

THE VERDICT FAVORS

Mulford's Concentrated

Antitoxin

Send for our latest Brochure—
"The Present Status of Antitoxin
in Diphtheria."

The recent Collective Investigation of the employment of Antitoxin in diphtheria, made by the American Pediatric Society and the Ohio State Board of Health, both show that

**Mulford's Concentrated
Diphtheria Antitoxin**

is now employed in the largest number of cases and that it yields the highest rate of recoveries.

Mulford's Antitoxin has received the official endorsements of the Provincial Health Boards of Quebec, Ontario, New Brunswick and Nova Scotia, and is exclusively employed by the leading Hospitals in the Dominion.

It is supplied in absolutely aseptic packages. Ask your Druggist for it. Send for recent valuable literature.
