When your nerves are all on edge and sleep seems out of the question take—

at bedtime—one or two BEECHAM'S PILLS

Largest Sale of any Medicine in the World. Sold everywhere. In boxes, 25c.

Down in the abdominal cavity lies a great "plexus" or network of nerve centres, that has been called the "abdominal-brain." It cannot think. Its functions are to superintend and keep in operation various mechanical processes, such as the proper secretion of moisture by intestinal glands and adequate action of intestinal muscles in the walls of the bowels.

It receives messages from nerves in various regions of the body, but being unable to reason, it often acts blindly, imperfectly, or improperly. It may stop secretion, lessen muscular action—and the result is constipation.

Castor oil, pills, salts, mineral waters, etc., do not reason with the abdominal brain, they force it to temporary action, to unnatural effort, until the bowels move. But this is followed by a sulky attitude or even a "strike" by your other brain, and the constipation is increased not cured.

Either square edged or bull nosed.

'Phone Main 1893.

The Christie Woodworking Co. Limited 45 Erix Street
