

## “Landscape Gardening”

In planting a new lawn or remodelling an old garden it is advisable to secure the services of an expert—one acquainted with the peculiarities of trees, shrubs and plants—to help in grouping and arranging them in the most effective way. The grouping of trees and shrubs should be arranged so that they will produce a harmonious setting that makes the lawn and garden abound in interest and beauty. Let us, who have had over thirty years' experience in handling nursery stock, assist you in your work. We have recently engaged the services of an expert landscape architect (Mr. Max Stolpe), who has had twenty years experience in Germany, Austria, Switzerland and Canada. Mr. Stolpe is qualified to lay out large parks or private estates, new gardens, cemeteries and small garden lots. Consult us about planting plans that will help you to obtain immediate results. We solicit correspondence with all who contemplate any landscape work.
