**ALL RETURNED.**  
In an account of a meeting of the hospital commissioners a paragraph appeared in which it was stated that the linen supervisor had reported twelve towels unaccounted for at the isolation hospital. With reference to this Mrs. Murphy, matron of the isolation hospital had been returned to the general hospital's own laundry.

**GOOD ORDER.**  
The St. John exhibition this year has been unusually free from crime, drunkenness and rough scenes and a good deal of credit is due to Sergeant "Joe" Scott with his two regular policemen and fifteen specials for the way in which order has been preserved even in the most crowded parts of the grounds. The work of the detectives is vouched for by the fact that not one single complaint of theft or pickpocketing has been received to date in spite of the fact that the fair has attracted record crowds. The fight on Monday between two men was the only thing which marred a perfectly peaceful exhibition to date.

**EAST AND WEST.**  
Winnipeg, Sept. 7.—General criticism of the east's attitude toward the west, delivered by J. H. Ashdown, a pioneer merchant and for fifty years a member of the Winnipeg board of trade, disrupted the even tenor of cordiality at the city's luncheon to members of the Montreal board of trade here yesterday afternoon. In a criticism of the east's attitude toward western farmers in general and their action on the freight rates in particular, Mr. Ashdown claimed the west has not had fair play from the east and said the east failed in its appreciation of western problems because it did not try to know or understand the west.

**LOYD GEORGE TO LEAGUE OF NATIONS ASSEMBLY.**  
Geneva, Sept. 7.—The League of Nations assembly today continued its discussion of the report on the work of the council, although interest in the debate is overshadowed by the prospect that Premier Lloyd George of Great Britain may come here to take part in the proceedings.

The question of relief for Austria has entered the phase of practical study with the appointment of a special committee composed exclusively of members of the interested states.

**WAS 101 IN SHADE IN ST. THOMAS, ONT.**

## Just Apply This Paste And the Hairs Will Vanish

(Boudoir Secret.)

The judicious use of a delicate paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delatone with some water, then apply to the objectionable hairs for two or three minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delatone and it will not mar the most sensitive skin, but to insure results, see that you get real delatone.

## RENEWED HOPE OF SETTLEMENT ON RAILWAYS

Chicago, Sept. 7.—With the railway shopcrafts policy committee of ninety summoned to meet in Chicago next Monday, hope of an early or partial settlement of the rail strike was in the U. S. renewed today.

These hopes were founded on principally the call for the union's policy committee meeting and statements by strikers' leaders of the possibility of separate agreements with 52 of the Class A roads, representing approximately \$5,000 miles. Meanwhile labor leaders in the east joined in demands for the impeachment of Attorney-General Daugherty and Judge Wilkerson because of the injunction.

Although talk of a general strike of organized labor as a forcible protest against the injunction was persistent at Atlantic City, members of the executive council expressed opposition to such a course, declaring that "public sentiment was sufficient to win the battle."

## THE CANADIAN RAILWAYS ACCEPT; MEN MAY FIGHT

Ottawa, Sept. 7.—Acceptance of the award of the board of conciliation in the main shopmen's dispute and announcement of intention to put into effect the recommendations of the board have been received by the labor department from the C. P. R., Canadian National and Grand Trunk railways.

Toronto, Sept. 7.—James Simpson, the shopmen's member of the board of conciliation, believes the \$60,000 affected employees will fight the majority award. He submitted a minority award which stated that the board did not properly inquire into the wage reduction.

## UNEMPLOYMENT

Ottawa, Sept. 7.—(Canadian Press).—Presentation of the unemployment relief measures adopted by the Trades and Labor Congress of Canada and also of recommendations from other bodies kept the national conference on unemployment busy yesterday afternoon. Premier E. C. Drury of Ontario spoke against continuance of the system of handing out doles. In the evening the conference went into executive session to try to reach a definite recommendation for the relief of unemployment.

The Greek losses so far in the fighting with the Turks are estimated at \$6,000.

## MAGNESIA FINE FOR ACID STOMACH

Quickly Neutralizes Acidity. Stops Fermentation, Sweetens the Stomach.

Nine people in ten, when food upsets the stomach causing distress, think they have indigestion. In reality they are suffering from "acid stomach." An excess of acid in the stomach causes gas, heartburn, bloating and sourness.

To have a strong healthy stomach capable of easily and normally digesting three hearty meals a day you simply must keep these stomach acids neutralized and the stomach contents sweet. Artificial digestants are necessary. Just get a few ounces of Bisurated Magnesia from any good drug store and take a teaspoonful of the powder or two tab-

les in a half glass of water right after eating or whenever the slightest pain is felt. The result is amazing and you will be delighted with the almost instant relief it brings. This famous stomach sweetener combines Magnesia and Bismuth in desirable proportions and is not only splendidly effective but perfectly harmless. Its regular use keeps the stomach sweet, strong and healthy all the time.

Bisurated Magnesia is well known to druggists everywhere and is used annually by more than a half million people who now eat as they please, in reason with no more fear of indigestion.

**IN WALL STREET.**  
New York, Sept. 7.—(10.30).—Steady recovery from yesterday's pronounced weakness took place at the opening of today's stock market, reflecting favorable over night developments, in the industrial and railroad situations. There were a few declines but with the exception of Marland Oil, which dropped a point, they were all of a fractional nature. Considerable strength was shown by Pullman and Burns Brothers, each of which climbed two points, and Chicago Pneumatic Tool, which broke through to a new high for the year on a gain of 1 1/4 points. Gains of at least a point were made by Studebaker, Union Pacific, Consolidated Gas, Pullman, American Metal, Continental Can, American Can, American Knife, American Woolen and Norfolk and Western, all at gains of one to nearly four points. Other strong spots were Western Union and Bosch Magneto, each of which advanced three points, and New York Air Brake, which was up to two. Mexican Petroleum fell four points below its early high, while declines of one to two points took place in the Pan-American issue, Mexican Seaboard common and Houston Oil. Call money opened and renewed at 4 per cent.
