

## GOES TO CENTRAL FOR THREE MONTHS

Galt Man, Who Was Caught  
After Chase, Was  
Sentenced.

### LOCAL OPTION ACTION

First Case Under New Regu-  
lations Postponed for  
More Evidence.

Special to The Toronto World.

GALT, Ont., March 23.—Michael Christie, who was chased in an auto by Police Sergeant Birch and handcuffed in the middle of the river after a stiff struggle, pleaded guilty today in the police court to a charge of indecent conduct. He was sentenced to the Central Prison for three months. The magistrate would have ordered his deportation, but the prisoner came to Canada from England two years ago and thus is not liable to expulsion.

#### Local Option Case.

Under local option, Galt gets a supply of wet goods from Preston, but the trade, while permitted to deliver, is not allowed to take orders under a heavy penalty. A driver for a Preston liquor store was proceeded against by the license inspector today for violation of this section of the act, the evidence being the story of a man, recently before the court, who had ordered and paid for a bottle to the distributor. It was the first case of this kind and the crown asked for an adjournment.

#### Rebuilding the Plant.

The Shirley Dietrich Company is rebuilding the portion of their extensive plant recently destroyed by fire, with a loss of two hundred thousand dollars. The board of trade is negotiating with the company with a view to re-establishing larger works, conditional on due assistance from the town. Overtures from other points make some action on the part of Galt imperative.

#### Dr. Shearer Spoke.

Rev. Dr. Shearer of Toronto, secretary of social service and moral reform of the Presbyterian Church, is on a campaign in Galt tonight, following sermons to large congregations Sunday, he addressed a mass meeting in Central Church. He dealt with the duty of the church and all moral agencies to foreign incomers, who, the lecturer declared, in another generation would be first-class Canadians if treated right.

#### SESSION WILL BE LONG.

OTTAWA, March 23.—From present indications there is little likelihood of the present session of parliament concluding before June 1, or at best very late into May. The budget will be brought down next week and is likely to entail lengthy discussion. The opposition is said to be planning a particular onslaught on military expenditures. The N. T. R. debate will probably last a week, and there are many other measures, such as redistribution, the Railway Act, Shipping Act, Cold Storage Act, and other government bills likely to prolong the session.

#### FAVORS CIVIC RAILWAY.

WINDSOR, March 23.—Mayor Clay of Windsor announced that he would take steps immediately to bring about the building of a municipal street railway. He believes that among other advantages it would be the first step in the merger of Walkerville, Sandwich and Ford City with Windsor.

#### ORGANIZING A NEW COMPANY

DUNNVILLE, March 23.—Samuel N. Anson spent several days in Dunnville and vicinity on business connected with his gas interests. Mr. Anson retains leases covering 500 acres of proved territory within a few miles of town, and it is his intention to acquire 200 acres additional. A new company to develop this field is now in process of organization.

#### REMOVING TO TORONTO

DUNNVILLE, March 23.—The Sewage Manufacturing Company, makers of shirts and aprons, is moving this week to Toronto. The industry, which was started in a modest way a few years ago by Charles M. Armstrong, has grown to considerable proportions. Some of the company's operatives are going to Toronto with it.

#### QUARANTINE IS RAISED.

NIAGARA FALLS, Ont., March 23.—Dr. F. W. E. Wilson, Dominion quarantine officer, tonight received instructions from the department of agriculture at Ottawa, to raise the quarantine on unvaccinated Niagara Falls, N.Y., persons entering Canada. The quarantine has been in force for months. The American city now has only two cases of smallpox. There were 127 cases there when the quarantine was declared.

## SPECIAL ELECTION ON QUARRY DEAL

Mayor of Hamilton An-  
nounces Policy of Action  
Vote Next Month.

### BIG BUILDING BOUGHT

Merchants' Bank Has Pur-  
chased Canada Life Build-  
ing at High Figure.

Special to The Toronto World.

HAMILTON, March 23.—It has been practically decided now that the people will be asked to vote as soon as possible on the proposal to spend \$75,000 for a civic quarry at the mountain top. Mayor Allan, who returned to the city on Sunday, announced that this would undoubtedly be the correct action, since the private bill committee of the Ontario Legislature turned down the city's application for the power to acquire the quarry without first submitting a bylaw to the people. He said that in view of this fact the option would most likely be extended so the people can have a chance to vote on the bylaw. The question of submitting a bylaw to the people on a special election in a month's time will be taken up by the board of control Tuesday morning.

#### Allan May Contest Seat.

The announcement that the legislature will be dissolved at the end of the present session and that there will be an election before the end of the present year has set the local politicians on a slip, and they are beginning to make plans for the coming contest. Hon. John S. Hendrie will not be a candidate in West Hamilton, as he will return at the end of present session. It is believed that Mayor Allan will be one of the candidates for Hon. John S. Hendrie seat.

#### City Implicated.

The city was added as a third party to the two gas explosion actions brought by Thomas Stables, 156 Bellview avenue, and John B. Apin, 192 Bellview avenue, against the Ontario Gas and Fuel Co., Ltd. Mr. Stables' \$5000 damages for the injuries received and the damage done as the result of the explosions, which took place about a month ago.

#### For Merchants' Bank.

H. G. Wright, acting manager of the Merchants' Bank, announced this afternoon that his company had completed a deal for the purchase of the Canada Life Building, at the south-west corner of King and James sts. The purchase price was \$225,000. The Canada Life Building is supposed to be one of the finest pieces of architecture in the city. The deal was put into in Toronto today, when the money was paid over.

## TWO ITALIANS ARRESTED ON SERIOUS CHARGE

Men Accused of Trying to Lure  
Belleville Girl to Toronto  
Resort.

BELLEVILLE, March 23.—Alfredo Rezzo, aged 24 years, and Frank Water, aged 26 years, two Italians, are under arrest and remain for one week on a charge of attempting to procure a 17-year-old girl of this city to enter a disorderly resort in Toronto. The accused came to this city a week ago and boarded at a restaurant where the girl in question was working.

#### TO HAVE CADET CORPS.

AYLMER, March 23.—There is to be a cadet corps in connection with the Aylmer High School. The board, after listening to Major McCrimmon, organizer and inspector of cadet corps, London, passed a resolution to effect. The corps will be composed of boys from 12 to 18 years of age, and the enrolment and organization will go on promptly. As there are quite a number of boys in the public school over 12 years, it is thought a part of the corps, or an additional corps, may be raised there if the school board should concur, and to this end Major Walter Brown will confer with them some day next week.

#### NEW TOWNSHIP OPENED.

PORT ARTHUR, March 23.—Sterling is the name of a new township in this vicinity opened today for settlement. There were many applicants at the crown land agents' office under the new Ontario regulations. A settler is permitted to cut all the pine, free of charge, after he has 12 acres of land under cultivation.

#### AMERICANS BUY FARMS.

BLENNHEIM, March 23.—Another American syndicate has entered Harwich Township and is buying farm lands. The land is being bought through the Anglo-American Land Company, and their Canadian buyers, E. Knieser of Tilbury, and Thos. Robinson of Coteauville, have been driving in the township all week interviewing prospective settlers. Tonight they report having taken options on 710 acres. The intention is to sell the land to farmers from the United States.

## JUDGES' SALARIES FOOD FOR DEBATE

Doherty's Double Income Re-  
ferred to by an Opposition  
Critic.

### MINISTER'S DEFENCE

Made Contract With Govern-  
ment When He Accepted  
Position on Bench.

By a Staff Reporter.

OTTAWA, March 23.—The house spent practically all of today's sitting in committee of supply. The salaries and pensions of judges were the principal items under investigation and elicited a prolonged and somewhat rambling discussion. From Quebec and Nova Scotia came a request for increase in judicial salaries. On the other hand Hon. H. R. Emmerson, speaking for New Brunswick, said that litigation had been continuously on the decrease for more than a quarter of a century past and yet nearly every year saw an increase in the number of judges.

There was some discussion as to the salaries of the Ontario county court judges, and Mr. Proulx of Prescott declared that there should be no readjustment of judicial salaries until all fees were abolished. He said the county judge had a good many duties imposed upon him by the legislature but for all these he was paid in fees.

Doherty's Pension.  
Upon a discussion of judges' pensions, Mr. Lanctot (Liberal, Quebec) commented somewhat sarcastically upon Judge Doherty, the minister of justice, being in receipt of his judge's pension in addition to his indemnity as a member and salary as minister. The minister said that in accepting his judgeship some years ago he had made a contract with the government of Canada. His part of the contract had been performed to the letter, but now there seemed to be great objection in some quarters to the government carrying out its part of the contract.

#### CONTRACTORS WILL COMPLY.

KINGSTON, March 23.—The Trades and Labor Council has complained to the department of labor against Fallon Bros., having a government contract to build a causeway, over the wages paid the men. A letter received by the council from the deputy minister of labor says Fallon Bros. have given a promise to adhere to the fair wage scale.

## DR. ALEX. SANGSTER DIED YESTERDAY

Well Known Stouffville Physi-  
cian—Graduate of  
Victoria.

### AFTER LONG ILLNESS

Parents Survive High, Also  
Son and Three Brothers,  
All Doctors.

By a Staff Reporter.

Dr. Alexander Sangster, of Stouffville, died yesterday at his residence after three months' illness. In his fifty-sixth year, he was attacked by Addison's disease just before Christmas, and despite the care and attention of his younger brother, Dr. W. A. Sangster, he gradually lost strength and reached a stage where medical skill was of no avail.

The late doctor was a graduate of Victoria University, where he took his medical degree in 1884, taking up practice in Stouffville immediately after and devoting himself to his work with an enthusiasm which won him a full measure of success and the regard of the residents in the district.

Dr. Sangster, contractor, Leduc, Alberta, Dr. A. B. Sangster, Cheyboygan, Michigan; Dr. Harold Sangster, Calumet, Michigan; Dr. W. A. Sangster, Stouffville, and Miss Elizabeth Sangster, Stouffville. Also of a somewhat retiring disposition, the late Dr. Sangster was a staunch Liberal in politics, and took a keen interest in local and Dominion affairs, although he never sought public office.

#### OBJECT TO DANCING.

WATERLOO, March 23.—Thirteen members of the Twin City Ministerial Association appeared before the park board in reference to withholding licenses to anyone wishing to conduct dances in the Victoria Park Pavilion this summer. Rev. M. H. Sanderson, W. J. Andrew and Dr. Marcus Scott protested strongly against any such license being granted on moral grounds.

#### FARMERS TO CO-OPERATE.

KINGSTON, March 23.—At a mass meeting at Cottam the tobacco growers almost unanimously accepted the terms of membership in the new co-operative association, namely: One dollar per acre, which the speakers thought would be sufficient to finance the project thru the stage of canvass and organization until it became fully established into a chartered institution.

## MUST AID C. N. R. SAYS M'BRIDE

Country Cannot Afford to See  
Great Transcontinental Line  
Jeopardized.

### COST EXCEEDED ESTIMATE.

OTTAWA, March 23.—That the government cannot permit the National Transcontinental or Canadian Northern to be jeopardized, was the emphatic declaration of Sir Richard McBride, premier of British Columbia. "The duty of this country is to see that every reasonable, fair and honest answer is provided that will enable these systems to commence transcontinental transportation on fair and businesslike terms."

"The Canadian Pacific and National Transcontinental lines have already been referred to in the terms of ocean-to-ocean systems and have for the reason invariable been given the status of important main trunk lines. The Canadian Northern, however, has developed from a series of provincial roads into one continuous trans-Canadian organization."

"The system today is said to comprise over 8000 miles of standard gauge lines, with excellent connections in all but two of our provinces. In regard to the section of the road in British Columbia, it is on record that the construction is high-class and ample provision has been made by way of grades and curvatures to undertake the transportation of freight and passengers with safety, economy and expedition. This accomplishment has cost many millions more than was originally estimated. The high price of material, the money stringency, high rates of interest and the necessity of making the line in every way up-to-date is accountable for this."

#### CAN AFFORD OUTLAY.

"It is suggested in the press that it will take some millions of money and the credit of the nation to bring about the consummation that I have outlined. With our marvellously rich Dominion soon to be given opportunity for greater development by these railway lines and the enlargement and settlement of our national ports on the Atlantic and Pacific there is absolutely no question of the soundness of considering assistance to these roads, where the necessity of doing so is shown, or, moreover, of providing the necessary assistance at once."

#### ORANGEMEN SEND RESOLUTION.

FORT WILLIAM, March 21.—Two resolutions, one to Fraternize with the Orangemen of the world, and the other to Sir Edward Carson, were passed by the Fort William Orangemen Saturday.

## CLEMENT SHOULD RETURN MONEY

Supreme Court Dismissed Ap-  
peal of British Columbia  
Judge—No Fraud.

OTTAWA, March 23.—The supreme court gave judgment this morning dismissing the appeal of Mr. Justice W. H. P. Clement, of British Columbia, from the decision of Mr. Justice Cassels, of the exchequer court, finding the appellant guilty of having illegally collected expense accounts thru charging living expenses at Vancouver when his official residence was declared to be elsewhere. The exchequer court found that Mr. Justice Clement should have declared his official residence to be Vancouver, and should not have collected expenses on the ground that he was still domiciled at his original residence. The supreme court this morning dismissed the appeal without costs.

Mr. Justice Cassels, that the money collected by Mr. Justice Clement since 1907, for expense accounts aggregating several thousand dollars should be returned to the crown as sustained.

#### TO HAVE NEW INDUSTRY.

GRAVENHURST, March 23.—Flax Towels, Limited, has just been chartered with a capital of \$100,000, divided into 10,000 of 2 per cent. preference shares and 10,000 shares of common stock, the shares being \$5 each. This company has been organized to put up a plant in Gravenhurst for the purpose of manufacturing towels from flax straw. Later a linseed oil mill will be constructed, as well as an additional plant to manufacture other fabrics.

#### DR. SINCLAIR DEAD.

BRANTFORD, March 23.—The death took place at Brantford last night of Dr. A. J. Sinclair, one of the best known medical men in western Ontario. Dr. Sinclair was born near St. Thomas and was educated at the grammar school there, later taking up medicine. For 25 years he was the Grand Trunk surgeon at Paris, and he was also for some years medical attendant of the Ontario School for the Blind at Brantford.
