FOREIGN NOTES OF INTEREST.

A great globe ornamented with the map of the earth has been carved in stone to decorate the estate of an eccentric Englishman at Swanage. It stands overlooking the sea, and is visually for quite a distance. One may walk about it and study it in detail. The plain surfaces, such as the oceans, lakes and deserts, are decorated with scriptural texts, which are supposed to apply especially to the locality they occupy.

Wreck of the Canadian Steamer Islander, Sunk Three Years Ago Has Been Found.

NEW YORK, July 16 .- A despatch to the Times from Tacoma, Washington, says: "Capt. Finch, manager of the Union Salvage Co., has located the wreck of the Canadian steamship Isnder, which sunk in Alaska water in August, three years ago, carrying down nearly 100 passengers and crew, be-sides half a million of Klondike treas-ure. Finch succeeded by using a big steel diving cage invented by Capt. W. M. Smith, of Milwaukee. This cage was successfully used here in locating the sunken British ship Andelana, ly-ing 30 fathoms deep in Tacoma harbor. Finch expects to raise the Islander and recover the valuables aboard. Estimates of the amount of gold in the pur ser's charge and in the staterooms o the passengers run from \$400,000 to \$700,-000. The vessel was going south from Skagway with scores of Klondikers.
