a public enemy, and as such a figure, for most of the reserved chairs at deprived of all claim to practical sympathy the sides were unoocupied. The audience in any misfortune that may befal him was fair and impartial, though everybody through a change of public opinion. He was pleased that the Toronto man held his ignores entirely the higher law which re own so well. He was in much the best quires us to do unto others as we would that they should do unto us. That mod- entiously prepared himself for the occasion. erate men, though unfriendly to the liquor Mitchell puffed like a grampus, but imtraffic, cannot be got to accept this proved as he warmed to his work. There Had this been done by a Chicago paper of proposition, is likely to afford a basis for the satisfactory settlement of a great and perplexing problem. The brochure is not an exposition of the case for and against compensation, but a ready

school of thought. In dealing with Great Britain's abolition of slaveholding Mr. Burgess urges that the lave catchers were not compensated as , county decides to abolish toll gares the Queen's park, for instance, came from it does so because they cost more than they Hamilton. This winter more than any produce, and because it has been found other has there been a constant interchange that there are better roads and cheaper in of hospitalities. A ball or party in either the absence than in the presence of such place is now considered incomplete with obstructions. Nobody's property is de- out a contingent from the other. Th preciated, Where the roads are owned by amateur theatrical organizations play private individuals compensation is always in both places, turn about. Hamilton a feature of any scheme for the removal of ladies are getting into their heads that the gates. It is proposed to expropriate To onto is a good place to do shopping certain properties in the neighborhood of and we trust our ladies reciprocate the Niagara falls for the public benefit, and it opinion in regard to Hamilton. We are is granted at the outset that the common looking more and more o Burlington Beach wealth is bound to grant liberal compen. as a Toronto local resort. What is wanted nation for losses sustained in the general most of all is for Mr. Wragge to commeminterest, one of the objects being to get orate his administration of the Grand rid of the money sharks who now infest Trunk in these parts by giving us fast dol the locality. If the liquor dealer be that lar trains (up a.d down) between the two kind of a shark, as Mr Burgess contend that he is it will be a flight if not impos mediate points. Were the Grand Trunk to get rid of um upon any other do this what is considered to be the best

, of our people favor prohibition. It is a change which cannot be effected for nothing. The only honorable and states. manlike course is to giv . If ct to the will of the people and foot and if the suppression of intemperance will be well spent.

Canadian relations, which we were enabled meets, Lord Granville, amidst some small first of all Canadian journals to publish failures and some blunders, may be found yesterday, appears to have for its main to have achieved an important diplomatic object to show that there is no good reason why this dominion should not grow and more beneficial or acceptable to this counprosper alongside of the great republic. try than one with Italy, and this, it is re-Jucidentally to this another object comes in ported on all hands, Lord Granville has that of drawing more attention to Canada secured." What was only rumored three

He points out where, in various matters, A large share of the credit for this diplo a necessity for friendly co operation be matic success must be given to Mr. Gladtween the two countries exists. For one stone, who, the Spectator says, has "a thing, a sufficient extradition law is ne- permanent bias" in favor of Italy. Let us cessary, in order that criminals of either quote in full our London contemporary's country may not be able to defy the law closing paragraph:

coessary, in order that criminals of either country may not be able to defy the law by simply crossing over to the other Agraement and co-operation are necessary also with regard to the "salvage" of vessels on the lakes, and ought to be easily rached. But most important of all is no settlement of the Atlantic fisheries question, which he leaves to the last, probably for that very reason.

This is by far the most difficult part of the whole subject, and the marquis evidently feels it, for he does not advance much beyond friendly generalities. Yet even this much may count for something, as a start to the farther expression of public opinion on both ides on this question.

Maryland, he says, vigilantly protects her of fisheries from being trespassed upon; were she o slacken her care of them the northern men" sho 11 protect in the nost efficient manner the property northern men" sho ll protect in the most efficient manner the property tey possess in "the harves's of the ses." His argument is, in brief, that imdiscriminate and unregulated fish-

will be a disappointment if the Globe does not tackle the subject to-day. Over the border Mr. Cleveland is the accessful man of the day, but probably he realizes by this time that success as well as defeat has its tria's. It is said that his intended secretary of state (Senator Bayard) and his intended secretary of the treasury (Daniel Manning) are hope essly opposed each other, and will never sit together in the same cabinet. The Tilden influence was what forced Manning upon him, so it is reported. Political gossips in Washing ton are said to be in " a dist essed condition" owing to the impossibility of getting reliable news of what Mr. Cleveland is doing in the way of cabinet making. It is shrewdly suspected, further, that the democratic leaders generally are even more cities with corresponding rates for inter-'distressed' than the correspondents, because of the "onsartainty" as to what their president-elect is going to do about it.

piece of railroad in Canada would be rendered still more profitable, and there would A tenan whose amily was stricken with dip theria in Brooklyn has begun an imbe little reason for appealing to the Ontario portant suit for damages against the owner and Quebec to extend their system from of the house. The plumbing was defective, and the landlord failed to have it repaired West Toronto to Hamilton and the Bridges. after being asked to do so. The diphtheria The London Spectator of the 7th inst. is said to have resulted from that neglect, speaking of what was at the time of writ and damages are sought. If landlords can ing "the rumorod alliance with Italy," be held responsible for such neglect, as takes a very hopeful view of the alliance they should be, there will be less defective aforesaid. "It is quite possible, says plumbing and a correspoding decrease in the Spectator, "that when parliament the death rate. This recalls the case of a gentleman in the C. P. R offices at Mont real, who not very long ago obtained dam ages in a similar action. Also the still success. Hardly any alliance could be more recent case in Toronto, in which Dr. Oliphan got \$750 damages against the corporation for sickness in his family caused by a defective drain. The public expect landlords and corporations to do their duty, weeks ago has since been fully confirmed,

and so do the courts of law, we imagine. Criminal Neglect in Plumbing. Editor World: I reside in a semi-detache house which is supposed to have the advantage of all the modern improvements in plumbing. As prospective tenant, when the house was being built I asked that special care might be taken in laying the drain pipes through the house, and that Portland cement should be used instead of clay. My first discovery after taking possession was that the last length of clay. My first discovery arter taking possession was that the last length of earthenware pipe had lost a portion of the faucet where it connected with the from soil pipe—a trowel full of coarse mortar had been apparently thrown against the so-called joint to make all sound and comso called joint to make all sound and com-fortable. I had this repaired at the time with Portland cement, and thought I had got through my troubles, but on Sunday last I observed a smell of gas in the cellar which seemed to come from the direction of the kitchen sink waste pipe. I sent for a plumber to investigate, with the followof the kitchen size a plumber to investigate, with the follow a plumber to investigate, with the following result: the sink waste pipe, two inching result: the sink waste pipe, two inching results in the four ing result: the sink waste pipe, two in diameter, had been inserted in the four inch earthenware drain, and left without vestige of cement or other substance to keep back the gas, consequently the house drain had been fully ventilated by the area of the best of the size of the size

FINANCE AND TRADE.

dissolved partnership with Frank Sweetnam and John Hazelton, as piano manufacturers, and that said Joeeph F. Rainer, with his son, will continue to manuacture the original coss-scale Pianos, of which the said Joseph F. Rainer is the sole inventor.

Since the above dissolution, Mr. Rainer, sr., has sreatly improved the small Cross-scale Pianoby saiding one string more to each note throughout the middle, making three strings to each note instead of two, thus giving the Piano a third more power of tone throughout the middle. There will be fifty-three notes from the treble down that will have three strings instead of twenty-four notes from the treble down as formerly. The undersigned will give to wholesale and retail customers the benefit of this improvement by letting them have these Pianos for the same price as the ones formerly made with two strings.

These Planos have now been before the public for 23 years, and have always ranked among the very best, and are celebrated for quality of tone, great power and durability of action, prompt elastic touch, fine finish and elegant style of case, combined with every known improvement. Themost complete and unbroken list on record, embracing a period of 30 years, and made up of 28 first prizes, medals and diplomes received at the principal exhibitions in Canada-Montreal, Kingston, Toronto, Hamilton and London. At the Centennial Exhibition in Philadelphia, in 1876, we secured a medal and diploms for our piano. The great favor with which the cross-scale pianos have been received for se long a period, and the reputation they bear, has induced others to initiate them. We therefore caution intending purchasers and dealers wishing to obtain the original cross-scale piano to see that the name of "Rainer & Co." is on each instrument. We make the Upright and Square Grank Planos.
