

OUR "GALLERY FURS"

We're the Largest Furriers in Canada

This is the eighteenth day of February—that many days gone of our sale, and we're going to wind it up with a gallery finish. These prices speak our method, and in considering them you must remember the tall advance in the price of furs on foreign markets. Twenty-five per cent. off everything on to-day's price means at least forty per cent. saved next year if you buy to-day. That's the particular argument.

Muffs	Ruffs
Alaska Sable, were \$12, for \$8.	Mink Ruffs, \$15 to \$65.
Chinchilla Muffs, \$30, for \$25.	Alaska Sable Ruffs, \$7.50 to \$2
Mink Muffs, \$25, for \$20.	Russian Sable Scarfs, \$25.00.
Lynx Muffs, \$15 to \$18.	
Brown Fox Muffs, \$13 to \$18.	Boas
Black Fox Muffs, \$15 to \$18.	Brown Fox Boas, \$25 to \$35.
Squirrel Muffs, Flat Muffs, \$15 to \$18.	Grey Fox Boas, \$25 to \$35.
	Black Fox Boas, \$25 to \$35.
	Lynx Boas, \$20 to \$25.

Caperines
A few Select Sample Caperines—
Persian Lamb and Sable, \$20 to \$25.
Persian Lamb and Brown Fox, \$35 and \$40.
Persian Lamb and Black Fox, \$30 and \$38.
Electric Seal and Sable, \$15 to \$25.

Fur-Lined Capes
The balance of our stock of Good Fur-Lined Capes, to clear, at \$12

Persian Lamb Jackets
In plain designs, well finished and lined, were \$100, busts 32 to 38 \$70

FURS FOR MEN

Our great fifty dollar Fur-lined overcoat—muskat-lined with large otter collar and lapels—best on the continent \$50

3 Men's Ruslan Calf Coats, regular \$5.00 25.00
3 Men's Rock Wallaby Coats, regular 30.00 17.00
3 Men's Bokharan Coats, regular 60.00 45.00
A lot of Men's Fur Overcoats clearing at 15.00

Temperance Sts.

MATTERS ASTRONOMICAL.

Professor Millar Throws Light on Sun, Earth and Stars.

It is not given to the ordinary listener to take keen interest in the oscillations of Nova Persei, to worry out calculations as to the time that must elapse ere we fall into the sun, or to sit unmoved while an astronomer describes the minute mistakes of the savants of ages past, yet the admirable paper read by Prof. A. F. Millar at the Canadian Institute last evening was so lucid that one came away with an excited opinion of one's astronomical perspicacity. Prof. Millar's paper was the second in a series on "Stellar Motion," the specific point at issue being the aberration of light.

Some very interesting calculations were beautifully explained on the blackboards, and the velocity of light was established as being 186,330 miles per second.

The diameter of the earth at the equator was calculated as 7,926.6 miles, and the distance of the sun 92,975,500 miles.

Prof. Millar has the happy faculty of conveying his meaning in a clear and concise manner, and his calculations, the too lengthy to be given here in full, were understood by all present.

Dr. Atkinson paid a tribute to Prof. Millar's powers of illustration, and said the terms "light and color" were "so simple and so elegant" which he as a schoolboy had invested with so much mysticism, had had their terrors when Prof. Millar used them.

A very fine sepia drawing by Miss Marie Holmstedt, clearly defining the sun and the illumination of the lunar surface, was exhibited. This picture was made at Dr. Wadsworth's fine observatory at Belleville, Ontario, Canada. He said he was without a cloud, but begged that his father be kept in ignorance of his condition.

The surgeon found he had pneumonia in its worst form. He was very weak, and the inflammation of the lung surface had reached almost an acute stage. He said he had been living at No. 141 Bowerly. At first he said he was a literary worker. Then he declared he was a newspaper man.

A telephonic message from Sir Mackenzie Bowell, while working last night, conveyed the information that his son, Charles, mentioned in the above dispatch, had been killed in a hospital last Sunday, and is fully recovered.

BUT HE IS WELL NOW.

Charles Bowell Went to N.Y. Hospital—Journal's Lucid Story.

New York, Feb. 17.—The Journal says: Charles Bowell was the name given by a young man who requested treatment at Bellevue Hospital last night. He said he feared he had pneumonia. Incidentally, he declared to the examining surgeon that he was a son of the Hon. Sir Mackenzie Bowell, of Belleville, Ontario, Canada. He said he was without a cloud, but begged that his father be kept in ignorance of his condition.

The surgeon found he had pneumonia in its worst form. He was very weak, and the inflammation of the lung surface had reached almost an acute stage. He said he had been living at No. 141 Bowerly. At first he said he was a literary worker. Then he declared he was a newspaper man.

Fairweather's

Expansion Sale

Men's Bargains

in Fur and Fur-lined Coats

The prices are all the argument a quick-witted man needs to get him here if he's thinking of furs at all—the equal in quality would be hard to find—the prices cannot be beaten for cheapness—you know that we know it—make comparisons if you will—these lots are special for the day—

Men's Fur-lined Coats
Men's Rat and Marmot Lined Coats, outer, Persian lamb and Russian rat trimmed, all sizes, were \$17.50 to \$25.00, now 27.50 to 60.00
Mink and Ermine Fur-lined Coats, outer, Persian lamb and seal trimmed, were \$165 to \$250, for 122.50 to 135.00

Men's Fur Coats
Men's Coat Coats, were \$50, for 35.50
Men's Seal Coats, were \$25, for 23.50
Men's Rabbit Coats, were \$15, for 13.50
Men's Black Calf Coats, with Russian lamb and beaver collars, were \$12.50, for 23.50

J. W. T. FAIRWEATHER & CO.,
84-86 YONGE ST., TORONTO.

THE ROBERT SIMPSON COMPANY, LIMITED

Directors—J. W. Flavell, A. E. Ames, H. H. Fugger, Feb. 18

Store Closes Every Evening at 5.30.

Odd Coats for \$1.98.

Do you want your suit to hang on till spring? Little bit seedy though, perhaps. A new coat would make all the difference in the world. Needn't put yourself to any great expense either. We've fallen heir to about 200 odd coats to sell at \$1.98 and \$2.98, good coats, too—they belong to ranges of suits worth as high as \$15. The manufacturer used the ends of his cloths up this way. Not enough for whole suits, but just enough for a coat. Whatever he got for the coats was so much clear profit, because otherwise the cloth was simply wasted. So \$1.98 and \$2.98 for to-morrow.

125 only Men's and Youths' Odd Coats, tweeds and serges, single-breasted saque style; these are odd from \$5.00, \$6.00, \$7.00 and \$8.00 suits, sizes 32 to 44. On sale Thursday at 1.98

50 only Men's Odd Coats, finer quality, consisting of fancy and plain worsted Scotch tweeds and finer grade materials; these are odd from \$8.50, \$10.00, \$12.00, \$14.00 and \$15.00 suits, sizes 35 to 42. On sale Thursday at 2.98

Boys' \$1.00 Shirts, 49c.

A clean-up of one of the best known shirt manufacturers in Canada—the W.G. & R. people of Berlin. You may rely upon the value as being more, much more, than ordinary.

480 Boys' and Youths' Fancy Colored Shirts, made from finest imported cambric and zephyr cloths, in a large range of neat, dainty patterns, new designs, made open front, also some open back, both attached and detached collars, and some have collars to match, perfect in workmanship and fit, sizes 13 to 14 1/2, regular prices 85c and \$1. On sale Thursday 49c

York County and Suburbs

Toronto Junction Council Found to Have Qualified Property Qualification.

WORKS AFTER REDISTRIBUTION

Probable That County Boundaries Will Be Respected—Cardwell Will Disappear.

Toronto Junction, Feb. 17.—The motion to unseat Councillor James Bond, the representative for Ward 5, was concluded before Winchester, C.J., at Osceola Hall this morning. Mr. Bond retains his seat, but will have to pay his own costs. A. H. Clemmer, the complainant, attacked Mr. Bond's qualification upon the ground that he was insufficiently assessed on the last revised assessment roll. A lot which was assessed to his daughter was owned by his wife, and should have been assessed to her. Both mother and daughter are called Georgina, but on the roll the term "spouse" appears, which would indicate that the lot was owned by Georgina Bond, his daughter. Mrs. Bond failed to register the deed for the property, and on this account the justice allowed that the motion might not have been entered had this been done, and for this reason ordered each party to pay his own costs. Mr. Bond has his own lawyer to pay, and Mr. Clemmer will pay his lawyer and court fees, amounting to about \$100.

In the Police Court this morning James McElroy sued Contractor Gibson for \$3.90 wages and cost of judgment for the full amount. Gibson got pay from the town, but did not pay McElroy.

A burning chimney, due to using soft coal at the Heydon House, to-night caused someone to rush to the alarm box and call out the brigade. The Ladies' Auxiliary to the Brotherhood of Locomotive Firemen will hold an assembly in James' Hall on Tuesday next. The Oakes Bicycle Club will give a dance in the same hall on Friday night.

The Three Yorks.

Arch Campbell, M.P., introduced in regard to the effect that the new redistribution bill will have upon the existing constituencies of East, West and North York, stated that the Dominion government would in all probability respect county boundaries, and that the Township of Whitechurch, which is in the County of York, but which in the Federal elections is a part of the constituency of West Ontario, would be returned to York County and become a part of North York. The Township of West Gwillimbury, which for the Federal election constitutes a part of North York, will be returned to York County.

A Great Sufferer Cured.

Mr. Benjamin Dillon of Leeds, Ont., was cured of Muscular Rheumatism by Polson's Nervine, and says: "I feel very duty is to proclaim Polson's Nervine as an infallible cure for Rheumatism; it cured me after 30 years suffering, and nothing I know of can equal its penetrating power. Nervine simply has no equal in quickly relieving and curing Rheumatism, Neuralgia, Sciatica and Lumbago. A trial will convince anyone. Price 25c. ad.

Matters Astronomical.

Professor Millar Throws Light on Sun, Earth and Stars.

It is not given to the ordinary listener to take keen interest in the oscillations of Nova Persei, to worry out calculations as to the time that must elapse ere we fall into the sun, or to sit unmoved while an astronomer describes the minute mistakes of the savants of ages past, yet the admirable paper read by Prof. A. F. Millar at the Canadian Institute last evening was so lucid that one came away with an excited opinion of one's astronomical perspicacity. Prof. Millar's paper was the second in a series on "Stellar Motion," the specific point at issue being the aberration of light.

Some very interesting calculations were beautifully explained on the blackboards, and the velocity of light was established as being 186,330 miles per second.

The diameter of the earth at the equator was calculated as 7,926.6 miles, and the distance of the sun 92,975,500 miles.

Prof. Millar has the happy faculty of conveying his meaning in a clear and concise manner, and his calculations, the too lengthy to be given here in full, were understood by all present.

Dr. Atkinson paid a tribute to Prof. Millar's powers of illustration, and said the terms "light and color" were "so simple and so elegant" which he as a schoolboy had invested with so much mysticism, had had their terrors when Prof. Millar used them.

A very fine sepia drawing by Miss Marie Holmstedt, clearly defining the sun and the illumination of the lunar surface, was exhibited. This picture was made at Dr. Wadsworth's fine observatory at Belleville, Ontario, Canada. He said he was without a cloud, but begged that his father be kept in ignorance of his condition.

The surgeon found he had pneumonia in its worst form. He was very weak, and the inflammation of the lung surface had reached almost an acute stage. He said he had been living at No. 141 Bowerly. At first he said he was a literary worker. Then he declared he was a newspaper man.

Screams Brought Mother's Aid.

Mamie McConnell, aged four, was removed to the Sick Children's Hospital early yesterday morning, suffering from severe burns received at her home, 37 Yonge street. Her father, Charles McConnell, is janitor of the building. The child was alone at the time, and it is supposed that a spark from the stove ignited her night dress. Her screams attracted the attention of her mother, who was in another part of the building, and she, with great presence of mind, seized a blanket and smothered the flames. Dr. Wallace, who was summoned, ordered the little girl's instant removal to the hospital. The burns are severe and dangerous, the upper part of the body having been enveloped in flames.

Busy Bees Kept Busy.

The Busy Bees held their annual entertainment last night in the Berkeley street Methodist Church. The musical sketch "Jerusha Dow's Family Album" proved a good card. Many local hits were made by Aunt Jerusha (Miss Thompson). Master Robbie Clifton sang and recited as an encore "My London Home." The songs were rendered by the characters in the album and W. N. Sharver. A piano duet by Mrs. Sharver and Miss F. Brown was also given.

Literally Tied to Pieces.

Schenectady, N.Y., Feb. 17.—Anton P. Kowicz, while working in a factory, conveyed the information that his son, Charles, mentioned in the above dispatch, had been killed in a hospital last Sunday, and is fully recovered.

Accepts Panama Canal.

Washington, Feb. 17.—The United States government has formally accepted the offer of the Panama Canal Company to sell to the United States the canal property and all of the canal rights therein for \$40,000,000, subject only to the ratification of the pending treaty with the Republic of Colombia.

After 21 Years' Service.

Montreal, Feb. 17.—Mr. J. Kennedy, superintendent of the Montreal Street Railway, has resigned after 21 years' service.

The Great \$3.50 Shoe for Men.

The shoe for the level-headed man.

The shoe for a man of taste. The man who likes a high-class shoe, and can distinguish between a shoe of mere appearance and a shoe of real quality—such a man will appreciate the Victor.

The Victor is actually, in leather make-up and everything else, a \$5.00 shoe. This store by system and management saves you all the middle profit and expense you pay for in regular \$5 shoes.

For the Victor sells for \$3.50, "a \$5.00 shoe for \$3.50." All sizes, width and styles.

Professor Millar Throws Light on Sun, Earth and Stars.

It is not given to the ordinary listener to take keen interest in the oscillations of Nova Persei, to worry out calculations as to the time that must elapse ere we fall into the sun, or to sit unmoved while an astronomer describes the minute mistakes of the savants of ages past, yet the admirable paper read by Prof. A. F. Millar at the Canadian Institute last evening was so lucid that one came away with an excited opinion of one's astronomical perspicacity. Prof. Millar's paper was the second in a series on "Stellar Motion," the specific point at issue being the aberration of light.

Some very interesting calculations were beautifully explained on the blackboards, and the velocity of light was established as being 186,330 miles per second.

The diameter of the earth at the equator was calculated as 7,926.6 miles, and the distance of the sun 92,975,500 miles.

Prof. Millar has the happy faculty of conveying his meaning in a clear and concise manner, and his calculations, the too lengthy to be given here in full, were understood by all present.

Dr. Atkinson paid a tribute to Prof. Millar's powers of illustration, and said the terms "light and color" were "so simple and so elegant" which he as a schoolboy had invested with so much mysticism, had had their terrors when Prof. Millar used them.

A very fine sepia drawing by Miss Marie Holmstedt, clearly defining the sun and the illumination of the lunar surface, was exhibited. This picture was made at Dr. Wadsworth's fine observatory at Belleville, Ontario, Canada. He said he was without a cloud, but begged that his father be kept in ignorance of his condition.

The surgeon found he had pneumonia in its worst form. He was very weak, and the inflammation of the lung surface had reached almost an acute stage. He said he had been living at No. 141 Bowerly. At first he said he was a literary worker. Then he declared he was a newspaper man.

Devonshire Cream

made of inspected sweet cream has almost the consistency of "hard sauce"—delicious served with pie or puddings—made just as in Devonshire, England. Jars 15, 25, and 50 cents. 'Phone, North 2040.

Odd Coats for \$1.98.

Do you want your suit to hang on till spring? Little bit seedy though, perhaps. A new coat would make all the difference in the world. Needn't put yourself to any great expense either. We've fallen heir to about 200 odd coats to sell at \$1.98 and \$2.98, good coats, too—they belong to ranges of suits worth as high as \$15. The manufacturer used the ends of his cloths up this way. Not enough for whole suits, but just enough for a coat. Whatever he got for the coats was so much clear profit, because otherwise the cloth was simply wasted. So \$1.98 and \$2.98 for to-morrow.

125 only Men's and Youths' Odd Coats, tweeds and serges, single-breasted saque style; these are odd from \$5.00, \$6.00, \$7.00 and \$8.00 suits, sizes 32 to 44. On sale Thursday at 1.98

50 only Men's Odd Coats, finer quality, consisting of fancy and plain worsted Scotch tweeds and finer grade materials; these are odd from \$8.50, \$10.00, \$12.00, \$14.00 and \$15.00 suits, sizes 35 to 42. On sale Thursday at 2.98

Boys' \$1.00 Shirts, 49c.

A clean-up of one of the best known shirt manufacturers in Canada—the W.G. & R. people of Berlin. You may rely upon the value as being more, much more, than ordinary.

480 Boys' and Youths' Fancy Colored Shirts, made from finest imported cambric and zephyr cloths, in a large range of neat, dainty patterns, new designs, made open front, also some open back, both attached and detached collars, and some have collars to match, perfect in workmanship and fit, sizes 13 to 14 1/2, regular prices 85c and \$1. On sale Thursday 49c

Yonge Street window.
