

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Flower, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy. If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

NOTE AND COMMENT

Maybe the Belgians wouldn't mind so much if only the war-tax were levied in the form of an income tax.

One good way for Uncle Sam to obliterate his troubles over contraband goods would be for him to unite with the Allies and use his ships in maintaining the integrity of the high seas.

War is costly but when the Allies achieve what they have set out to do, we will not regret the expenditure of mere money.

The latest uneasiness regarding neutrality arose through the report that Canadian troops passed through Maine. While Canadians may admire that State and its forest wealth, they have just as good routes to the Atlantic, all their own.

A German law allows subjects of that country to take the oath of naturalization in a foreign country and hold a mental reservation, thus retaining their former citizenship. The abandonment of honor can take a countless variety of forms.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system.

Watchman-Examiner—The Bible is now printed in 600 languages and dialects, and every year from eight to ten new languages or dialects are added to the list. It is not known how many dialects are spoken on earth, but it is estimated that seven out of every ten of the human population have had provided for them the gospel story in their own tongue.

It is not generally known, but a fact, nevertheless, that a Canadian, born in Nova-Scotia, and whose name is R. D. Bucknam, is the Admiral of the entire Turkish fleet, now at war with the Allies. Bucknam migrated to Turkey during Abdul Hamid's time as Sultan. In the navy, he rose rapidly for distinguished services and as a mark of honor was created by Sultan Abdul Hamid, Bucknam Pasha, and thus war, like politics, makes strange bed fellows.

The Century of Peace

In an editorial commenting regretfully on the necessity of postponing the celebration marking one hundred years of peace between the English speaking nations, the London Times expresses the nation's gratitude to America for material proofs of sympathy and affection and for the work done for victims of the war. The Times says:—

"In all history there has been no work like it. Never before have we received from another people proof so moving of interest and regard. We are not an effusive nation, but the American self-sacrifice and warm kindness have sunk deep into our hearts. If we cannot to-day unite with our American friends in a great peace celebration we can at least bear testimony to the unparalleled munificence of their charity and the good will they are showing to all, but not least to ourselves and our allies."

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

District Seed Growers' Association

Superior seed stocks produced from time to time by Experiment Stations may be multiplied for commerce under the direction of the Canadian Seed Growers' Association. The growing seed crops of members are inspected and reported on generally by officers of Provincial Departments of Agriculture. The cleaned and graded seed which comes up to the standard—no impurities and 95 per cent germination—is inspected and sealed in sacks under registration number by officers in the employ of the Association. But the quantity of registered seed though increasing yearly is yet relatively small, hence the recent organizations of District Associations for Eastern and Western Ontario each under a directorate which includes a prominent grower of each kind of seed crop. These associations have grown out of committees of management of Provincial Seed Exhibitions at Guelph and Ottawa. They aim to assist individuals and organizations concerned in the production, exhibition and sale of high-class farm and garden seeds through educational and advertising movements. Seed shall be sold under guarantee by the grower as to variety, purity and germination. R. W. Wade, Toronto, is Sec'y-Treasurer for Western Ontario and W. H. Smith, Athens, for Eastern Ontario.—Seed Branch, Ottawa.

Formosa's Ancient Tree. In Formosa there is a tree between 2,500 and 3,000 years old, with a circumference of sixty-five feet and the lowest branches forty-five feet from the ground. The tree is a species of cypress, the Japanese benlei.

SINGING BEFORE ROYALTY.

The Part Mary Garden Found to Be the Very Hardest.

Mary Garden, the famous opera singer, says that it bores her to sing before kings. Her highly personal comments on some of the royalty of Europe reproduced below are taken from an article in the American Magazine in which she gives an intimate and extended account of her experiences on the stage:

"Singing before royalty is perhaps more of a professional than a social distinction. I have done it many times, but it bores me to distraction. It is such a nuisance. I never sang for the czar, but I did sing before the English court, the old court of Edward and Alexandra. The king slept through it all, as heavy a sleep as I have ever seen. But the queen would always put his hand at the time to applaud and he would wake up.

"The king of Greece, a brother of Alexandru, was a special friend of mine. He used often to come to where I was singing. He told his sister of his admiration for me, and she had me come to Windsor to sing. While there I would sing and courtesy and walk off again.

"I am afraid I'm an anarchist in my heart. I don't love to courties. There are some who are not kings—such as Marconi, who has done big things—to whom I would go down in my knees because of their achievements, but I just had to get my courage in my two hands to courtesy to the king of England. It went against me."

ADDING MACHINES.

They Are Not New, as Pascal Invented One in the Year 1642.

The adding machine is of modern development, but not a modern invention, a passable one having been invented in 1642 by Pascal (1623-1662), a celebrated French mathematician, philosopher and writer. Later, in 1671, the adding machine was modified to facilitate multiplication by Gottfried Wilhelm Leibnitz, a German mathematician of great achievement, and his invention was followed by many improvements.

A notable experimenter in this line was Charles Babbage (1792-1871), an English mathematician, many years professor of mathematics at Cambridge university. In order to secure accuracy in tables of logarithms he conceived the idea of doing the work by machinery and was commissioned by the British government to superintend the construction of a machine for the purpose. He spent much time and money in experimenting and attained some remarkable results, but died before perfecting his machine.

All calculating machines contain certain features devised by special reference to the work to be done, including circular metallic disks, wheels with teeth, etc., ingenious, but not more complicated and no more responsive to human intelligence than many other machines. The thinking is all done by the operator.—Philadelphia Press.

The Australian Blacks.

It is believed by many persons that the blacks in Australia are dying out. As a matter of fact, says a correspondent of the London Standard, no such thing is happening. The belief, however, is easily explained. As civilization advances, and it is yearly advancing, the blacks recede farther and farther into the back blocks and unknown country, save a few who have acquired the craving for opium or drink. These latter succumb amid the advancing wave of civilization and seldom leave any children. Those who have passed inland, if they do not increase, have certainly not decreased. In some few cases, whole tribes have died out when civilization has reached them, but these have usually been small tribes.

Foundation of a Fortune.

The late William Gibson, who left a fortune of half a million pounds, was, when a little watchmaker in Belfast, one day examining a watch which had been sent to him for repair. It was during the time of the Belfast riots. A stone was thrown through the shop window and hit Mr. Gibson in the eye. Under the malleous damages act Mr. Gibson was awarded £8,000. This was his start in life.—London Sporting Times.

First Thanksgiving Proclamation.

The Thanksgiving proclamation was originated by Francis Bernard, "captain general and governor in chief over his majesty's province of the Massachusetts bay." It was issued Nov. 4, 1777, and the form was that which has been in substance adhered to ever since.

Patriotism and Snow

Patriotism means love of country. Love of country means love of home—love of the city, town or village in which we live. The man who loves his home will take pride in it—be it city, town or village—and will rejoice in helping to keep it neat and tidy, and in helping to make it a pleasant place in which to live.

At this time of year one of the problems of our village is snow—on the sidewalks. Snow that is left lying on the walk

is hard to walk through, and when it thaws, becomes even more of a nuisance. If everyone kept the walk in front of their property shoveled the problem would be simplified. The true patriot will want to do his duty to his Empire, his village his fellow-man. We can't all be Kitcheners, nor Jellicoes. We can't all go to the front and shoulder a rifle. But we can all join the snow-shovel army, and wage war on the snow. Be a true patriot!

HIS HEALTH TERRIBLE

"Fruit-a-tives" Healed Kidneys and Cured

HAGERVILLE, ONT., AUG. 2. "About two years ago, I was in health in a very bad state. My kidneys were not doing their work and I was all run down in condition. The need of some good remedy having been suggested to me, I decided to try them. They did more than satisfy me. Their action was mild and all that could be expected. My kidneys resumed the action after I had taken up dozen boxes, and I regained time vitality. Today, I am the best health I have ever known."

"Fruit-a-tives" is the Kidney Remedy in the world on the bowels and skin as well as the kidneys, and thereby secures any kidney soreness. "Fruit-a-tives" is sold by all druggists, or will be sent on receipt of \$1.00. Fruit-a-tives Limited, Ottawa.

TRAIN TIME TABLE

Table with columns for GOING WEST, GOING EAST, and various train services like Accommodation, Chicago Express, etc.

How He Knew

A travelling sales agent in a large factory, made a bet with a friend that he would pick out a man among the employes. Accordingly, he stationed himself in the door as they came back and mentioned all their names. Heaved to be married, and in case he was right. "How do you do it?" as a friend in amazement. "Oh, it's quite simple," said he, "quite simple. I saw the man wipe their feet on the men don't."

Norman Barron, 19-year-old, Malden township farmer, ally shot and killed Saturday his brother-in-law, Charles Barron, a hunter.
