Fell on Rumors After Alternate Rises.

COPPERS BIG FEATURE

ments Showing Strength, But Later Reacting.

NEW YORK, Nov. 15.—A succession of declines and fitful rallies marked the course of today's irregular market, in which the familiar speculative tactics of recent weeks were again conspicuous. The first decline followed a moderately strong opening, the second occurred at midday on rumors of another marine disaster in the European war zone and the third and most effective came in the last hour, largely obliterating all gains. Final prices showed some improvement, mainly on the continued strength of the metal group.

rice of the refined metal to 18 3-4c pound. Anaccada rose 3-8c to the ew record of 99 3-4 and Utah also

Smelting was subject to American Smelting was subject to realizing sales on its recent uprush.

Most Erratic of War Shares.

Studebaker was the most erratic of the war shares, opening at an advance of 7 points to 170, which was soon canceled. Later it regained much of its decline, only to fall lower than before. Other automobile issues, especially Willys-Overland and General Motors, rose and fell in similar man-

canceled. Later it regained much of its decline, only to fall lower than before. Other automobile issues, especially Willys-Overland and General Motors, rose and fell in similar manner and the same uneven tendency was shared by minor industrial and equipment stocks.

U. S. Steel was under steady pressure after its initial fractional rise, declining from 87 7-8 to 86 3-4 and closing at 87. Bethlehem Steel was sluggien, closing at 445 1-8, up 1 1-8. Rails were prominent in the early dealings, chiefly because of the activity in Eric, Rock Island, Missouri Pacific and Denver and Rio Grande issues at temporary advances of 1 to 3 points. Canadian Pacific, Chicago, Northwestern and Northern Pacific were among the few elements of strength in the representative class, 146 these also lost much of their addition wheat was the strongest ever known.

Selling on account of the increase in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States visible supply total led at one time to a decided bear-in the United States sues at temporary advances of 1 to 3 points. Canadian Pacific, Chicago, Northwestern and Northern Pacific were among the few elements of strength in the representative class, the these also lost much of their advantage in the later dealings. Total sales amounted to 795,000 shares.

London continued its offerings of our stocks and bonds, mergantile marings stocks and bonds, mergantile marings issues, which were very strong forming a large part of the foreign selling. Total sales of bonds. \$6,020,000.

IN DOMESTIC STOCKS

Steel and Radiation, Russell and Foundry Shares Have Good Advances-Others Firm.

The Toronto stock market continued in fairly buoyant attitude yesterday, some of the listed and unlisted issues making new high records. Interest in the local market is widening and much more activity would occur but for the restraint exercised by the banks. Considerable funds are still required for the crop inovement and until this is out of the way no particular assistance will be available for the stock market. Steal and Radiation and the Russell Motor issues and Dominion Foundry scored the buggest advances, the buying in each instance coming from inspired sources. Steel stocks were dull, with Steel Corporation the firmest issue at 51, an advance of a point from Saturday. Steamships, Cement and Ames were somewhat neglected and allowed to sag. The market had a good tone thruout, but the older stocks showed a restraint not quite understood.

FEW WAR SPECIALTIES HIGHER AT MONTREAL

Canadian Stocks Got Under Sagging Market in New New York.

MONTREAL, Nov. 15 .- Local stocks MONTREAL, Nov. 15.—Local stocks today were under the restraining influence of a sagging market in New York, and business was quiet and generally featureless, except for strength of undertone. Exceptions to this were provided by a few specialities. Ames-Holden preferred rose 5½, to 66, a new high for the year, and finished at 65. Canadian Locomotive, under a late demand in the afternoon, rose 3½, to 57½, and finished at the best. Canada Foundries continued more or less a market mystery, passing its previous high record by 10 points, and closing only two below the best, at 163, with a net gain of 12½ for the day. Only 200-odd shares of the stock changed hands.

Among market leaders, the chief ac-Among market leaders, the chief activity centred in seel stocks. Iron rose 1, to 51, and finished ½ up for the day. Scotia closed 99¼, or ¼ up, after selling at 99½. Steel of Canada reacted about 1¼, and finished ¼ lower on the day, at 44. Among other munition stocks, changes were small and irregular.

Total buzzress, 8455 shares, \$3000 bonds.

STEEL AND RADIATION CO. GOOD FINANCIAL STANDING

The strength in Steel and Radiation stock is due to a recognition of the company's splendid commercial undertaking. A recent sale of bonds in New York has put the company in excellent financial shape and the company does not now owe one dollar. The plant employed in making shells is of the most modern type, is working night and day, and another large order is expected to be awarded this week which will engage another of the company's plants. The demand for Steel and Radiation stock is mainly coming from New York, where they expect the price to cross par before the end of the year.

LIVERPOOL MARKETS.

LIVERPOOL, Nov. 15.—Closing—Wheat the quiet: No. 2 Manitoba, 11s 5½d; No. 3 Manitoba, 11s 4½d; No. 2 hard winter, old, 12s 4d; No. 2 Chicago, new, 11s 2d. Corn—Spot quiet; La Plata, 8s. Flour—Winter patents, 41s 6d. Hops—In London (Pacific Coast), £4

New York Stock Exchange Upward Influence Imparted by Rumors of Shortage in Europe.

BIG MILLING DEMAND

C. P. R. Among Railway Ele- Selling of Deferred Options at Winnipeg Has Strengthening Influence.

> buying future deliveries had a bullish influence today on wheat. The market closed nervous, but 1c to 11-8c net higher, with December at \$1.06 1-8 and May at \$1.07 1-2. Other leading staples all showed a loss, corn a shade to 3-8c, oats 1-8c to 1-4c and provisions 7 1-2c to 25c.

Altho some hesitation was evident at the outset in wheat, the market quickly began to display a definite leading adverse to the bears. Continued shrinkage of stocks in Great Britain was reported and predictions were received from there that liberal buying would be done to provide for winter requirements. European purchasing of deferred options here and at Winnipeg appeared, therefore, rather significant, especially as foreigners were said to be urgently in quest of flour. Minneapolis reported in this connection that the country milling demand for wheat was the strongest ever known.

Selling on account of the increase all in the United States visible supply total led at one time to a decided bearty ish reaction of the wheat market. The fact that the enlargement of the total was not so preneumed as had leading adverse to the bears. Con-

Porcupines-

STANDARD EXCHANGE.

... ...

-Porcupines Firm.

Yesterday's local mining market was strong in almost every department. Anyother small advance in the price of silver was helpful, but in addition to this there was an increased buying demand and stocks were notably scarce in many instances. McKinley made a rapid rise of ten points to 40. Peterson Lake was in demand from New York and the price rose to 24½. Beaver, Chambers-Ferland, Coniagas and Timiskaming was the most active stock in the market. This issue is expected to lead the market for the present. Adanac, which adjoins the Timiskaming, was higher at 20, and an important strike on the property is looked for at any moment. In the Porcupines, Dome Extension was active and strong at 28½. McIntyre was also in good demand at 58. The whole market had a good appearance at the close and promised higher prices at future sessions.

ADANAC STRIKE FORECASTS INCOMING OF SILVER ORE

Reports from the Adanac Silver Mines yesterday were that in sinking a winze on the 200-foot level the vein has widened out to from six to eight inches and contains cobalt, nicolite and native silver. This is undoubtedly the top of an ore shute, and it is expected that high-grade ore will be broken into within a few feet.

LONDON STOCK MARKET.

LONDON, Nov. 15.—Money and dis-ount rates were firm today. Treasury this were in demand at the Bank of England. American exchange was steady at 4.66%. on the stock exchange. A big business was done in low and high-priced shares at advancing prices, in sympathy with the rise in the raw material. In other directions the market was quiet and cheerful. Japanese bonds and home rails were firm. American securities were quietly steady

and a moderate business was transacted. Large sales of American bonds were probably due to reports that the banks are advising clients to sell in order to assist the exchange situation, and the adverse

THE PARIS BOURSE.
