

### TABLE OF DISTANCES—CONTINUED.

From Kingston to Picton, 39—Bloomfield, 44—Consecon, 59—Milford, 47—Wellington, 50.  
 From Perth to Lanark, 12—Pakenham, 40—Smith's Falls, 14—Oliver's Ferry, 7.  
 From L'Original to Hawkesbury, 4—Caledonia, 9—Vankleek Hill, 8.  
 From Brockville to Frankville, 22—Chamberlain's Corner, 24—Perth, 40.  
*Distances on the Rideau Canal.*—From Bytown to Merrickville, 47—Smith's Falls, 60—Oliver's Ferry, 72—The Isthmus, 87—Brewer's Mills, 109—Kingston, 126.

### EXTENT OF LAND CONTAINED IN OUR NORTH AMERICAN COLONIES.

	ACRES.		ACRES.
Canada.....	222,720,000	Newfoundland.....	23,000,000
Nova Scotia.....	9,995,880	Cape Breton.....	2,000,000
New Brunswick.....	17,280,000	Prince Edward Island	1,360,000
In order to make the comparative size of these territories the more apparent, it may be well to append the following :—			
			ACRES.
England and Wales .....			36,999,680
Ireland .....			20,399,360
Scotland .....			18,000,000
Total.....			75,399,040

The whole area of our North American Provinces alone is more than twice as great as that of all France, which is 130,370,840 acres ; but while France has a population of 35,000,000 of people, these provinces have only an united population of 2,000,000 by the largest computation that can be made. Of this vast area there are not more than 30,000,000 of acres granted, and of these not more than 5,000,000 cultivated.

### LAKE SUPERIOR.

This immense inland ocean is four hundred and ninety miles in length, and is seventeen hundred in circumference—being the largest body of fresh water in the globe. It contains many islands—one of them, the Isle Royale, is one hundred miles in length, and forty in breadth. Upwards of thirty rivers empty themselves into it, and one curious fact in relation to it is well ascertained, that the quantity of water discharged through the Sault Ste. Marie, is not one-tenth what it receives from its tributary streams. Evaporation must, therefore, be the principal agent in keeping the lake down to its usual level.

### POPULATION OF CANADA.

According to the latest census, the entire population of Lower Canada is 690,782. Natives, of French origin, are in number 524,307 ; of British origin, 83,860 ; of the Continent of Europe, 1,326. The number of natives of England is 11,859 ; of the United States, 11,946 ; of Ireland, 43,982 ; and of Scotland, 13,393.

The population of Upper Canada is estimated at 632,570.
