## LOCATION T. LEONARD'S

Church Has In e-  
accommodation—  
Be Moved.

### H TORONTO

Anglican church of St  
Benedict avenue, Bedford  
on change its location.  
Increase in population in  
the city, it has long  
to meet the demands  
and a site was purchased  
on Wanless avenue.  
As soon as sufficient  
land was raised the little  
removed bodily to its  
new brick veneer added  
and the interior redecor-  
ation will be increased.  
Just how soon this will  
depend upon the  
with the fund, but it is  
a church will be in its  
about Easter. The min-  
ister, a carpenter, and a host of  
are striving to make  
that no time will be

## TWENTY THOUSAND GET CITY RELIEF

Employers Preparing for Re-  
sumption of Business  
Inspires Hopefulness.

A silver lining is now beginning to  
glimmer among the dark clouds of the  
unemployment problem. The tempo-  
rarily lost word "work" is said to be  
due once more to appear in our lan-  
guage in the near future.  
It is said that a number of factory  
proprietors have been putting their  
heads together of late to devise a  
means of once more being able to  
start the wheels humming at a profit  
and at the same time not reduce the  
weekly stipend of their old hands  
when they re-engage them. The pro-  
position is to have the men work nine  
hours per day instead of seven, and  
return to work at the old rate of pay.  
Whether organized labor will take  
kindly to this suggestion is, of course,  
another matter.  
Mr. Miller let it be inferred that  
some of the big Toronto machine  
shops were making preparations for a  
resumption of operations. The names  
he would not divulge.  
Farmers once more thronged to the  
employment bureau yesterday and  
took more than a score of "hired men"  
away with them to Ontario farms.

Figures show that it is the married  
men of Toronto who are being hard-  
est hit by the present wave of unem-  
ployment. Married civilians outnum-  
ber three to one the single civilians,  
and more than double the number of  
married soldiers are applying for work  
compared with single soldiers. One  
reason assigned for this is that a  
single man can much more easily take  
a job out of town than a married man  
who has his wife and children here  
to look after.

Yesterday saw forty more pleased  
men taken from the ranks of the un-  
employed and sent on an out-of-town  
construction job where the work  
promised to be of a permanent nature.

Situation Still Serious.  
The present situation as regards  
work in the city still remains serious  
with no work offering. More than a  
thousand men have applied for work  
at the employment bureau every day  
this month, and the registration fig-  
ures are mounting by leaps and  
bounds.

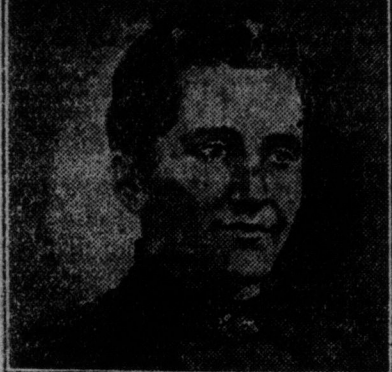

It is reported that the city is now  
providing relief for upwards of 20,000  
persons at a daily cost of \$10,000, with  
the problem getting worse instead of  
improving.

The employment bureau moves its  
men's department from 45 West King  
street to the former postoffice re-  
building at the corner of Front and  
Bay streets, where it will be open for  
business on Monday morning. The new  
address will be 45 West Front street,  
the same number as on King street,  
and the new telephone will be Adelaide  
4044. The King street premises are  
to be used for the women's depart-  
ment. Both men and women, however,  
are to register at the King street ad-  
dress today.

There were 11 rejection cases yester-  
day, mostly men from outside points  
who had come in to live at the city's  
expense. Among them were some Rus-  
sians and Austrians who had drifted  
into the city and who were quickly

## FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering,  
"FRUIT-A-TIVES" Brought Relief

MADAMA HORMIDAS FOISY

824 Champlain St., Montreal.

"For three years, I was ill and  
exhausted and I suffered constantly  
from Kidney Trouble and Liver Disease.  
My health was miserable and  
nothing in the way of medicine did  
me any good. Then I started to use  
'Fruit-a-tives' and the effect was  
remarkable.

I began to improve immediately  
and this wonderful fruit medicine entirely  
restored me to health. All the old pains,  
headaches, indigestion and constipa-  
tion were relieved and once more I  
was well.

To all who suffer from Indigestion,  
Constipation, Rheumatic Pains or  
great Fatigue, I advise the use of  
'Fruit-a-tives'."

Madama HORMIDAS FOISY.

50c. a box, 6 for \$2.50, trial size 25c.  
At all dealers or sent postpaid by  
Fruit-a-tives Limited, Ottawa, Ont.

sent up to the House of Industry,  
where, after they have earned their  
keep they will be invited to leave  
town.  
Over 2,300 relief cases were again  
handled at the Krausmann Hotel yester-  
day, including some 60 additional  
families in which relief was badly  
needed.

### CLOSING HOUR ELEVEN FOR BOWLING ALLEYS

By order of the police commis-  
sioners, promulgated at yesterday after-  
noon's session, bowling alleys may re-  
main open until 11 p.m. This decision  
was the result of representations  
made by the Ontario Billiard Associa-  
tion. The board refused a contin-  
uation of license to six cab drivers.  
The board also permitted Constable  
Arrowsmith to rejoin the force after  
a sojourn in California, where he had  
gone following the death of his wife.  
This permission was granted because  
of his splendid record.

## QUALITY OF SOUL AWAKE IN INDIA

Dr. Hardiker Says the World  
Could Afford to Follow  
India's New Creed.

"It was Lord Hardinge who esti-  
mated that a hundred and fifty mil-  
lions of the 315,000,000 men, women  
and children comprising the popula-  
tion of India passed from day to day  
and from year to year without a  
square meal a day. This is one-half  
of the people of that country which  
gave a million men and really a  
hundred million pounds sterling to  
the cause of the war for democracy.  
This is the country of whose popula-  
tion 93 per cent. can neither read nor  
write their own nor the English lan-  
guage, but practically all of whom  
have acquired a new sense of politi-  
cal values which indicate that illiter-  
ate who they may be, the villagers  
and industrialists of India are neither  
asleep nor ignorant of the great awak-  
ening which is stirring hundreds of  
millions throughout the world from a  
materialistic dream of plenty and  
indifference to a new quality of soul  
and democratic ideal."

In these words Dr. N. S. Hardiker,  
a notable native of Bombay, and  
disciple of Gandhi, the apostle of  
passive resistance on behalf of in-  
dustrial emancipation, touched upon  
the needs of conditions of India  
at a largely-attended meeting of the  
Political Equality League, Foresters'  
Hall. In the course of his address  
the speaker quoted figures showing  
that since the outbreak of bubonic  
plague in India in 1896 that country  
had lost ten million people from this  
one plague alone. The death rate in  
India, he said, averaged 32 in every  
thousand, as against an average in  
both America and Great Britain of  
14 in every thousand. The Spanish  
influenza in three months in 1918  
had taken a toll of more than 8,000,  
000, and famines were chronic. There  
was a reason for this, said the  
speaker, and the reason was to be  
found in the vicious economic circle  
which had bound all countries, but  
which had touched India more than  
most countries. The average yearly  
income of a farm laborer in the  
Bombay presidency was \$9.80. Out  
of this income each ryot was forced  
to pay a tax of \$1.60, leaving him  
an income total of \$8.

"The new creed in India is one  
which all the world could well afford  
to follow," said Dr. Hardiker. "It  
is the creed of soul as against ma-  
terial values, of soul as against brute  
force, of passive yet wonderfully  
potent protest against all manners of  
injustice."

### ROMAN CATHOLIC TAXES FOR SCHOOL PURPOSES

The assessment department has an-  
nounced that the income taxes of Ro-  
man Catholics will be applied for  
school purposes the same way as  
their other taxes, that is, to the sep-  
arate schools, except in the case of  
the few Catholics who are public  
school supporters.

## O.T.A. SCORED IN THE LEGISLATURE

(Continued From Page 1).

done in this connection, but much also  
remained to be done.

The granting of water power privi-  
leges was opposed by Dr. Curry and  
the party to which he belonged, he  
said, also held this view.  
As for the O.T.A. it was not a  
common-sense and therefore it  
could never have the respect of the  
public and never be properly enforced.  
Personally he did not use either beer,  
wine or whisky, but there were peo-  
ple who had always been used to a  
glass of beer, and they should not be  
deprived of it. The government might  
be well advised to consider this ques-  
tion. People should not be coerced.  
It was a bad thing for the country.

The high cost of living was dealt  
with by Dr. Ross from that point  
the government had been remiss in not  
combating high prices. For instance,  
it had allowed all the sugar to be  
exported from the province, with the  
result that the people were compelled  
to pay exorbitant prices.

Dr. Ross was pleased at the premier's  
broadening out policy. He hoped the  
educational department would derive some  
advantage from such a forward step.  
He hoped the party would be a real  
party in the broadest sense, but he fear-  
ed the premier would be very much  
hindered in his efforts.

J. Walter Curry (Liberal-Independent,  
S.-E. Toronto), paid his respects to the  
management of the T. and N. railway,  
which last year succeeded in showing a  
large surplus. It was of vital importance  
that government-operated utilities should  
be made to pay, otherwise the principle  
of public ownership would suffer.

The sentencing of boys and young men  
to penal institutions was a matter that  
should be immediately taken up by the  
Dominion and provincial authorities. As  
things now stood, young men convicted  
of their first offence were sent to prisons  
and became the consorts of older, hard-  
ened criminals.  
Declaring he had always stood strongly  
for Hydro development, Mr. Curry  
said the project at Chippewa and Hydro  
railroads had been criticised, but the  
government's attitude in appointing a  
commission of inquiry was perfectly  
sound and was a step toward the  
await its report before expressing any  
further opinion other than that the busi-  
ness of Toronto was strong for  
Hydro radicals.

The eight-hour day principle was en-  
dorsed by Mr. Curry, who incidentally  
told the house that he was still a Lib-  
eral, but was prepared to go as far as  
any labor man in the matter of social  
legislation.

Author of Report.  
The O.T.A. received a great deal of  
consideration from Mr. Curry. He was  
the author of the report presented to  
the house a few days ago by the O.T.A.  
legislative committee, he said, and which  
recommended among other things, the  
right of a dependent to appeal to the  
county judge.

Next followed a little lecture on the  
evil of strong drink. Some of his friends  
he regretted to say, broke the O. T. A.  
times without number and there were  
no prosecutions. This tended to bring  
the act into disrepute.  
As things now stood it was a matter  
of common knowledge that government  
inspectors had been in the employ of  
the bootleggers. Mr. Curry defended the  
idea that it was necessary to enforce  
the O.T.A. by adopting any subterfuge  
to secure convictions against bootleg-  
gers. If he were crown attorney today  
he would adopt this method of combat-  
ing the liquor traffic.

What Ontario needed today was an  
officer of the crown of outstanding abili-  
ties, who would be absolutely in charge  
of the criminal enforcement of the  
province and with the right to engage  
and dismiss.

Major Tolmie was told by Mr. Curry  
that the employment of men of the  
Hollan type in enforcing the act was  
approved by him—until he had found out  
that they had had records.

If he had his way he would spend  
every dollar the province had to stop  
the evils of the liquor traffic and he  
would see that it would stop once and  
for all.

Attorney-General Raney was warmly  
complimented for the effort he was put-  
ting forth to enforce the O.T.A., Mr.  
Curry declaring the province was fortun-  
ate in having such an officer.  
The address of the lieutenant-governor  
was then passed.

Aid to Live Stock Men.  
Representing the live stock interests  
of eastern Canada, a delegation, head-  
ed by W. P. Nickle, K.C., Kingston,  
waited upon the Drury cabinet yester-  
day to draw the attention of the gov-  
ernment to the high freight rates, which,  
in view of falling prices and increasing  
costs, are seriously handicapping the  
live stock business.

The prime minister gave the deputa-  
tion a sympathetic hearing, and the  
cabinet will likely give support if the  
live stock men make an application for  
a reduction of freight rates as applied  
to live stock.

Manufacturers See Rollo.  
To consider the general labor situa-  
tion, a delegation from the Canadian  
Manufacturers' Association interviewed  
Hon. Mr. Rollo, minister of labor. Mr.  
Rollo told them that no drastic amend-  
ments to present laws are contemplated.  
They again appeared to be released  
from responsibility in cases where a  
large staff of clerks are employed at a  
distance from a plant, but received no  
encouragement.

They referred to the 10,000 increase in  
the number of accidents last year, under  
the workmen's compensation act. Mr.  
Rollo thought the increased number of  
industrial concerns was responsible.

The delegation consisted of J. T.  
Walsh, S. F. McKinnon, R. H. Parsons,  
H. McDonald and Mr. Carley.  
H. H. Dewar has given notice of the  
following inquiry: Was any special rep-  
resentative sent by the premier of On-  
tario to Winnipeg to report on the re-  
cent provincial election there? If so,  
who was so appointed and what was his  
address and previous occupation? What  
sum was paid or charged for any such  
report and for expenses? Is the report  
to be printed for the information of the  
house?

### WIN GOLD MEDALS FOR BONNE ENTENTE ESSAYS

For the best essay on the "Bonne  
Entente" between the provinces,  
prizes for which were offered by the  
Archdiocesan Holy Name Society,  
Earl Champagne of St. Joseph's  
School received first honors, being  
awarded a gold medal, which was  
presented at the school by W. J.  
Baker, vice-president of the Holy  
Name organization. Brother Roge-  
rion, local inspector, was also present  
when the winner was complimented  
on his success and given his reward,  
in return for which he made a neat  
little speech of appreciation. A short  
program and the singing of the Na-  
tional Anthem followed.  
The second prize, also a gold medal,

was won by Austin McNichol of St.  
Helen's School, where the recipient  
was also heartily congratulated. The  
area covered by the contestants was  
quite extensive, even far north Sud-  
bury being represented.

### Three Hundred Memberships For Downtown Association

A total of 303 memberships for the  
three days of the intensive drive for  
members in the Downtown Associa-  
tion was reported at yesterday after-  
noon's luncheon of workers.  
Although the formal part of the drive  
came to an end with yesterday's  
meeting, it was the unanimous opin-  
ion that, as individuals, the mem-  
bers of the teams would continue  
their efforts to get new members as  
they find time to volunteer their  
services during the next few weeks.  
The response of citizens thruout  
the downtown district to this move-  
ment makes sure the perfecting of  
an organization in the very near fu-  
ture that will be able to work out  
the solution of the big problems that  
confront this section of the city.

### TORONTO-OWEN SOUND CAFÉ PARLOR CAR SERVICE.

The Canadian Pacific Railway, ef-  
fective Jan. 31st from Toronto, and  
Feb. 1st from Owen Sound, will op-  
erate a Café Parlor Car in trains leav-  
ing Toronto Union Station at 5.21  
p.m., arriving Orangeville 7.30 p.m.,  
Owen Sound 11.00 p.m., and leaving  
Owen Sound at 6.35 a.m., Orangeville  
at 9.30 a.m., arriving Toronto Union  
Station 11.35 a.m.

### BE WELL

## The Ford Power Plant

THE first model T Ford engine was made in 1908. It was  
the perfected development of Henry Ford's motor in-  
ventions dating back sixteen years to 1892 when he built  
his first little one-cylinder motor.

During that sixteen years Ford Cars were made in many  
models from little two-cylinder "chuggers" to big six-  
cylinder, high-priced cars.

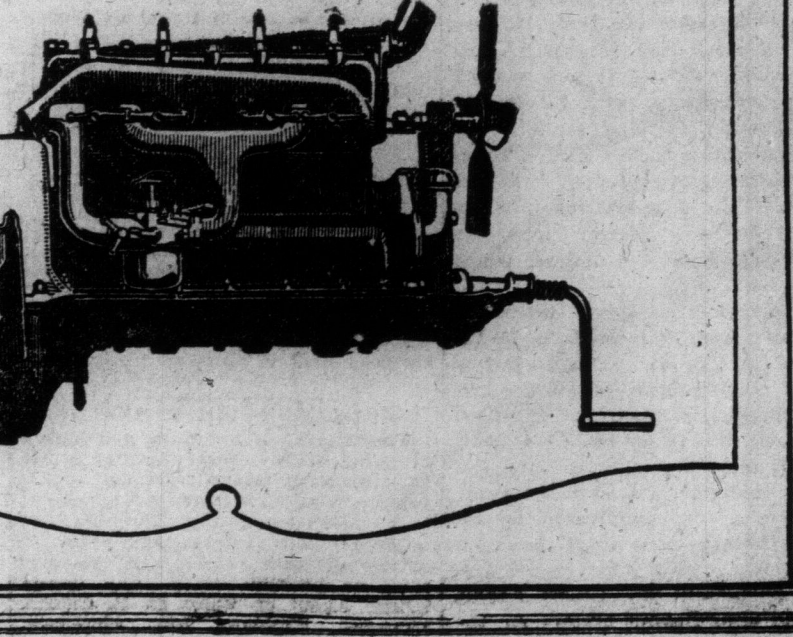

But in 1908 the crystallized results of all those years of  
experience and study was the model T, the Ford power  
plant of today.

And since 1908, thirteen years of test under every con-  
dition of use in peace and war, in every nook and corner  
of the globe has shown not a single weakness nor a need of  
improvement, nor of additions to the power plant which  
drives half of all the cars on earth.

The wonderful durability and power of the Ford engine,  
its simplicity of operation and its economy in fuel and re-  
pairs, are reasons why the Ford car should be a good car for  
you to own.
