IN FRONTENAC COUNTY

Kingston, Dec. 21.-(Special.)-S. A.

Fruscott, inspector, says there is a

dearth of teachers in Frontenac county. He has been besieged with ap-

**DEARTH OF TEACHERS** 

Chicago, Dec. 20.—Weakness that haracterized the corn imarket today was due principally to liberal receipts here. The close was heavy, Ic to 2% and May \$1.35%. Oats finished at de-dines of %c to 2%c, and provisions un-changed to 15c down. The early advance came about a statement hitle display of strength near the prening. The early advance came about as a result of sharp upturns in British exchange and owing to a statement which the secretary of the treasury had made in regard to credits for Europe. Buying, however, lacked force and there were signs cf a somewhat general dis-position to anticipate the arrival of more hen expected. Besides, the receipts in the cago for the week were 700,000 bush-els in excess of the shipments. In ad-dition, favorable weather for railroad peration was looked for, and it was indicated that the visible supply total would show a fair increase on Monday, amany delivery was the most depressed or any. **AUDACIOUS ROBBERS** Oats went lower with corn. Both do-mestic and seaboard demand was slow.-Provisions were weakened by the breaks in the value of grain. Strength in the hog market and in sterling was thus more than counterbalanced. **MURDER YOUNG MAID** 

Daring Daylight Robbery-

MONTREAL PRODUCE MARKET.

Montreal, Dec. 21.—There is little im-rovement and little business in the local rain market and no change in the flour grain market and no change in the flour situation. Millfeed prices are extremely firm and rolled oats are strong. There is nothing new to report in the baled hay situation. The feature of the week in the egg market was the 20c increase in the price for fresh eggs. The potato market was firm and business was re-ported fair in the butter market. There is nothing new to report in the situation in cheese. Oats-Extra No. 1 feet, \$1.03%.

stolen.

**BANK OF COMMERCE** Annual Report Shows Institu-

## tion Has Given Industry Generous Aid.

Judging by the annual statement for the fiscal year ending November, 1919, the third year in the second half-century which marks the career of the Canadian Commerce has been one of ex-in business, enhancement in and general increase in financial Bank of Con ofits, and ge

profits, and general increase in linancial strength. « If there is one particularly outstand-ing feature in respect to the Canadian Bank of Commerce, it is its close rela-tionship to the industrial and commer-cial institutions of the Dominion, and it has undoubtedly done more in assist-ing in their development than any other bank in the Dominion. That there has, during the past year, been a further strengthening of this relationship is evi-dent from the increase which has taken place during the year in the item of Directors of Tucketts Tobacco have inaugurated dividends on the com-mon stock at the rate of 4 per cent. per ennum. The first one per cent. pay-ment is to be made Jan. 15 to stock of record Dec. 31. The regular quarterly dividend of 1% per cent. on the preferred shares has also been declared, payable similarly.

strengthening of this relationship is evi-dent from the increase which has taken place during the year in the item of commercial loans, the amount standing to the credit of this item in the report just issued showing an appreciation of \$20,837,504, the total figures being \$235,-127,400, compared with \$217,289,936 in 1018, and \$164,668,158 in 1917. Forty Million Gain in Deposits. In total deposits, there was even a more remarkable increase, the amount on deposit being \$333,605,156, or an in-crease over 1918 of \$40,446,339. As the amount stood at \$276,425,654 in 1917; it follows that in the two years there has been an increase of \$117,179,502. Evi-dently the confidence of the public in the Canadian Bank of Commerce is a waxing, and not waning, quality. While in banking practice it is becom-ing increasingly difficult, owing to the greater service which the banks are ren-dering the public without remuneration, to maintain the former ratio of profits to the amount of capital invested, yet, the Bank of Commerce has, during the past year, made a new record in re-spect to net profits, the sum credited to this item being \$3,074,892, an increase of \$224,574, or 7.9 per cent., in excess of 1918. Two years ago the net was \$2,-But the bank, under the careful and New York, Dec. 20.—Total disburse-ments by banking and stock brokerago firms in the financial district for salary bonuses during the past year, including Christmas gifts, were estimated today at \$25,000,000. It is estimated that 100 banks and trust companies will, distri-bute from twenty to sixty per cent. in salary bonuses for the year. Between 300 and 500 stock exchange firms and other dealers in stocks and securities also have made liberal allotments to their employes. The average gratuity of these institutions in the course of the year is said to be 50 per cent., including the Christmas bonus.

637.555

1918. Two years ago the net was \$2.-637,655. But the bank, under the careful and efficient management for which it is noted, has, during the year, strength-ened its general financial position, as well as increased its business and its profits. Its total assets, for instance, appreciated in value to the extent of \$39,333,502, the total standing at \$479,-644,205, compared with \$440,310,703 m 1918, and \$344,375,232 two years ago. There was also a substantial gain in the value of quick assets, the total, at \$219,-911,724, being in excess of 1918 by \$16,-982,742, and of 1917 by \$52,574,782. A still further favorable feature in respect to these quick or liquid assets is that they are equal to 49,11 per cent. of the bank's liabilities to the public, a pro-portion that should be satisfactory to the latter, as well as gratifying to the management. The police found that the girl had been beaten with a coffee percolator and a metal towel roller. The burg-lars ransacked the house, which was expensively furnished, but Mrs. Clark management.

Increase in Specie

Increase in Specie. An increase of \$1,390,438 in the bank's holdings of special and Dominion notes is also from a financial standpoint a matter for congratulation, the amount credited to this item being \$63,361,602. In the two-year period the increase in this item is \$8,709,355. Inflation of note circulation is a phase of banking against which the Canadian Bank of Commerce has always sets its face. The decline, therefore, of \$1,536,035 in this branch of its activities may be taken as an evidence of the manage-ment's conservatism in this respect. The amount standing to the credit of this item in the statement just issued is \$30,047,659, compared with \$31,583,694 at the close of the previous fiscal year. And last, but not least, among the many evidences of the financial strength of the Canadian Bank of Commerce is the "fifty-fifty" relationship of its rest account to its paid-up capital, each standing, as a result of the increase in the former e ware never at \$15,000,000

plications from rural school boards for teachers and is unable to supply the demand. Teachers are dropping out of the profession owing to the standing, as a result of the increase the former a year ago, at \$15,000,000.

CENTRAL CANADA CHANGES.

NEW YORK CURB **ACTIVITY SHOWN** New York, Dec. 19.—There was a strong undertone to today's trading, notwithstanding the fact that many of the professional traders, as is their cus-tom, evened up on their commitments, as they do not as a rule like to carry stock over Sunday. International Pe-troleum sold up to 66, a new record price. It is understood that the com-pany will shortly offer important rights to stockholders to subscribe to treasury stock at a very much lower price than prevailing quotations. Sins Pete continued its upward move-ment and sold at 66, which is a new high recorded price. United Retail Candy advanced to above the 18 mark. United Profit Sharing and U. S. Steam-ship were steady, while General Asphalt held firm. **BY STEEL STOCKS** Quebec Railway is Another Leading Issue in Montreal Market.

# Montreal, Dec. 21 .- The most active

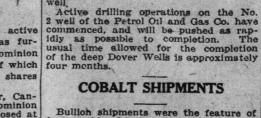

rading in Saturday's session was furished by Steel of Canada, Dominion Steel and Quebec Railway, each of which furnished better than a thousand shares

furnished better than a thousand shares to the trading. The steel stocks were irregular, Can-adian easing a fraction and Dominion firming a fraction. The latter closed at 73½ and the former at 85½. Quebec Railway opened at 30, the high price for the year, and eased to 29¼, with the close at 29½, a net loss of a fraction. Among the stronger issues were Tookes, Tucketts, Wayagamack, Bell Telephone, MacDonald, Asbestos, Smelt-ers and Brazilian, Tookes gaining 3½ points, Wayagamack 1½, Bell Telephone 1 and the rest a fraction. The prominently weaker issues in-cluded St. Lawrence Flour, off 1½ points to 145; Canners, off 1 point to 59; Cement, off 2½ points to 101; Brompton, off one point to 84. The bond list was irregular. Car sixes lost one point at 90; the 1922 Vic-tory Bonds gained 1 point at 99% and the 1937 gained % at 103%. Cedar Rap-ids 5's and Canners 6's lost 1 per cent. each.

each. Total trading-Listed, 10,667; bonds, \$141,050; unlisted, 630; rights, 90.

MONTREAL TELEGRAPH DIVIDEND.

The regular quarterly dividend of 2 per cent. has been declared on Montreal per cent. has been declared on Montry Telegraph shares, payable Jan. 15 stock of record Dec. 31.

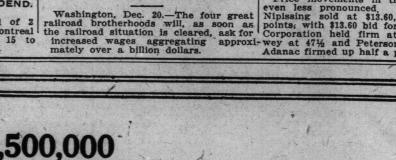

PETROL OIL EQUIPPED

Bullion shipments were the feature of last week's shipping list from Cobalt, according to official information re-ceived Saturday by Hamilton B. Wills over his private wire from Cobalt, with Nipissing the leader by despatching 152 bars containing 200,366.13 fine ounces of silver, which at today's market for the white metal is worth about \$266,500. Mining Corporation was the other bul-lion shipper with 70 bars weighing 60,-908.96 ounces, or a total for the week of 270,275.09 ounces of silver worth ap-proximately \$310,000. O'Brien was the lone shipper of ore, and is represented on the list with 64,020 pounds. preliminary period Stocks lay hardly
