THE COUNTRY WEEKLY

The Financial Post some weeks ago

The Financial Post some weeks ago had a good word to say for the country weekly paper:

"A rural weekly and small city daily is more of a public institution than a money making enterprise. There are few editors of rural and smaller daily papers who are not underpaid, self-sacrificing public servants. They give more than they get from their communities. Another phase of good work these local papers do is to keep those who go out into the world, to the big centres and to foreign parts, in touch with their foreign parts, in touch with their old homes. This is really a great national service, a good investment for the country. There are few men and women who do not hope to go back to and do something for the old home. If the world treats them wall they want to shere the good old home. If the world treats them well they want to share the good things with the schools, churches and institutions in their old homes. Many of them do. These generous thoughts can be best retained by keeping them constantly in touch with the doings at home. There is only one way—the local newspaper. No matter how busy we are we take time to read that."

THE LATE ISAAC NEWELL

One more of the old settlers of the S.E.R., Warwick, has passed away, in the person of Isaac Newell, in his 84th year. He was born on the 9th concession of Malahide township on June 26th, 1837, and in the year June 26th, 1837, and in the year 1850 came with his parents to Warwick township, where he spent the rest of his days. He was a Fenian Raid veteran, a Conservative in poli-tics and an Anglican in religion. He was made an Orangeman in 1855 and was made an Anglican in religion. He was made an Orangeman in 1855 and at the time of his death was an honorary member of the Order. In 1861 he was married to Nancy Leacock, of Brooke. Besides his wife who survives are two sons and five daughters:—John T., farmer, in Alberta; Isaac H., blacksmith, Watford; Mrs. Warren A. Woolley, Strathroy; Nancy J., registered nurse, Tolcdo, O.; Emma F., of London; L. Ethel, of Strathroy, and M. Victoria, at home. Two sisters also survive, Miss Margaret Newell of Warwick and Mrs. Hasting, of Windsor.

The funeral took place on Wednesday, October 20th, from the family residence, lot 22, cor. 6, to St. James' church cemetary, the Rev. S. P. Irwic conducting the service. The pall bearers were Iraac and Thos. Foster, Isaac Kadey, Isaac Hastings, Thos. Newell and S. McLellan.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers, and making teething easier. Concerning them, Mrs. Saluste Pelletier, St, Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Our Wheat Freids.

At no time in the history of Canada has her wheat fields meant so much to the world as now. Canada pro-duces wheat of the finest grades and in such large quantities as to place the Dominion well up among the wheat-producing countries of the world. Both Federal and Provincial Departments of Agriculture have done their share in improving wheat varieties and extending the growth of this necessary cereal. An interest-ing account of the work that has been done is contained in the May number of the Agricultural Gazette, number of the Agricultural objects, the official organ of the Department of Agriculture at Ottawa. It is there shown that the most widely grown snown that the most widely grown varieties were developed by Canadian scientists. Preston, Stanley, Huron, Bishop, O.A.C. No. 104, Marquis, Ruby, and Prelude have each their valuable factors. The history and characteristics of each are given. The characteristics of each are given. The Seed Branch and the Department assist the Canadian Seed Growers' Association in extending the growth of pedigreed varieties. The Seed Branch itself encourages seed crop competitions and seed fairs, tests seeds for farmers and merchants, inspects seeds on sale, and has, through the Canadian Seed Purchasing Commission, ensured supplies of dependable sion, ensured supplies of dependable seed wheat during recent years.

Monument to Men's Folly. "The run of sockeye salmon in the Fraser river, once the greatest sal-mon river in the world, no longer can be called great," declared J. T. Bab-

cock, Assistant Commissioner of Fisheries for British Columbia, in addressing the Canadian Fisheries Convention in Vancouver. "The Fraser is fished out," he said, "and this condition is a monumental record of man's folly and greed."

The only redeeming feature is that

The only redeeming feature is that it is not too late to take steps to restore the Fraser to its former greatness, he added.

The greatest dam in Canada has recently been finished, impounding the waters of the Jordan river, near Vancouver. It is of concrete construction, nearly 900 feet long, and the total height measuring from the breast to the bottom of the buttress foundations is 126 feet.
