

- (10) permission from the relevant ministry or ministries to use all means of communication officially approved in Gabon, such as transmitter-receivers and telephone and telegraph networks, in accordance with the needs of a specific project and the applicable acts and regulations;
  - (11) reports, records, maps, statistics and other information related to projects and likely to assist Canadian personnel in carrying out their duties, provided that this information is not classified and has no relation to national security;
  - (12) the issuance of a driver's licence by the Gabonese Republic to Canadian personnel and their dependants without the requirement to undergo the normal testing procedure, provided a valid Canadian driver's licence is produced;
  - (13) all other measures within the jurisdiction of the Government of the Gabonese Republic which may facilitate the execution of projects.
- II. The Government of the Gabonese Republic shall provide Canadian personnel and their dependants with medical and dental services at government hospitals. No reimbursement will be made by the Government of the Gabonese Republic if Canadian personnel and their dependants elect to be treated by private practitioners.
- III. The Government of the Gabonese Republic acknowledges that each member of Canadian personnel shall be entitled to a period of local leave of 30 days a year.
