

Loss of Flesh

is one of the first signs of poor health. Coughs, Colds, Weak Lungs, Diseased Blood follow.

Scott's Emulsion

the Cream of Cod-liver Oil, cures all of these weaknesses. Take it in time to avert illness if you can. Physicians, the world over, endorse it.

THE moral educator must take pains to control and guide the public opinion of the school.—*Sully.*

"WERE the schoolmaster as noisy as a politician, or as visible as an orator, or as charming as an artist in a studio; the public would hasten to crown with laurels at least all those great in this calling; but they live and die in a world where those who lay the mighty foundations of a cathedral are forgotten, compared with those who carve its columns or design its colored glass."—*Prof. David Swing.*

It is obvious that the young woman with fifty-six pupils before her is attempting what no mortal can perform. I suppose it is practicable for one young woman to hear the lessons out of one book of all of fifty children before her during the hours of the school session, and keep a certain amount of watch over the children who are not reciting their lessons, providing the graduating is almost perfect, and we are going to be satisfied with "uniform" results. But the new teaching is of quite a different character. It requires alertness, vitality, and sympathetic enthusiasm.—*President Eliot.*

ST. JACOBS OIL

THE GREAT REMEDY FOR PAIN.

Rushville, Schuyler Co., Ill., U.S.A., Feb. 14, 1889.—"I have been afflicted with dyspepsia over twelve years, and I know I have found nothing that has benefited me like Diamond Vera-Cura. The first few doses relieved me of fullness and soreness of the stomach, and shortness of breath. I was also troubled with palpitation of the heart, which it has relieved, and I feel better in every way since I commenced using Diamond Vera-Cura, and cheerfully recommend it to all suffering from dyspepsia or indigestion." JOHN W. HAYES, Elder Union Baptist Church. At druggists or sent on receipt of price, 25 cents. Address, Canadian Depot, 44 and 46 Lombard St., Toronto.

GENTLEMEN,—Some time since, whilst washing some clothing, my hands became cramped and drawn, so much so as to make me practically helpless.

Doctors spent four weeks on my case without giving me relief, and I was then advised to try the hospital.

I spent five weeks in the hospital, and was worse if anything after leaving there, and in addition was full of bed sores. When I was about giving up in despair a neighbor advised me to use St. Jacobs Oil and gave me a small quantity; it helped me at once, and in one week I was able to use my fingers, and the second week I had taken off bandages. After buying and using three bottles, am back to my work again, although I was unable to do anything for myself, and had been treated by three different doctors.

Gratefully yours,
MRS. L. DIXON,
12 Draper Street.

Practical Problems IN Arithmetic

For First, Second and Third Classes

By JAMES WHITE, Public School Teacher.

EDMONTON, ONT.

This book has been prepared especially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From ALLEN EMBURY, Esq., Inspector, Peel.

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon various subjects in the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that the principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.

SIXTH EDITION

—OF—

Arithmetical Problems

—FOR—

Senior and Entrance Classes in Public Schools,

—BY—

G. H. Armstrong, Principal Niagara Street School, Toronto.

This edition contains nearly 900 Problems. The Entrance Papers for the last twelve years are appended, also the Public School Leaving Examination Paper for 1892. The answers to all the Problems are given. No other work possesses these features. Seventy-five per cent. of the Public Schools of Ontario use it, also several Commercial Colleges.

READ WHAT TEACHERS AND INSPECTORS SAY OF IT:

I am highly pleased with your Arithmetical Problems for Senior classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—Geo. KIRK, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P. S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DEACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. Its strong point, to my idea, is the logical sequence in the problems by which the pupil is almost insensibly led on step by step until he reaches quite a difficult style of question. The printer, too, has done his work very well, and there are but few typographical errors. I shall certainly recommend every teacher in my inspectorate to use a copy.—J. C. MORGAN, M.A., Inspector, Barrie.
