A striking instance of the value of judicious measures and well directed industry wes witnessed at Mira ichi in the year 1-23, when the late Hon. Richard Simonds and James Gilatour E-q were appointed Commissioners of roads for the Parish of New Cistle. Instead of ronning a path parallel to the sinubanks, they selected the best ground at its great bends and took direct courses between hem respectively. Many of the settlers blustered out vehemently against this proceeding, because their cleared lands and houses were left at a short distance from the highway; for at that time reform had not taken roof in this Province. The consequence, however, was that as the monotain sould not come to Mahomet, Mahomet went to the Nov 3 mountain; and to less than three years there were extensive clearings made to the main road, new and comfortable residences created Oct 17 along it, and happy acknowledgments grainitously made for the wise and courageous adoption of means which the peoply's want TEN DAYS LATER FROM LIVERPOOL, AND of foresight could not comprehend. By the accomplishment of this plan, there are cally six courses (saving crossings at the streams) from Newcastle to Henderson's cove, about New York 2nd inst, from Liverpool, whence she eight miles we think; whereas on the Chatsailed on the 27 September, we have received bon ham side of the river, where the same method

road is contorted into one hundred and twenty

eight directions! The capacious mind of Sir Howard Doulas, who came to his government at the same. period, was earnestly bent on adopting an efficacions and economical system for the ing a constant means of communication beiween Head Quarters and the important city of St. John, he determined on having the long mismanaged Nerspis line, made the test of oleon was told that the Bourbons, after their his riews on this subject. His discrimination restoration, had ordered his statue to be re- pitched on Mr. Somends to carry his object moved from its pedestal near the Pont Noire into effect, and how well that esteemed and har to the minds of the people; "Bah !" this arricle.
