De Laval Separators

Are By Far the Most Economical! Real economy is never short-sighted. It never con-

fuses PRICE with VALUE. PRICE is what you pay for an article. VALUE depends upon the amount and quality of ser-

vice the article gives you. You get by far the greatest actual value for your money when you buy a De Laval—BECAUSE a De Laval will give you much better and longer service than any other cream

From the standpoint of its greater durability alone the De Laval is the most economical cream separator to buy, and when you also take into consideration its cleaner skimming, easier running, greater capacity and less cost for repairs, the price of the "cheapest" machine on the market is most exorbitant compared with that of the De Laval.

And there is no reason why you should let its FIRST COST stand in the way either, because the De Laval may be purchased on such liberal terms that it will actually pay for itself out of its own savings.

Call on the nearest De Laval agent, or write our office.
