MINING ON THE LOWER SEINE.

Toronto, Standard and Montreal

Mining Exchanges-Good Strike

Ontario and British Columbia should cer-

tainly take advantage of the opportunity

for a free advertisement at the Greater Britain Mining Exhibit to be held at Earl's

ontario minerals in the Mining Exhibition to be held at Earl's Court, and your co-operation in securing samples and specimens for the exhibit is solicited. Col. Hillyer in writing about the matter says: "I have saken space in a most favored spot, and m certain it will be the biggest kind of a card for Western Ontario. It is what they call a Greater Britain exhibit and every colony but Canada is exhibiting. All London is wondering why Canada is not in it. It looks as if we had nothing to show, but we have and I am going to let them see it. I am certain we can beat the best, if the people of Western Ontario will help us. The Exhibition will last five months. The Canadian Pacific Railway has granted special rates for the transportation of ores for the Exhibition, and shipping directions will be furnished you later. The Exhibition opens this month and will last five months, thus allowing sufficient time to gather the material for a magnificent display, if the people interested in the development of Western Ontario are energetic.

We would suggest that you call the attention of the people in your community to this matter and have committees appointed to gather specimens and arrange them for shipment. To insure full credit for each mine represented, each sample should be carefully labeled, giving name of district, name of mine, width of vein, depth of shaft and any other information that may make the specimen of interest.

We would also suggest that appropriate signs be printed to accompany the exhibit of each mining section, and that duplicate photographs of scenery and mines be sent with the exhibit. (Signed) American-Canadan Gold Mining Company, by George H. Hillyer.

ig Street West

orders at once, to insure a

uistance of about 225 feet from its mouth and having a depth of 150 feet from the surface.

All of these workings show a heavy iron sulphide ore, carrying gold, silver and copper. The two first-mentioned shafts and the various open cuts carry ayerage values of about \$6 per ton gold, one to three per tent. copper, and about three ounces in silver. The 102-foot shaft shows ore averaging \$21 per ton gold, about 1½ per cent. copper and three ounces silver per ton. These averages are taken from some sixth sassays of general samples taken from the lop to the bottom of the shaft. This shaft shows ore through its entire extent down to a depth of 75 feet, when the ore body dips out of the shaft. Above the 75-foot point the ore is seen on every side, and has an unknown width, and extent. Owing to the fact that the shaft is vertical, and that the vein dips at an angle of about 70 degrees from the horizontal, the shaft is to a certain extent a cross-cut, and shows a vein width of at least 25 feet. The cross-cut tunnel, which cuts the vein at a distance of about 250 feet from its mouth, has, according to last report, penetrated the vein for a distance of 15 feet, showing a solid body of ore ranging from \$18 to \$20 in gold and two to three per cent. copper per ton.

The company owes nothing, has about \$30000 in the treasury in cash and 120,000 shares of treasury stock yet unsold.

Strike on the Cariboo.

Strike on the Cariboo.

Mr. McAuley, a brother of G. B. McAuley, managing director of the Cariboo (McKinney) mine, is in town, and Mr. H.

M. Pellatt, vice-president of the company, will reach here to-day. An especially rich strike is said to have been made on the B00-foot level of the mine. The stock was in demand yesterday afternoon.

Northern Belle.

Editor World: As a reader ask you.

ley, managing director of the Cariboo (hicklinney) mine, is in town, and Mr. H. M. Pellait, vice-president of the company, will reach here to-day. An especially rich strike is said to have been made on the 800-foot level of the mine. The stock was in demand yesterday afternoon.

Northern Belle.

Editor World: As a reader of your valuable journal, with many other readers here, I ask you to kindly enlighten us as to what is being done with the Northern Belle mine. Is the mine being developed? And why is the stock selling at the ridiculously low figure of 2½ cents?

Meaford, May 5.

Work has been stopped some time on the Northern Belle, owing to lack of funds. The World is given to understand that there is some money in the treasury, but not enough to go on with. However, interest in the property is to be revived. A movement is now on foot for the reorganization of the company within a few weeks, and on the strength of this proposed remodelling of the company some people are already buying in the stock. The World head yesterday of some 50,000 shares being bought by Toronto parties from Spokane, Wash.

Mining on the Seine River.

Duluth, May 4.—(Special.)—Reports

Mine Centre. Out

Mining on the Seine River.

Duluth, May 4.—(Special.)—Reports from Mine Centre, Ont., state that while it is almost impossible to get in and out from there, still there have been a great many people coming to that section during the past two or three weeks. It is expected that navigation will be open about the middle of May, and the boats will be running from Tower, Minn., also from Rat Portage.

Development work at the Golden Star is showing a much better body of ore.

Development work is progressing on the Randolph, an adjoining property; the shaft at the time of writing, one week ago, was down 20 feet. Night and day crews are sinking as rapidly as possible, and things are going along in fine shape. The Randolph is one of a group of mines, including the Golden Star, which was owned by George Randolph, his son Edward and Neil Burger. An examination of this property in 1895 by Julius Ropes showed average surface assays of \$15.85, while the average

Toronto Mining Exchange.

The "Morrison" Mine.

This property, stock in which is being bought in fast at Montreal, is situated in Deadwood Camp, two and a half miles from Greenwood City, at Copper Creek, british Columbia. It consists of ground 1250 by 1500 feet, Crown granted, and owned by Morrison Gold Mining Co. and American Corporation. The vein upon this property, as shown by the various workings, has a width of 100 feet or more, having a northeasterly and southwesterly trend, passing diagonally through the property. The workings consist of a shaft 25 feet deep, a shaft 15 feet deep, some six or eight open cuts, a shaft 102 feet deep and a creus-cut tunnel cutting the vein at a distance of about 225 feet from its mouth and having a depth of 150 feet from the surface.

All of these workings show a heavy iron

THE HEADLIGHT MINING & MILL ING CO. own and MET and DIAMOND claims, situated on Sullivan Hill, in the Fort Steele District, East Kootenay Min ing Division of British Columbia. This section has long been known to prospectors and investors as one of the richest in British Columbia, but its development. The Canadian Pacific Rail-

way Co. will this spring build a spur line of the Crow's Nest Railway to a point midway between the Sullivan and North Star mines and not more than a mile from the

Headlight Group. Many fine claims have been located on Sullivan Hill and Huckleberry Mountain, between which Mark Creek runs. These developed claims in several cases are now in fact among the largest mines in British Columbia. The Sullivan Group, almost immediately adjoining, and with a capitalization of 2,500,000 shares, has one of the biggest silver-lead bodies blocked out that has ever been known, and will in all probability be one of the largest mines in the Province. The properties of the Sullivan Group Mining Co. are the Hamlet, Shylock and Hope (see cut). The shares are selling at from 18 cents to 22 cents. The North Star Mining & Milling Co., owning the North Star Mining & Milling Co. STAR, MIDNIGHT, STEMWINDER and twenty or thirty other claims on Huckle berry Mountain and Sullivan Hill, all within a mile and a half of the HEAD- VAN ANDA, LIGHT GROUP, is said to have fully \$2,000,000 worth of ore blocked out. It NOVELTY. is a silver-lead, carrying average values of about \$90, and is controlled by J. O. 41. gentlemen closely connected with the C.P.R.

The formation of Sullivan Hill is Dolamite lime, lying flat on a Diorite formation and the ore generally is a silver-lead, carrying as high as 70 per cent. lead and 93 ounces of silver. In some places gold and copper values are considerable. In others, as depth is attained, gold and copper values come in; as, for instance, in the Stemwinder and the Sullivan Group.

ALL BUYING OF

Will be pleased to the above stocks.

ALL BUYING OR SELLING ORDERS PROMPTLY EXECUTED Will be pleased to quote very low prices and give information relative

Send for prospectus of

. THE DERBY MINING COMPANY, LIMITED.

S. J. SHARP, 80 Yonge Street.

We are organizing the Premier Gold Mining Co. to purchase and work Location K74 in the Seine River district, right adjoining the Foley mine. This location contains 149 acres and numerous gold-bearing quartz veins are visible on the property. Very little work has been done, yet enough to satisfy the promoters that the property is valuable and that in all probability gold will be found in paying quantities.

Professor Wi'liam Hamilton Merritt of Toronto says regarding this property: "Concerning the general character of the veins it might be said that they vary from large-sized veins running 2½ to 12 feet in thickness, down to veins which average about 5 inches. In both cases the veins are remarkably persistent and can be traced for long distances. These veins in general are composed of quartz generally banded and carrying iron pyrites, zinc-blend galena, and some copper pyrites in greater or less quantities associated with Gold.... The gold is for the most part coarse, and this fact, together with the a tered character of the granite for a considerable depth, would indicate that the freemilling stage of these veins will extend down as far as the protogene character of the granite... Your property offers a splendid field for prospecting work. The few veins already discovered of the great number which undoubtedly exist on your area have not been found to carry pay rock at the places where they have been opened, but it will be a matter of great surprise to me if prospecting operations on your prospectively valuable area do not disclose veins which will support handsomely paying minea?"

The company will be stocked for \$1,250,000/ of which \$650,000 goes to pay for the property and \$600,000 as Treasury Stock. To defray organization and preliminary development expenses 200,000 shares (of \$1.00 each) of the Treasury Stock in the proposed Company will be sold to subscribers therefor at

FIVE CENTS PER SHARE

In blocks of not less than 500 shares. Money to accompany out of town orders. We believe this is a good proposition. A. R. MCFARLANE & CO., BANKERS AND BROKERS.

The Rainy River Gold Mining Company, Limited, of Rat Portage.

Member Toronto Mining Exchange.

DULUTH, MINN.

The Rainy River Gold Mining Company, Limited, of Rat Portage.

Has been in active operation for seven months only, and has made marvelous progress. They now own over (50) fifty carefully selected properties.

Is the MIKADO a great mine?

They own two fine properties on same contact.

Has the SENTINEL great promise?

They own one-half mile of the same vein.

Is the SCRAMBLE fahl band rich?

They own nearly a mile of it right alongside.

Is the WIMOR certain to be a winner? (so Captain Williams says).

Is the WIMOR certain to be a winner? (so Captain williams says).

They are down 90 feet on one fine fissure vein, and on the 380 acres of the property have already discovered 13 important veins.

Has the STELLA produced \$1000.00 ore?

They have four properties in that vicinity, same mineralization. They are getting ready to ship to the Custom mill at Keewatin from three properties.

Stock was 10c, per share, but has been advanced to 20c, and will be advanced steadily as development demonstrates abundant security. Nearly half of vanced steadily as development demonstrates abundant security. Nearly half of the capital stock is still in the treasury. The Directors are active, careful, practical business men, and subscribers can make no mistake sending in prompt subscriptions at twenty cents per share. Send for prospectus.
