The hero of "Three Weeks" has committed suicide. Branded as an immoral character and barred from the Intercolonial railway by ministerial decree, the heart of the hero broke.

The desirability of establishing a system of old age pensions in Canada will be further enquired into at this session of the Dominion Parliament by a special committee of the House.

Sixty years ago the widow of Sir John Franklin came to Canada in the vain search for traces of her husband, who was martyred to the northern snows.

Nowadays the term "dime novel" does not designate a book that may be purchased for a dime. It has become a general term for a certain class of trashy books which gives an altogether exaggerated and unreal idea of life.

Newspaper publishers throughout the Dominion are deeply concerned over the proposal of the P. O. Department to raise the rates of postage on the papers mailed from the office of publication.

Lenten Laws

Few people understand why eggs play so important a part in Easter celebrations. The reason is that the medieval law forbade eggs during Lent, and hence, at Easter the hungry medieval populace returned to their favorite dish with rejoicing.

In Elizabeth's time he who ate flesh during Lent was fined three pounds sterling. He who so much as had meat in his house was pilloried or set in the stocks.

A Pittsburg woman says that four years is long enough to live with any man. That is a little above the average among the millionaires in the Smoky City.

NAVAL GUN TELESCOPES.

Device That Made Possible Accurate Long Range Firing.

It was about the year 1885 that the telescope was first tested in conjunction with the firing of a modern gun.

Later, to obviate this defect, the telescope was adjusted to the axis of the gun by a system of parallel arms moving up and down in unison with the gun, though detached from it.

Well, along in the early nineties Henry O. Mustin, a young midshipman at Annapolis, lean faced and square of jaw, built like a medium sized Hercules, quiet mannered, but a bulldog in the football field, interested himself in the study of optics.

One day years later, while stationed in Washington, Mustin called a few of his brother officers to the window near his desk on the second floor of a building in the navy yards.

The glass was unbroken. The one great defect of the telescope sight had been overcome, and Mustin had made possible the long range gunnery of the modern navy.

LONG HAired MEN.

They Caused a Vigorous Protest in Massachusetts in 1649.

The following protest signed by Joseph Endicott, governor; Thomas Dudley, deputy governor; Richard Bellingham, Richard Saltonstall, Increase Nowell, William Hibbins, Thomas Flint, Robert Bridges and Simon Bradstreet was published in Massachusetts in 1649:

"Protest, against wearing long hair, of the governor, etc., of Massachusetts: "Forasmuch as the wearing of long hair, after the manner of Russians and barbarous Indians, has begun to invade New England, contrary to the rule of God's word, which says it is a shame for man to wear long hair, as also the commendable custom generally of all the godly of all our nation, until within these few years:

"We, the magistrates, who have signed this paper, for the shewing of our own innocency in this behalf, do declare and manifest our dislike and detestation against the wearing of such long hair, as against a thing uncivil and unmanly, whereby men do deform themselves and offend sober and modest men and do corrupt godly manners. We do therefore earnestly intreat all the elders of this jurisdiction, as often as they shall see cause, to manifest their zeal against it in their public administrations, and to take care that the members of their respective churches be not defiled therewith: that so, such as prove obstinate, and will not reforme themselves, may have God and man to witness against them. The third month 10th day, 1649."

The Stranger.

A stranger knocked at a man's door and told him of a fortune to be made. "Um!" said the man. "It appears that considerable effort will be involved."

"Oh, yes," said the stranger; "you will pass many sleepless nights and tollsome days!" "Um!" said the man. "And who are you?"

Frenzied Arithmetic.

Three-year-old Amy, who had a very lively little brother, was being put through a lesson in arithmetic by her uncle. She had successfully added one and one, but stuck at two and one.

"Your mamma," said her uncle, "has two children. If she had one more what would that make?" "Oh," cried Amy, "that would make my mamma crazy!" - Woman's Home Companion.

Poor Hans

Old Hans lay dying. His pastor sat by his bedside offering the last consolations. "Alas!" said old Hans, "life is small loss to me. I have never been anything but a poor wretch, bowed down with toil and pain. Where no one else wanted to go, there poor Hans had to go; and when others overturned the cart it was Hans that had to set it up again."

A Scotch minister was asked to pray for rain. He did so, and the rain came down in floods and destroyed the crops.

A man started in theivery business a few days ago, and the first thing he did was to have a sign painted representing himself holding a Missouri mule by the bridle. He was particularly proud of this stroke of business enterprise and asked of his wife: "Is that a good likeness of me?" "Yes," she replied, "a perfect picture of you but who is that fellow holding you by the bridle?"

DREAD OF ASTHMA makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation.

Jos. Grant, a G. T. R. brakeman, residing in Sarnia, was instantly killed at Wyoming at noon Monday. He was wrapping a chain around a broken draw-bar on the way freight, when the train backed up, hurling him under the cars and cutting his body in two.
