# THE HOUSEKEEPERS' BUYING GUIDE

Our Consumers' League

By Isabel C. Armstrong.

Edith Maria and Henrietta Jane

Did you ever know two girls in practically the same circumstances in life, with equal incomes or allowances? One always presented a good appearance, was always presented a good appearance of the same if came to the vexed question of money in her purse; always as a bank account or a Victory bond in process of being bought. (Does she sound too good to be true?) The other was sometimes positively shabby, bemoans a beautiful too good to be true?) The other was sometimes positively shabby, bemoans a beautiful too good to be true? The other was sometimes positively shabby, bemoans a beautiful too good to be true? The other was sometimes positively shabby, bemoans a beautiful too good to be true? The other was sometimes positively shabby, bemoans a beautiful too good to be true? The other was sometimes positively shabby, bemoans the confidence of the same o

pald so much for that hat, she feels it will be a long, long time before she can invest in another. Gloves? She never seems to have them when she needs them, or the kind she needs.

Buying Victory bonds? On HER salary? Well, Edith Maria may do so, but how Edith Maria manages is beyond finding out. She would LOVE to have given something to the Salvation Army campaign this week, because she is deeply in sympathy with the work of the Army, especially for the soldiers. But she positively can't afford to give

the Army, especially for the soldiers. But she positively can't afford to give anything. Thrift stamps? Just like her luck. A member of the family tried to start her in the right direction at Christmas time by presenting her with a Thrift Stamp card with four stamps on it by way of encouragement. "I on it by way of encouragement. "I bought three more thrift stamps and pasted them on, and then I lost the card at the end of two weeks," she says, with an added moan, "I don't see why I should have such bad luck!"

When Fdith Marie is called him. When Edith Maria is asked how she manages, she replies, "I don't know that there is much management about it. When I first started living within an al-

SAVE MONEY AND GET

SATISFACTION

By buying Rigneys' Poultry and Stock Feeds. We have the best and cleanest grains and chops that money can buy. We offer you these separately or mixed in a manner to give the best results. FEEDERS—You may depend upon it that feeding cattle, hogs or poultry will be a paying business for a long time yet. When in need of feeds give us a call. It is a pleasure to show our goods. POULTRYMEN—We have just received a quantity of good, clean wheat, oats and barley, mixed—something sure to give good results from your flocks. Be sure to see this before buying. We know it will please you. We must again warn our stock raisers and poultry feeders to keep your stables and pens sanitary—clean and dry, with plenty of light and fresh air. Clean often and use plenty of dry straw. Give your animals and birds good homes. They will repay you for your trouble. Our wagon goes to your part

homes. They will repay you for your trouble. Our wagon goes to your part of the city every day. Call or phone in your orders early, as it helps us in our work. Satisfaction or your money back is our motto and your protection. A gilt-edge proposition. Tell your neighbors about our feeds.

The Way To Success. Ten golden business maxims were discovered in one of the Canadian monthlies the other day, from which the following have been "shoplifted," because they are so applicable to the housewife in her business of homemaking: 1. Have confidence in yourself and

1. Have confidence in yourself and make yourself fit.
2. Harmonize your work. Let sunshine radiate and penetrate.
3. Handle the hardest job first each day. Easy ones are a pleasure.
4. Do not be afraid of criticism. Criticise yourself often.
5. Be enthusiastic. It is contagious.
6. Be fair and do at least one decent act every day in the year.

buying shoddy materials. I made up my mind I couldn't afford to do this, and that I must right away learn to tell the difference between what really suppeared to be good value, and what merely appeared to be good value. I make a distinction between what I actually need and what I think I would like to have.

"I get the necessary things before pleashing my whims. I never buy a hat simply because it is a hat and is becoming. I take into consideration all the other things with which I will want to wear it. I apply this rule to every necessary things before about doing the hardest job first, isn't as a hat and is becoming. I take into consideration all the other things with which I will want to wear it. I apply this rule to every long and definite place in my wardrohe led in move it, or will it be a missift? can't afford the extravagance of missifts, even to the war becoming in themselves. I know exactly how much my income is, and that is how Edith Maria is getting one hundred per cent value for her things to which I may want to our contribute.

"It really isn't any more trouble to be a definite amount aside for church giving and for the other things to which I may want to contribute.

"It really isn't any more trouble to be a definite amount aside for church giving and for the other things to which I may want to our contribute.

"It really isn't any more trouble to be a definite amount as a supply that it was a suply that the day that the face from the most ingulate the day that

Every life ruined by disease is a waste. It represents a distinct economic loss. With a knowledge of what disease costs, it could be avoided. The nation to be truly great must build up the strongest and best citizenship. The state should see that this is done, and it can best be done by making our health service so efficient as to abolish or prevent needless disease.—Minnesota State Journal.

The foregoing quotation, in different words, was the very argument for using every means posible to make more efficient the public health service in London, offered this week by Dr. D. H. Arnott as a member of the board of health believed it was knowledge. Further, he expressed the belief that it is the duty of the board to unify the efforts of the agencies at work, child welfare, tuberculosis, nursing every means posible to make more efficient the public health service in London, offered this week by Dr. D. H. Arnott as a member of the board of the duty of the board to unify the efforts of the agencies at work, child welfare, tuberculosis, nursing etc., not only with a view to saving children from unnecessary death. "Child welfare and public health aren't just questions of saving life," were his exact words. "The idea is to make strong, vigorous people who can work without being obliged to have days off because of disabilities that might have been corrected in infancy, or prevented altogether."

#### Saving One Hundred Lives a Year.

Saving One Hundred Lives a Year.

When Dr. H. W. Hill made the infant mortality survey in London early infance that memory child we have the continued of the saved. Think of it, ONE fare exhibits to the famous child we have the faure of the saved the collapse of the saved the faure of the saved the continued people were deadable the death rate for the Province of Ontario in the year 1916.

D. H. H. W. Hill made the infant means of obtaining a pure milk supply in the collapse with one hundred people were of the sight to find the part of information re the best means of obtaining a pure milk supply of interest was being it for the saved the continued to the collapse with the fact that the city for careless in public health and child welfare. He had the city for careless in the city of careless in the city of careless in the city for careless in the city of car

One-half mill means \$20,796.63. Last year, the appropriation of the

### CHILD GETS SICK. CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach Look at the tongue, mother! If coated, or your child is listless, cross, fever-ish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat,

### CATARRHAL DEAFNESS AND HEAD NOISES

Persons suffering from catarrhal deaf-

rersons suffering from catarrhal deaf-ness, or who are growing hard of hear-ing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Suf-ferers who could scarcely hear have had their hearing restored to such a restarferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmint (Double Strength). Take this home and add to it ½ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmint is used in this way not save.

The other day in the meeting of the board of health, while centralization of public health activities was under consideration, someone made the statement that it would probably cost more money if the various public health agencies were co-ordinated to work as a unit under the board of health.

Under the statutes, the parks board is allowed one-half mill of the city taxes for use in the maintenance of cit parks.

A parks board was considerably less.

To be exact, the appropriation of the parks board should have the full amount allowed by the statutes for the maintenance of the city parks.

A joint committee of the Horticultural Society and Chamber of Commerce has advocated this, and a large vote of the Chamber of Commerce has indorsed the suggestion.

merce has advocated this, and a large vote of the Chamber of Commerce has indorsed the suggestion.

In other words, a number of prominent citizens are in favor f the expenditure of \$20,796.63 on beautifying and keeping up the city parks. The statutes provide for this, for the expenditure of \$20,786.63 in keeping the parks attractive, which is excellent business.

But the statutes do not provide for the expenditure of a single cent for child welfare, which has as its objective the saving of 100 babies a year from needless death in London.

When people alive to the importance of saving that many babies' lives a year in London, and to the importance of making it possible for many more to live for vigorous citizenship, wanted funds to carry on this work of salvaging human lives, they dipped down into their own pockets, then they held a tag day, a tag day to save lives and to save children to be strong, efficient citizens.

The Board of Health.

London's appropriation for board of health activities last year was \$9.855.

To be sure, the shiftless board exceeded its appropriation. It had the influenza epidemic on its hands during the fall, the most terrible epidemic that ever hit the city rrom the standpoint of severity and toll in loss of life.

To be sure, there were other volunteer agencies at work helping out the board of health had such a comparatively small amount after all.

For example, the school-nurses have been rendering a service which places beyond dispute the importance and value of public health service.

For example, the school nurses have been rendering a service which places beyond dispute the importance and value of public health service. This has been financed by the city through the board of education. But, take the child welfare work and the work of the Women's Sanatorium Aid with the exish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat, or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

TO RELIEVE CATARRH,

it he board of education. But, take the child welfare work and the work of the Women's Sanatorium Aid, with the exception of the salary of one of the tuberculosis nurses, which is paid by the city. Placed in the class of a charity so far as support is concerned. Like the Child Welfare Association, the Sanatorium Aid has received support by people dipping down into their poot by people dipping down into their poot by people dipping down into their poot by no means being discounted. Their atkent in the class of a charity so far as support is concerned. Like the Child Welfare work and the work of the Women's Sanatorium Aid, with the exception of the salary of one of the subary of one of the subary of one of the salary of one of the subary of one of the salary of one of the subary of one of the salary of one of the subary of ception of the salary of one of the class of a charity handicap of physical weaknesses all through life; for saving boys and girls to be vigorous city and nation builders. Why all the fine sentiment orated from pulpits and platforms about the children being the greatest asset of the city and nation, if the city doesn't think it worth while as a city to make every possible provision to save the lives of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for the city and a saving of the children for th
