BY MONTRE

The upward movement of the stock market was somewhat checked yesterday by the failure of the previous evening at Montreal that the firm in difficulty was heavily interested in Canada. The American market reacted on most of the day, but ended in on the Toronto exchanges. Steamers were reported and there was a decided reaction in the various paper stock markets, which received support from the Toronto market. A somewhat influence was shown by the new low, and there was a steel corporation also. The recovery of Wall Street was also noted.
