## Reliable Furniture

Guaranteed Best Quality and backed by the manufacturer.

Buying Furniture is like buying many other manufactured articles—you must be sure that the price is just and reasonable and a guarantee that the quality is just as is represented. You would not think of paying the same price for the cheaper grade of Furniture as for the best quality; nor do you expect to secure the expensive quality at the cheap price.

Our Furniture is all sold on the guarantee that both the quality and the price are right.

## MUCH SUFFERING DUE TO THIN BLOOD

Rich, Red Blood Necessary to Health and Strength.

If more people knew how many ills and pains are caused by thin, watery blood a great deal of suffering would be avoided. Men and women often suffer for long periods from stomach trouble, headache, palpitation of the heart, and nervous complaints such as neuralgia, without suspecting that anaemia or bloodlessness is the cause.

The blood goes to practically every part of the body, carrying oxygen and nourishment. The efficient action of every organ is directly dependent upon the quality of the nourishment it gets from the blood. If the blood is thin it becomes weak in nourishment and health fails. The best way to keep the blood rich and red and thus enjoy good health is through the use of Dr. Williams' Pink Pills. At the first sign of weakness these pills should be taken and good robust health will soon follow. The statement of Mrs. J. J. Murray, Corbetton, Ont., shows the value of Dr. Williams' Pink Pills in cases of this kind. She says:—"A few years ago my daughter, Lillie, was in a very badly run down condition. She was pale, thin, and scarcely able to go about. The least exertion made her heart palpitate so violently that we were actually afraid one of these spells might carry her off. She slept so badly that often she would lie awake until morning. Treatment did not seem to help her and we were almost in despair when a friend advised the use of Dr. Williams' Pink Pills. A few weeks' use of this medicine showed a decided improvement and a further use of the pills fully restored her to health, and she has since been a strong, healthy girl. Some time later I was taken ill myself, being badly run down from household care. A doctor was called in but his medicine did not seem to bring back my strength, and remembering what Dr. Williams' Pink Pills had done for my daughter, I decided to drop the doctor's medicine and try them. The results that followed were like those in my daughter's case, and through the use of the pills I was soon a well woman. I am glad to give my experience in the hope that some other sufferer may find the way to health."

You can procure Dr. Williams' Pink Pills through any dealer in medicine, or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

That the automobile will shortly give place to the airplane as a popular mode of travel is indicated in the fact that the Curtiss Airplane Company recently sold 447 airplanes to an Oklahoma firm of dealers.

## COUNTY COUNCIL NOTES

The County of Lambton expended from January 1st, 1919, to December 31st, 1919, \$116,292.41 on the County Good Roads System, sixty-two per cent of which was spent in replacing bridges and culverts which were considered a menace to the public traffic, according to the second annual report or Superintendent John McCallum presented at the third days session of the County Council.

In commenting on his report, Supt. McCallum stated that the work of replacing the bridges and culverts had cleared the way for more work on the roads. Considerable improvement is needed on the St. Clair river road, which in places will have to be widened, necessitating the purchase of certain lands. The superintendent also stated that the work had been handicapped by material and labor troubles. "We can only secure one class of labor and that is the farmers in their spare time," said Mr. McCallum. You have a 400 mile system, the second largest in the province and a good supply of gravel in the centre of the county but I think you would do better by maintenance than by construction work, and I would suggest that this scheme be carried on for several years. Some roads require construction work or there will be a heavy cost for maintenance within the suburban area, concluded the Superintendent.

Wm. J. Davis introduced the subject of representation pointing out that the Act affecting this as well as other municipalities demanded that the municipality should have a certain number of electors before they could have a deputy reeve. He believed that this should be abolished and that representation should be based on the assessment. J. Sprule opposed any such action, stating that large committees of large councils did not work well together likewise the work of the municipality could be carried on as well by one representative as by two.

A by-law to provide for a monthly audit was given the first reading also a bylaw to raise funds by way of a temporary loan, for the County Good Roads System, until the County rates are collected. A resolution appointing Councillors Smith, Lindsay and Davis as an advisory committee to assist the County Roads Superintendent was adopted. A request from Councillor Morris of Petrolia for financial assistance from the council for the erection of a rest room in that town was referred to the Finance Committee.

W. A. Annett, an ex-Warden of

County who was present at the session was invited within the bar, in a brief address expressed the opinion that the council had designated too many roads as County Roads. The Supervisor has a big task, said Mr. Annett, and I think it would have worked out better if they had been designated gradually. County Roads should be designated to accommodate the greatest number of people. The speaker eulogized the work of Veterans Clerk, John Dalziel.

W. P. McDonald, District Agricultural Representative, read a comprehensive report on the work accomplished by the department in the county during the year, in which he pointed out that the farm labor problem was a distinct problem from all other problems. Fifteen loans were made during the year for establishing returned soldiers on farms in the county, under the Soldier's Settlement Board. The report was adopted.

## Healthy Children Are Happy Children

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, and thus drive out constipation, colic, indigestion; break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Pierreville, Que., writes:—"Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Chief Engineer Gaby, of the Ontario Power Commission, states that substantial relief from the shortage of power will be forthcoming in March. An additional 11,000 horsepower will soon be available, he said, but even with this extra amount a policy of conservation will have to be followed till the spring.
