

AT the beginning of a new year you like to make a few good resolutions and the easier they are to live up to the more eager you are to make them.

Just as a suggestion, why not resolve to use more of the products of the house of Frederick Stearns & Company? Resolve to specify the Stearns Fluid Extracts, Pills, Tablets, Elixirs, Syrups, Specialties and Biologics. This would be a good resolution, one easy to carry out successfully and one which would make you feel at the end of the year that you had actually accomplished something definite in the way of progress and advancement.

Make this resolution now. We will help you to make the resolution a success and a worthy one.
