LITTLE movement or speculation during the week can be noticed. Breadstuffs have become more firm and buoyant, with a fair amount of business at somewhat advanced prices. Grain of most kinds is dull, and for Pease considerably lower rates have been accepted. Provisions since the close of the Commissionariat demand, has been very quiet, and sales of Pork at a considerable decline have latterly taken place. Butter for the time being is quite neglected, though offered at a decline of fully a cent on late rates. Ashes—Pots, though arriving sparingly, continue to decline, owing to unfavorable advices from Britain. Pearls are scarce and command full rates for the American markets.

FLOUR.—The arrivals of the week have been small, giving indications it is thought of failing supplies of Grain in the milling sections of Western Canada, this, added to the combined high rates in the Western States, has caused more firmness and buoyancy here. Little has been done in the higher grades, the extreme prices limiting purchases to the merest retail. A fair amount of business has been done in Supers, some round lots from Western Wheat changing hands at gradually improving prices. We quote \$6.60 to \$6.75 for fair to best samples, outside rate being still the extreme for strong parcels. No. 2 and lower grades have also met a fair demand, but much of what is offered is of very inferior quality, and buyers show much care in what they select. Many samples are found mixed with Pease, Corn, or other foreign substance, and as such will in no case pass inspection; they are most difficult of sale, and when got into use even at comparatively low prices, the complaints from consumers are endless, and some transactions have been cancelled altogether.

BAG FLOUR.—Though the demand has been on a restricted scale, the small receipts have caused prices to rule firm, and for the few parcels of strictly good offered, satisfactory rates have been secured. Much, however, of what has been offered is deficient both in strength and colour, and but for scarcity would be entirely neglected: ruling rates at the close are \$3.55 to \$3.65, and for the choice parcels \$3.70 has in exceptional cases been secured.

OATMEAL.—The better samples meet a fair though more restricted enquiry for export, but inferior qualities are most difficult to quit.

GRAIN.—Wheat continues nominal in the absence of transactions Pease, owing to adverse British advices, are very dull and lower, latest sales afloat being at 84 to 85c. per 60 lbs. Oats are also dull, but without material decline.

PORK is very dull; transactions being of the merest retail. There are no wholesale parcels offering. Stocks are unusually light, and holders are mostly content to await enquiry, as any attempt to press sales would only result in depressing prices, and rendering sales, at present nominal rates, more difficult when the demand again arises.

LARD is dull and drooping; receipts are small, but the local consumption is trifling, and there is at present no shipping demand.

TALLOW is steady at about former rates. Receipts are light, and what comes forward finds ready sale at 9½ to 10c.

BUTTER has again been extremely dull; the Lower Port orders being now about filled for the present, and the city demand amply supplied by the neighboring farmers on the market, stocks are accumulating and prices declining. Shippers to Britain are holding off; as Provisions of all descriptions are declining in the Liverpool and other principal English markets, they hope to see prices fall to a point at which shipments may be made with a margin for profit.

The quality of the Butter, thus far, shows an improvement on last year; and although it is an oft repeated tale, we cannot refrain from urging upon all concerned in the Butter manufacturing and packing of Upper Canada, the absolute necessity of care in handling, so as to produce the best article possible. Such an article, in fact, that will, whatever the state of the market, command a sale at the best price of the day, be it high or low.

ASHES.—Pots have continued to droop throughout the week, owing to unfavorable advices from Britain,

caused, mainly, by the financial panic; even the near prospect of war on the Continent has failed to give any life to the market. Stocks and receipts are both smaller than last year; but it is evident that the demand for our alkalis has materially fallen off, and been supplanted by the muriates and other substitutes which come in at a much cheaper rate. This is especially the case with Inferiors, which are almost unobtainable. Pearls are steady at quotations. Stocks and receipts very light.

HAVANA PRICES CURRENT.

The following is the last (James M. Lawton) Havana Prices Current of Imports, dated 9th June:—

Land, Pr. Refined, in tonnes	100	100

JOHN McCALL & CO'S CIRCULAR.
GLASGOW, Friday, 1st June, 1866.

THE arrivals from abroad in the last three weeks have been liberal, consisting of 3556 qrs. Rye, 2768 qrs. Pease, 3838 qrs. Oats, and 2597 qrs. Indian Corn from Montreal and New York, 1312 qrs. Wheat, and 9750 sacks Flour from France, 4811 qrs. Wheat, 5538 qrs. Barley, 8666 qrs. Oats, and 1477 qrs. Indian Corn from the Adriatic and Mediterranean; and 8071 qrs. Wheat, 1991 qrs. Barley, 2300 qrs. Oats, 1205 qrs. Pease, and 1795 qrs. Beans from the Baltic and Danish Ports; coastwise and by railway, 3935 qrs. Wheat, and 14,651 sacks Flour have come to hand. The weather has been changeable, alternating in genial temperature and cold harsh winds, the latter prevailing. The season is backward, and rain is much wanted for grass and Spring-sown Corn. The activity in the trade noticed in our last has been checked by the stringency in money matters, and the hopes entertained that peace may yet be maintained on the Continent. The price of Wheat has varied little, but buyers latterly have acted very much on the reserve, having previously purchased pretty freely. Indian Corn has met a fair sale of 17s 8d to 17s 6d per 280 lbs., and Pease have declined in price upon diminished demand.

AT THIS DAY'S MARKET the trade was quiet, and the business done in Wheat and Flour was of a merest retail character, at about previous rates. Red American Spring Wheat may be quoted 23s 8d to 24s per 240 lbs. Oats 8d per bushel lower for feeding qualities, Canadian 19s 6d to 19s 9d per 284 lbs. Peas a slow sale at 22s 6d per 280 lbs. Indian Corn in fair demand at 17s 6d per 280 lbs for mixed.
