### VICTORIA PRISON IS A DEATH TRAP

BUILDING CONDEMNED BY FIRE CHIEF DAVIS

Council Backs Up Recommendations of Grand Jury to Remedy Conditions

(From Thursday's Daily.) Chief Davis and endorsed by the jury-just as Dr. A. H. Wright, of Toronto, tive merits of different types in use retiring president had introduced him. here and elsewhere.

particular case the matter was brought before the city council last night by Alderman Moresby in the hope that, backed by a resolution of the council, the recommendations of the grand jury carry greater weight. The necessary Alb. E. Green 1889 Stratheons Alb. only \$44. carry greater weight. The necessary Alb.: E. Green, 1889, Strathcona, Alb.; only \$44. resolution was passed without opposition, everyone being perfectly cogniz- Green, 1898, Cranbrook, B. C.; E. H. ant of the present condition of the Hogle, 1895, Vancouver; H. A. Mc-jail, and equally desirous of having its Kenzie, 1899, Winnipeg; J. B. Patter-

to cast some light upon the situation, and, needless to say, he did so in characteristic fashion. Not only did he point out that in the event of a fire occurring in the prison it would be palpably impossible to rescue the prisoners, but he made known to them the fact that ever since he came to the city he has been since he came to the city he has been send to the made working on it.

Washington, D. C., June 8.—A new get the direction of the new standard at our the new standard at our the new standard at our the prison of the new standard at our the prison of the new standard at our the new standard at our that in the event of a fire occurring in the swindles of recent years for its ingenuity, is being successfully operated in some of the Pacific Coast states. Its trail is said to reach as far east as New York.

Secret service men are working on it. challenging the condition of the prison as a disgrace to humanity. He told the jury that on several occasions he wrote letters to the Hon. Thomas Taylor. pointing out the condition of the prison, had never been heeded.

On visiting the prison on a recent occasion he suffered the professional chagrin of finding the fire hose rolled from the one in which the water valve was located, and again he found the bank notes before next winter. hose artistically wound round the valve Secret service men have found gather-so that had a fire occurred many valuable minutes would have been wasted first initiated into a supposed secret or in unwinding it. Furthermore, he point- der and sworn to secrecy. ed that the chemical engine which they had out there in the porch was utterly MARINERS TELL iseless on account of the fact that the door was too small to admit it. In short, ne had rarely seen a public institution so badly cared for in the matter of fir protection.

Wishing to point out the defects of the institution to the grand jury, the fire chief agreed to accompany them to the jail yesterday afternoon. On arriving at the scene and making an examination of the place, yet another defect seasickness. revealed itself. The blocks which everyone believed to be bricks, on account of gether, were discovered to be wood. The his wife not being a good sailor.
