SIXTEENTH YEAR

NO SESSION IS LIKELY.

An Early Dissolution and Election Probable.

PROTRACTED SESSION OF CABINET

Tuesday, the 16th, fixed the Application of the...

Ottawa, Feb. 16.—A four hours session of the Cabinet was held to-day...

Contrary to general expectation no announcement was made respecting a session or dissolution.

The fact that Tuesday, 20th, has been fixed for the hearing of the application by Manitoba Catholics for remedial legislation leads to the supposition that the Government will then immediately announce its policy and go to the country.

THE ANOTHER-PACED LIBEL.

Hon. Mr. Laurier Wants the Case Reopened.

Quebec, Feb. 16.—Hon. Wilfrid Laurier arrived here last evening in connection with the libel case of Hon. A. H. Angers vs. E. Pacaud.

Mr. Laurier has given notice that he will move before Judge Andrews that the delibere be discharged to allow the defendant to file an apology in the record.

A draft of the apology had been submitted to plaintiff's attorney, J. N. Hebert, Q.C., last November by defendant's attorneys. This draft defendant alleges was never returned and thinks that if submitted to the plaintiff it would have been accepted. He now asks to file the same apology.

The article for which Mr. Pacaud wishes now to file an apology appeared in L'Electeur. It declared that Senator Landry had made a present of a pair of horses to Mr. Angers, that he had also offered \$100,000 to Mr. Mercier to renew the Beauport Asylum contract which Mr. Mercier had refused, and that thereupon had been formed the plot to give the province \$1,000,000.

The present Minister of Agriculture at once took action for damages against the 'Electeur and the case has been before the courts.

THE LIGHTWEIGHT WINS.

London, Feb. 16.—The Sullivan-Harding sculling match for the championship of England and \$2,000 was rowed off the Tyne to-day. Harding beat Sullivan by a length.

Sullivan was not satisfied with the result of this race, and immediately challenged Harding to another contest. Mr. Harding has accepted the challenge and he would accept of a preliminary series will probably be decided upon early next week.

WINNER RACING AT HAMILTON.

Grimsby Girl, Phelps and Dick French Saturday's winners.

Hamilton, Ont., Feb. 16.—The fourth and last day of the Hamilton Jockey Club's trotting races opened with beautiful weather and a magnificent track. The ice was flooded again, and the racing was as smooth as glass. The attendance was only fair.

The 2:25 unfinished race of yesterday was won by Grimsby Girl, with Nettie Y. second and Haulet third; time 2:29.

In the second race (2:20 class) there were five starters. Phelps sold a favorite but Grimsby Girl had a walk over.

The third and last event was the free-for-all race. The first heat Dick French led nearly all the way; but Hebeus came hard and won the heat. Sheriff won the second heat. Hebeus had a good lead in the third until the last quarter, when he was pulled back and Dick French won. Dick French's account of the race and Judge McElroy declared all bets off, but afterwards was forced to announce that Hebeus had been taken with a hemorrhage and would be drawn.

Grand Duke George of Russia Troubled With Decease.

London, Feb. 16.—A despatch from St. Petersburg to a local news agency says that Grand Duke George reports that his patient has contracted a cold, which is rendering his condition alarming.

Spain's King Has Rheumatism.

Madrid, Feb. 16.—The King of Spain is suffering from an attack of rheumatism.

Emperor William Has a Cold.

Berlin, Feb. 16.—The Emperor is ill with a cold and will not be to the room. He was unable to receive the Austrian delegation which was to call upon him to-day.

The convention of the North York Conservative Association will meet at Aurora on Friday. It is an open secret that Dr. Strange of Toronto will be formally offered and will accept the nomination.

THE BUSINESS OF THE WEEK

THE COMING DIVIDEND ON CANADIAN PACIFIC STOCK.

The Features of the Financial Situation in the States—Will Gold Go to a Premium?—Toronto Street Railway Stock Lower—Decrease in New York Bank Reserves—Commercial Items.

There are no indications yet of any change in the domestic financial situation. The annual reports of loan company managers deal principally with the prospect of rates of interest. Shareholders and depositors are warned that unless capital can be secured on debentures at lower than prevailing rates they will have to be satisfied with a smaller return than has heretofore existed. It is useless to fight against a universal tendency towards reduced interest earnings. Mr. Mason of the Canada Permanent Loan says: "The present position of the financial situation is the most improved method in agriculture, ranching and the like, for the legitimate development of the known resources of our country is so richly endowed with."

BUILDING UP A RESERVE.

The position of the United States Government with respect to the late States use is peculiar, to say the least. A foreign lender by the name of the United States has agreed to sell gold to the United States, taking bonds as collateral. This gold syndicate further agrees that as far as lies in their power to exert all the influence of the United States Government to induce the completion of the transaction by the "big mill" process of exchanging reserves and gold.

While 4 per cent. gold bonds can be placed in the hands of the public at 100 and which practically mean the same thing, the United States Government is not to be exhausted before completion of the transaction by the "big mill" process of exchanging reserves and gold.

Some \$5,000,000 in gold was shipped yesterday from London to New York. This is the completion of the arrangement of the Rothschild syndicate with the Treasury to purchase \$10,000,000 of gold. A further payment will not be due for a month or two.

LOCAL SECURITIES IRREGULAR.

The dealings in domestic securities show a marked irregularity. A good deal of irregularity exists, and the outlook is viewed with a good deal of uncertainty. A good deal of bullion is being sold, and as long as stocks are held, the market is not so strong as it was some time ago.

Interest in Canadian Pacific is increasing as the time approaches for the meeting of the directors. It is expected that the stock will be discussed either on Tuesday or Friday next. The bears are predicting no dividend, but holders seem to expect a 2 per cent. The London price yesterday was 2-1/2, and the Toronto price for the week. It closed here at 48 bid, as against 49 a week ago.

The Toronto Street Railway, but the business of the local exchange is smaller than usual.

The stock is lower, there being sales at 75 and 76, and the closing sale yesterday was 75-1/4. It is said that a good deal of bullion is being sold, and as long as stocks are held, the market is not so strong as it was some time ago.

There is nothing new in Cable, which is still active at 100. The Toronto Street Railway, but the business of the local exchange is smaller than usual.

The reduced freight rate on grain has had a beneficial effect on prices of grain. The market is viewed with a good deal of uncertainty. A good deal of bullion is being sold, and as long as stocks are held, the market is not so strong as it was some time ago.

The Toronto Street Railway, but the business of the local exchange is smaller than usual.
