KERR WATER MOTORS
 1/8 to 20 HORSE POWER.

Noiseless running, require no attention, operated with water at a pressure of 10 pounds and upwards.

Our Motors are sold on their merits. Our prices are low.

Write us. Enquiries solicited and cheerfully answered.

Kerr Water Motor Co.,
 Niagara Falls, Canada.

Original Features

are possessed by this regulator that have paced it far in advance of competition, and have made it the standard for thirteen years.

The Curtis Steam Pressure Regulator

is made entirely of metal, is very simple and sensitive, will invariably effect a great saving in operating expense. Is a lock valve. The purposes to which it may be applied are as various as the wants of steam users. Send for catalogue.
