

March 6, 1933.

D.C. Logan, Esq.,  
The Superintendent,  
Protestant Board of School Commissioners,  
McTavish Street,  
M o n t r e a l .

Dear Mr. Logan,

Professor Clarke has made a report to me concerning the very willing help he has received from you and from the Principals and staffs of certain High Schools in providing practice-teaching for graduate students.

May I, on behalf of the University, convey to you, and through you, to your Board, my warm thanks for such kindly assistance? Such practical recognition of common interests in the field of education in Montreal is a great encouragement, and a guarantee of increasing effectiveness in the discharge of the great responsibilities which we share.

I wish to assure you that the University is at all times ready to reciprocate in doing whatever it can to assist your Board in the discharge of its vitally important duties.

Yours faithfully,

Principal.
